

# IBM C1000-173 New Cram Materials | Key C1000-173 Concepts

DOWNLOAD the newest Test4Sure C1000-173 PDF dumps from Cloud Storage for free: <https://drive.google.com/open?id=1i7HC9w4Bd1E6cSKSoB-mBEUVKTQehq9->

Before you buy our product, you can download and try out it freely so you can have a good understanding of our C1000-173 test prep. In such a way, the client can visit the page of our C1000-173 exam questions on the website. So the client can understand our C1000-173 Exam Materials well and decide whether to buy our C1000-173 training guide or not since that they have checked the quality of our C1000-173 exam questions. We provide the best C1000-173 learning guide to our client and you will be satisfied.

## IBM C1000-173 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Architect with Data Source Services: This domain measures expertise of a Data Integration Architect and includes architecting solutions with data replication technologies to synchronize data across systems. IBM Data Virtualization architecture enables access to and querying of disparate data sources without data movement. Architecting with watsonx.data focuses on building intelligent data lakes and query engines. Architecting with Db2-related services involves designing scalable data management and processing architectures using IBM's Db2 platforms.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Architect with Data Governance Services: This section evaluates skills of a Data Governance Specialist, covering the architecture of knowledge catalogs to enable data discovery and management. Data Privacy architectures ensure compliance with regulatory requirements around data protection. Knowledge Accelerators involve designing solutions that speed up data governance processes through predefined policies and templates.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Architect with Analytic Services: This domain targets a Data Analytics Architect and focuses on designing solutions using analytic components of Cloud Pak for Data. Architecting with DataStage involves creating data integration and ETL pipelines. Data Refinery architectures prepare and cleanse data for analysis. Db2 Big SQL solutions address querying large distributed data sets with SQL, facilitating analytics across diverse data sources.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>• <b>Security Requirements:</b> This domain targets a Security Architect and focuses on planning security for a Cloud Pak for Data deployment. It includes managing certificates that secure communications, identity management systems, and access and authorization controls to enforce secure and compliant user and service interactions. The auditing features and their integration with enterprise audit systems are crucial to ensure traceability and accountability. Asset interchange security involves safeguarding data movement between services.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Plan for a Cloud Pak for Data Implementation:</b> This section of the exam measures the skills of an Implementation Consultant and covers determining which Cloud Pak for Data services to deploy based on organizational needs. It involves sizing the Kubernetes</li> <li>• <b>OpenShift cluster appropriately for workload demands and planning backup and restore strategies to ensure data protection.</b> Planning for high availability and disaster recovery is essential to maintain uninterrupted service. Multi-tenancy requirements must be understood to support multiple user groups securely on shared infrastructure. Migration requirements need assessment to transition existing data and workloads smoothly.</li> </ul>

## 100% Pass 2026 Trustable IBM C1000-173: IBM Cloud Pak for Data v4.7 Architect New Cram Materials

We believe that every customer pays most attention to quality when he is shopping. Only high-quality goods can meet the needs of every customer better. And our C1000-173 training quiz has such high quality, because its hit rate of test questions is extremely high. Perhaps you will find in the examination that a lot of questions you have seen many times in our C1000-173 Real Exam. And you will find our C1000-173 practice questions are so popular that a lot of our candidates have bought them.

### IBM Cloud Pak for Data v4.7 Architect Sample Questions (Q151-Q156):

#### NEW QUESTION # 151

Which of the following best describes the business value of DataStage?

- **A. It reduces the operational cost by automating data integration tasks.**
- B. It solely enhances the aesthetic appeal of data reports.
- C. It decreases the flexibility in handling various data formats.
- D. It increases the need for manual intervention in data processing.

**Answer: A**

#### NEW QUESTION # 152

What is a critical aspect of monitoring DB2 services to enable efficient user querying?

- A. Ensuring that only DB administrators can monitor the system
- B. Ignoring query performance metrics
- **C. Providing insights into query execution and performance**
- D. Disabling user access to monitoring tools

**Answer: C**

#### NEW QUESTION # 153

What are the critical metrics to understand in a Disaster Recovery plan?

- A. System Downtime Duration (SDD) and Data Access Time (DAT)
- B. Peak Load Time (PLT) and Off-Peak Recovery Time (OPRT)
- **C. Recovery Time Objective (RTO) and Recovery Point Objective (RPO)**

- D. Maximum Tolerable Downtime (MTD) and Minimum Necessary Downtime (MND)

**Answer: C**

#### NEW QUESTION # 154

Insurance industry datasets frequently include personally identifiable information (PII) and many data analysts need access to datasets but not to PII.

Which Cloud Pak for Data services leverage Data Protection Rules?

- A. Watson Discovery and Watson Assistant
- **B. IBM Data Virtualization, Data Privacy, and IBM Knowledge Catalog**
- C. Data Refinery, Watson Pipeline, and Watson Studio
- D. DataStage, SPSS Modeler, and Python Notebooks

**Answer: B**

Explanation:

IBM Cloud Pak for Data includes built-in Data Protection Rules to enforce access control on sensitive data, such as PII. These rules are integrated directly into services like IBM Data Virtualization, Data Privacy, and IBM Knowledge Catalog. When analysts or applications access data through these services, the platform automatically masks, obfuscates, or restricts access to sensitive fields based on the defined policies. This ensures compliance with data privacy regulations and organizational security policies without manual intervention.

#### NEW QUESTION # 155

Which set of DataStage features are primarily intended to improve reusability and flexibility?

- A. Schema drift support, Dynamic Workload Management, and ELT run mode.
- B. DataStage connectors, Qualitystage stages, and DataStage Pipeline components.
- **C. DataStage components, parameters, parameter sets, and environment variables.**
- D. Macros, DataStage APIs, and DataStage jobs

**Answer: C**

Explanation:

DataStage promotes modularity and reusability through the use of components such as job stages, parameters, parameter sets, and environment variables. Parameters and parameter sets allow dynamic configuration of jobs, enabling reuse across environments and reducing hardcoding. Environment variables allow users to define global job behavior across projects. These elements significantly enhance development efficiency and pipeline portability. Other features like schema drift and ELT modes support execution flexibility, but they are not primarily focused on reusability.

#### NEW QUESTION # 156

.....

As we discussed above that the IBM Cloud Pak for Data v4.7 Architect (C1000-173) exam preparation material is available in three different formats. One of them is IBM C1000-173 PDF questions format which is portable. Users of this format can print IBM Cloud Pak for Data v4.7 Architect (C1000-173) real exam questions in this file to study without accessing any device. Furthermore, smart devices like laptops, smartphones, and tablets support the C1000-173 PDF Questions. Hence, you can carry this material to any place and revise C1000-173 exam questions conveniently without time restrictions.
