- **B. Manage Audit Policies**
- C. Manage Common Options for Payables and Procurement
- D. Configure Supplier Registration and Profile Change Request
- E. Manage Transmission Configurations

Answer: B

Explanation:

To select the attributes to be monitored for a supplier model, you use the Manage Audit Policies task in the Setup and Maintenance work area. This task allows you to enable auditing for various business objects, such as suppliers, supplier sites, supplier contacts, and supplier bank accounts. You can also select the attributes of each business object that you want to audit, such as supplier name, address, tax number, and so on. By enabling auditing, you can track the changes made to the supplier model and generate audit reports to protect against fraud.

Which two could be reasons for the approvals not being displayed?

- A. The requisition is currently under edit by an approver.
- **B. There are errors in retrieving approval details, or there could be any other infrastructure issues.**

Answer: B,D

When creating a negotiation, the category manager wants to send it to all supplier contacts for a supplier.

Which is the most efficient way to achieve this?

- A. Create a negotiation and add each supplier contact to it.
- **B. Create the negotiation by using a negotiation style with the appropriate supplier control selected.**
- C. Create a negotiation by using a negotiation template with each supplier contact added.
- D. Create a negotiation and send it to the supplier bidder contact for forward distribution.

Answer: B

Explanation:

The most efficient way to send a negotiation to all supplier contacts for a supplier is to use a negotiation style that has the supplier control option of "All supplier contacts" enabled. This option allows you to automatically include all the contacts associated with a supplier when you add the supplier to the negotiation. You do not need to manually add each contact or rely on the supplier bidder contact to forward the negotiation. You can also create a negotiation template with this option enabled and use it to create a negotiation.
