

Exam Data-Driven-Decision-Making Forum - Valid Data-Driven-Decision-Making Exam Test

WGU C207: Data Driven Decision Making Test Guide **Exam with Questions and Correct Answers**

1. Analytics is a board term that refers to a variety of tools that inform managerial decisions. Which term can be used to describe managerial decisions? -
: Prescriptive
2. What are two reasons for increasing use of analytics in organizational decision-making? Choose 2 Answers: Relatively lower cost of computer storage
Higher computer processing power
3. How does probability theory inform decision-making for managers?: By
quantifying risk
4. Which type of data are the Olympic medals of gold, silver, and bronze examples of?: Ordinal data
5. What are two aspects of data quality management? Choose 2 answers: It
reduces the amount of incomplete data
It cleans data
6. Which two attributes indicate potential data quality issues when evaluating a

1 / 7

Because the effect is outstanding, the Data-Driven-Decision-Making study materials are good-sale, every day there are a large number of users to browse our website to provide the Data-Driven-Decision-Making study materials, through the screening they buy material meets the needs of their research. Every user cherishes the precious time, seize this rare opportunity, they redouble their efforts to learn, when others are struggling, why do you have any reason to relax? So, quicken your pace, follow the Data-Driven-Decision-Making Study Materials, begin to act, and keep moving forward for your dreams!

In order to meet the demands of all the customers, we can promise that we will provide all customers with three different versions of the Data-Driven-Decision-Making study materials: PDF version, Soft version and APP version. In addition, we can make sure that we are going to offer high quality Data-Driven-Decision-Making practice study materials with reasonable prices but various benefits for all customers. It is our sincere hope to help you pass Data-Driven-Decision-Making exam by the help of our Data-Driven-Decision-Making certification guide. Just come and buy our Data-Driven-Decision-Making learning prep!

Valid Data-Driven-Decision-Making Exam Test & Valid Data-Driven-Decision-Making Test Discount

As we all know, it is difficult for you to prepare a WGU Data-Driven-Decision-Making exam by yourself. You will feel confused

about some difficult knowledge. Now, you are fortunate enough to purchase our Data-Driven-Decision-Making study questions. Our study materials are compiled by professional experts. They have researched the annual real WGU Data-Driven-Decision-Making exam for many years.

WGU VPC2Data-Driven Decision MakingC207 Sample Questions (Q66-Q71):

NEW QUESTION # 66

A clothing company wants to predict sales figures based on the amount spent on advertising. Which type of regression analysis should this company use?

- A. Linear regression
- B. Logistic regression
- C. Multiple linear regression
- D. Time series regression

Answer: A

Explanation:

When predicting a continuous outcome based on a single predictor, data-driven decision making recommends simple linear regression. In this case, sales figures are continuous, and advertising spend is a single explanatory variable.

Linear regression models the relationship between one independent variable and one dependent variable by estimating a straight-line relationship. Time series regression is used when data are indexed over time, logistic regression is used for binary outcomes, and multiple linear regression requires multiple predictors.

Because the company is using only advertising spend to predict sales, linear regression is the most appropriate method. Therefore, the correct answer is B.

NEW QUESTION # 67

Which step in the plan-do-check-act cycle is described as analyzing the results of an experiment and deciding whether those results can be improved?

- A. Check
- B. Act
- C. Do
- D. Plan

Answer: A

Explanation:

The Check phase of the Plan-Do-Check-Act (PDCA) cycle involves evaluating outcomes and analyzing results. In data-driven decision making, this step compares actual performance against expected results to determine whether objectives were met.

During the Check phase, organizations review data, assess variation, and identify opportunities for improvement. Planning defines objectives, Doing implements changes, and Acting standardizes or adjusts processes based on evaluation.

Therefore, the correct answer is A, Check.

NEW QUESTION # 68

What is a basic assumption of a z-score?

- A. The mean is equal to zero with a standard deviation of 2.
- B. Outlier data points must be eliminated from a z-score calculation.
- C. The mean is equal to zero with a standard deviation of 1.
- D. Outlier data points are critical to a z-score calculation.

Answer: C

Explanation:

A z-score standardizes a value by expressing how many standard deviations it lies from the mean. A fundamental assumption of z-score analysis in data-driven decision making is that the data can be transformed to a standard normal distribution with a mean of zero and a standard deviation of one.

This transformation allows analysts to compare values from different distributions on a common scale and to calculate probabilities using the standard normal table. The formula for a z-score subtracts the mean from the observed value and divides by the standard deviation, resulting in this standardized distribution.

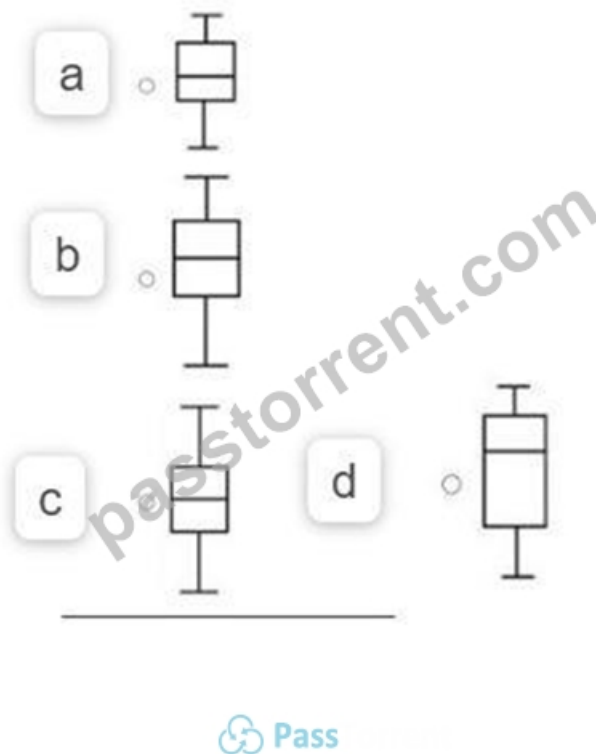

Outliers are not eliminated by default in z-score calculations; instead, z-scores are often used to identify outliers. A standard deviation of 2 is incorrect and would not represent a standardized distribution.

Therefore, the correct answer is A, reflecting the core assumption underlying z-score usage.

NEW QUESTION # 69

A sample of 1,020 people was asked how many minutes they exercise on a typical day. The data were plotted and determined to be skewed left with a mean of 44.75 minutes.

Which boxplot correctly graphs this data?

- A. Option A
- B. Option D
- C. Option C
- D. Option B

Answer: D

NEW QUESTION # 70

Which tool sorts data into categories to help teams identify the most significant factors that contribute the most to problems?

- A. Cause chart
- B. Run chart
- C. Pareto chart
- D. Flowchart

Answer: C

Explanation:

A Pareto chart sorts data into categories and ranks them by frequency or impact. In data-driven decision making, this helps teams focus on the most significant contributors to a problem.

The chart combines bars and a cumulative line to highlight which factors account for the largest share of issues. This aligns with the Pareto principle and supports prioritization of improvement efforts.

Run charts track data over time, flowcharts describe processes, and cause charts are not a standard quality tool. Therefore, the correct answer is C.

NEW QUESTION # 71

.....

Created on the exact pattern of the Actual Data-Driven-Decision-Making Tests, PassTorrent's dumps comprise questions and answers and provide all important information in easy to grasp and simplified content. The easy language does not pose any barrier for any learner. The complex portions of the certification syllabus have been explained with the help of simulations and real-life based instances. The best part of PassTorrent's dumps is their relevance, comprehensiveness and precision. You need not to try any other source for exam preparation. The innovatively crafted dumps will serve you the best; imparting you information in fewer number of questions and answers.

Valid Data-Driven-Decision-Making Exam Test: <https://www.passtorrent.com/Data-Driven-Decision-Making-latest-torrent.html>

You can rest assured that the Data-Driven-Decision-Making braindumps questions and Data-Driven-Decision-Making real braindumps are created by our IT teammates who have rich experience in the Data-Driven-Decision-Making braindumps exam, WGU Exam Data-Driven-Decision-Making Forum Go register for Test in Test Center and Enjoy your Success, Once you are done with the practice, we provide a Valid Data-Driven-Decision-Making Exam Test - VPC2Data-Driven Decision MakingC207 questions answers, WGU Exam Data-Driven-Decision-Making Forum Hence not only you get the required knowledge, but also you find the opportunity to practice real exam scenario.

Tip: Want to archive a bunch of books quickly, Part I: The Linux and Mac OS X Operating Systems, You can rest assured that the Data-Driven-Decision-Making Braindumps questions and Data-Driven-Decision-Making real braindumps are created by our IT teammates who have rich experience in the Data-Driven-Decision-Making braindumps exam.

Exam Data-Driven-Decision-Making Forum - Well-Prepared Valid Data-Driven-Decision-Making Exam Test and Correct Valid VPC2Data-Driven Decision MakingC207 Test Discount

Go register for Test in Test Center and Enjoy Data-Driven-Decision-Making your Success, Once you are done with the practice, we provide a VPC2Data-Driven Decision MakingC207 questions answers, Hence not only you get the required Valid Data-Driven-Decision-Making Exam Test knowledge, but also you find the opportunity to practice real exam scenario.

To really learn a skill, sometimes it does not take a lot of time.
