NEW QUESTION # 57
Refer to the exhibit. A Python script has been created that calls the Cisco SD-WAN vManage Device Inventory API to get the list of vEdges. The JSON data that returns to a Python dictionary has been converted and assigned to a variable named "d". A portion of the JSON is shown in the exhibit. Which code will complete the expression hostname= to access the hostname?

- A. d("data")[0]("host-name")
- B. d["data"][0]["host-name"]
- C. d["host-name"]["data"]{"0"}
- D. d[data][0][host-name]

Answer: B

Explanation:
The double-quotations are a necessary syntax of Python. And for the json portion doesnt use parentheses. It always uses brackets. d["data"][0]["host-name"] is the only logical answer.

NEW QUESTION # 58
Refer to the exhibit.
Which NETCONF statement type is represented by +--rw address* [ip]?

- A. leaf-list
- B. submodule
- C. container
- D. list

Answer: D

Explanation:
Symbols after data node names: "?" means an optional node, "!" means a presence container, and "*" denotes a list and leaf-list.

NEW QUESTION # 59
Refer to the exhibit. A network engineer creates a Python script to retrieve event messages from Cisco vManage by using the Cisco Catalyst SD-WAN vManage API. After the messages are retrieved, they are adapted to interact with network devices and sent to a Slack chatbot for further processing by engineers. After the script is run, a Python JSONDecodeError message is received. Which action resolves the issue?

- A. Specify the values of the variables that refer to the metrics.
- B. Correct the link to the requested resource.
- C. Change the authentication credentials.
- D. Use pagination with the query.

Answer: B

Explanation:
A JSONDecodeError in this scenario often means the script is not receiving valid JSON, which is typically caused by using an incorrect API resource path. In the script, the event resource is accessed as "/even" instead of the correct "/event". Correcting the link to the requested resource will resolve the issue and allow the script to retrieve valid JSON data.
