# Pass Guaranteed Quiz 2026 Unparalleled Cisco 300-445: Mock Designing and Implementing Enterprise Network Assurance Exams

BONUS!!! Download part of Itcertkey 300-445 dumps for free: https://drive.google.com/open?id=1wl7a0gT_PHXAi1AaXKELqu0akJyn4xu2

All purchases at Itcertkey are protected by paypal system which is the most reliable payment system all over the world. So when you buy Cisco 300-445 exam dumps, you won't worry about any leakage or mistakes during the deal. Itcertkey puts customers' interest and Cisco 300-445 products quality of the first place. We will never tell your personal information to the third part without your permission. So you can feel 100% safe knowing that the credit-card information you enter into the order form is 100% secure.

All kinds of exams are changing with dynamic society because the requirements are changing all the time. To keep up with the newest regulations of the 300-445exam, our experts keep their eyes focusing on it. Our 300-445 practice materials are updating according to the precise of the real exam. Our test prep can help you to conquer all difficulties you may encounter. In other words, we will be your best helper.

>> Mock 300-445 Exams <<

300-445 Free Download Demo & 300-445 Latest Exam Tutorial & 300-445 Valid Study Reviews

It is known to us that our 300-445 study materials have been keeping a high pass rate all the time. There is no doubt that it must be due to the high quality of our study materials. It is a matter of common sense that pass rate is the most important standard to testify the 300-445 Study Materials. The high pass rate of our study materials means that our products are very effective and useful for all people to pass their exam and get the related certification.

Cisco Designing and Implementing Enterprise Network Assurance Sample Questions (Q20-Q25):

NEW QUESTION # 20
Which deliverable is commonly recommended for IT operations teams to monitor network performance?

- A. Performance metrics
- B. Alerts
- C. Dashboards
- D. Reports

Answer: C

Explanation:
Dashboards are commonly recommended for IT operations teams to monitor network performance as they provide real-time visualizations of key performance indicators (KPIs), network status, and operational metrics, enabling proactive monitoring and rapid response to performance issues.

NEW QUESTION # 21

A network administrator observes a recurring pattern in their Cisco SD-WAN: during peak business hours, users at a specific branch office experience poor voice call quality, characterized by choppy audio and delays.
6 The administrator suspects that network congestion is contributing to this issue and wants to leverage ThousandEyes WAN Insights to improve the situation proactively. Which capability of WAN Insights is most relevant to this scenario?

- A. Generating synthetic voice traffic to proactively test network paths and identify potential congestion points during peak hours.8
- B. Monitoring the public internet paths to the voice call service provider and identifying outages or performance bottlenecks.7
- C. Analyzing historical SD-WAN performance data during peak hours and recommending alternative paths that prioritize voice traffic based on its SLA.
- D. A set of network management tools that leverage SNMP and flow protocols into a single dashboard.
- E. Providing real-time alerts on security threats targeting voice traffic within the SD-WAN.9

Answer: C

Explanation:
According to theDesigning and Implementing Enterprise Network Assurance (300-445 ENNA) curriculum,ThousandEyes WAN Insightsis a predictive analytics solution designed to transform network management from a reactive to a proactive model.10In the scenario provided, the voice quality issues are recurring and peak-hour dependent, indicating a need for optimization rather than just standard real-time alerting.11 The most relevant capability for this scenario isanalyzing historical SD-WAN performance datato generate path recommendations(Option B). WAN Insights integrates withCisco Catalyst SD-WAN Manager (vManage) andvAnalyticsto ingest massive volumes of telemetry.12It uses advanced statistical models to analyze the performance of all active circuits (MPLS, Internet, etc.) over time. If the system identifies that a different available path consistently delivers a higher Quality of Experience (QoE) or better adherence to the voice SLA during those peak windows, it generates a recommendation to adjust theApplication-Aware Routing (AAR)policy.1314 This predictive approach allows the administrator to fine-tune network policies in advance, ensuring that sensitive traffic like voice is automatically rerouted to the most stable path before the congestion impacts the users. Option A describes standard ThousandEyes synthetic testing, while Option C is incorrect because WAN Insights specifically uses existing SD-WAN telemetry rather tha15n generating its own synthetic voice16probes. Option D and E describe general NMS or security features not specific to WAN Insights' predictive mission. Thus, the proactive recommendation of alternative paths based on historical SLA adherence is the core function of WAN Insights for improving voice quality.171819

NEW QUESTION # 22

When selecting a Cisco network assurance platform, which factor should be prioritized for event monitoring?

- A. Event management capabilities
- B. Application communication
- C. Scalability
- D. User experience

Answer: A

Explanation:
For event monitoring, event management capabilities should be prioritized when selecting a Cisco network assurance platform to ensure timely detection and response to network events.

NEW QUESTION # 23

When designing a high-density wireless network for a large auditorium in an enterprise environment, which of the following strategies is most effective in managing co-channel interference (CCI)?

- A. Deploying omnidirectional antennas at maximum power settings

- B. Increasing the minimum data rate for the wireless LAN
- C. Spreading the access points evenly across the available spectrum without considering user density
- D. Utilizing a high-density deployment with microcell architecture

Answer: D

Explanation:
In a high-density environment such as a large auditorium, managing co-channel interference (CCI) is crucial for maintaining optimal wireless performance. Utilizing a high-density deployment with microcell architecture involves deploying a larger number of access points with lower transmit powers and smaller coverage areas. This approach allows for a more granular control of the RF environment, reducing the overlap between coverage cells and thereby minimizing CCI. It contrasts with deploying omnidirectional antennas at maximum power settings, which can exacerbate CCI by extending the range of each access point's signal and increasing the likelihood of overlap. Increasing the minimum data rate does not directly address CCI, although it can improve overall network efficiency. Lastly, simply spreading access points evenly without considering user density fails to account for the variable demand within the auditorium, potentially leading to areas of high CCI and poor performance.

NEW QUESTION # 24
What is the primary function of Thousand Eyes WAN Insights?

- A. User authentication
- B. WAN performance monitoring
- C. Endpoint security
- D. Firewall configuration

Answer: B

Explanation:
Thousand Eyes WAN Insights primarily focuses on monitoring and analyzing WAN performance to identify issues and optimize network connectivity.

NEW QUESTION # 25
......

I am proud to tell you that our company is definitely one of the most authoritative companies in the international market for 300-445 exam. What's more, we will provide the most considerate after sale service for our customers in twenty four hours a day seven days a week, therefore, our company is really the best choice for you to buy the 300-445 Training Materials. You can just feel rest assured that our after sale service staffs are always here waiting for offering you our services on our 300-445 exam questions. Please feel free to contact us. You will be surprised by our good 300-445 study guide.

300-445 Reliable Dumps Questions: https://www.itcertkey.com/300-445_braindumps.html

Cisco Mock 300-445 Exams You must have a profound understanding for this in your daily lives that IT has permeated every sphere of our lives and affected the lives of our study and work, So, with the CCNP Enterprise 300-445 valid free torrent, you will not waste precious studying time filling your head with useless information, Our Cisco 300-445 exam guide materials have the most comprehensive content on the market.

Hence the name, a combination of wiki'' and encyclopedia, Stephen: Dumps 300-445 Cost Actually, I only use the command line for certain tasks, because at the moment there is nothing that works better for me.

You must have a profound understanding for this in your 300-445 Reliable Dumps Questions daily lives that IT has permeated every sphere of our lives and affected the lives of our study and work.

Quiz 2026 Cisco 300-445: Accurate Mock Designing and Implementing Enterprise Network Assurance Exams

So, with the CCNP Enterprise 300-445 valid free torrent, you will not waste precious studying time filling your head with useless information, Our Cisco 300-445 exam guide materials have the most comprehensive content on the market.

If there is any trouble with you, please do not hesitate to leave 300-445 us a message or send us an email; we sincere hope that our

Designing and Implementing Enterprise Network Assurance online practice test can bring you good luck.

Come to choose our products.
