## **NCCER Module 46101 Fundamentals of Crew Leadership Sample Questions (Q26-Q31):**

### **NEW QUESTION # 26**

What is one of the many traits effective leaders should have?

- A. the ability to make decisions without listening to the opinions of others
- B. the motivation to carry the workload alone in order to achieve a goal
- **C. the ability to communicate the goals of a project**
- D. a perfectionist nature that ensures they will not make mistakes

**Answer: C**

Explanation:

Effective leaders possess strong communication skills, including the ability to communicate the goals of a project (A) clearly and concisely to their team. A perfectionist nature (B) can lead to micromanagement and hinder progress. Leaders should empower their team, not try to carry the workload alone (C). While decisiveness is important, effective leaders also value input from their team members (D). (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 1.1.2 Characteristics of Effective Leaders)

### **NEW QUESTION # 27**

Which of the following statements is NOT correct regarding work site first aid?

- A. Onsite treatment may be able to determine the need to call for professional aid.
- B. Prompt onsite treatment of injuries may prevent them from becoming more serious.
- **C. Company first-aid responders must be CPR-certified.**
- D. Work site responders can prepare the injured while waiting for professional aid.

**Answer: C**

Explanation:

While CPR certification is highly recommended and often a requirement for designated first-aid responders, the statement that company first-aid responders must be CPR-certified is not universally correct as a fundamental requirement in all circumstances. The level of first-aid training required can vary based on regulations and the specific risks of the job site. Work site responders are indeed expected to prepare the injured for further assistance (B), assess the situation to determine the need for professional aid (C), and provide initial treatment to prevent injuries from worsening (D). (OSHA 29 CFR 1926.50, Medical Services and First Aid; Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 3.1.3 First Aid Requirements)

### **NEW QUESTION # 28**

When writing or creating a visual message in a professional setting, you should

- A. state the purpose of the message last to make it more impactful.
- **B. proofread your work and make sure the document is legible**
- C. use technical language so that only your peers will be able to understand.
- D. always give your opinion.

**Answer: B**

Explanation:

Effective communication in a professional setting requires clarity and accuracy. Therefore, you should proofread your work and make sure the document is legible (B) to ensure the message is understood as intended. Giving your opinion (A) is not always necessary or appropriate, stating the purpose last (C) can lead to confusion, and using overly technical language (D) can hinder understanding for those outside your immediate peer group. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 6.1.2 Principles of Effective Communication)

### **NEW QUESTION # 29**

What is one way to provide effective training?

- A. by choosing one training method and using it for all trainees
- B. by encouraging trainees to listen, saving their questions for the end of the session
- **C. by tailoring the training to the career goals and needs of trainees**
- D. by avoiding giving negative feedback until trainees are more experienced in doing the task

**Answer: C**

Explanation:

Effective training is most successful when it is relevant and engaging for the learners. Therefore, by tailoring the training to the career goals and needs of trainees (B), you can increase their motivation and retention of the material. Using a single method for all (A) may not cater to different learning styles. While questions are important, discouraging them until the end (C) can hinder immediate understanding. Avoiding negative feedback (D) can prevent trainees from correcting mistakes and improving. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 5.2.1 Principles of Effective Training)

### **NEW QUESTION # 30**

What is a potentially important use of the daily diary that is NOT related to the crew leader's efficient management of work?

- **A. a source of information during litigation with the client**
- B. scheduling a new-worker orientation session
- C. documenting work completed
- D. recording an OSHA inspection visit

**Answer: A**

Explanation:

While the daily diary is crucial for documenting work progress (A), recording important events like OSHA inspections (B), and potentially noting training activities, a potentially important use not directly related to efficient daily management is that it can serve as a source of information during litigation with the client (D) by providing a detailed record of site conditions, work performed, and any relevant incidents. Scheduling a new-worker orientation (C) is more of a planning task than a daily record. (Fundamentals of Crew Leadership, Fourth Edition, NCCER, Section 2.2.3 Maintaining a Daily Log)

### **NEW QUESTION # 31**

.....
