2025 Latest PrepPDF DEP-2025 PDF Dumps and DEP-2025 Exam Engine Free Share: <https://drive.google.com/open?id=1iZlxZdqz4vTs7JB8nul97-fYvQp3mQpm>

Many candidates do not have actual combat experience, for the qualification examination is the first time to attend, so about how to get the test Apple certification didn't own a set of methods, and cost a lot of time to do something that has no value. With our DEP-2025 exam Practice, you will feel much relax for the advantages of high-efficiency and accurate positioning on the content and formats according to the candidates' interests and hobbies. Numerous grateful feedbacks from our loyal customers proved that we are the most popular vendor in this field to offer our DEP-2025 Preparation questions.

Apple DEP-2025 Exam Syllabus Topics:

| Topic | Details |
|---------|--|
| Topic 1 | <ul style="list-style-type: none">Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication. |
| Topic 2 | <ul style="list-style-type: none">Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality. |
| | |

| | |
|---------|--|
| Topic 3 | <ul style="list-style-type: none"> • Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes. |
| Topic 4 | <ul style="list-style-type: none"> • Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed. |
| Topic 5 | <ul style="list-style-type: none"> • Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs. |
| Topic 6 | <ul style="list-style-type: none"> • Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage. |
| Topic 7 | <ul style="list-style-type: none"> • Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools. |
| Topic 8 | <ul style="list-style-type: none"> • Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements. |

Apple DEP-2025 Exam Reviews - Exam DEP-2025 Duration

Our company was built in 2008 since all our education experts have more than ten years' experience in DEP-2025 guide torrent. The most important characters we pay attention on are our quality and pass rate. We devote ourselves to improve passing rate constantly and service satisfaction degree of our DEP-2025 training guide. And now you can find the data provided from our loyal customers that our pass rate of DEP-2025 learning guide is more than 98%. You will successfully pass your DEP-2025 exam for sure.

Apple Deployment and Management Exam Sample Questions (Q63-Q68):

NEW QUESTION # 63

Which enrollment type can supervise an iPad?

- A. Account-driven User Enrollment
- B. Account-driven Device Enrollment
- C. Profile-driven Enrollment
- **D. Automated Device Enrollment**

Answer: D

Explanation:

ADE enables supervision. The Apple Platform Deployment Guide states, "Automated Device Enrollment automatically supervises devices during setup when linked to Apple Business Manager." References: Apple Platform Deployment Guide, "Automated Device Enrollment" section. iOS Deployment Reference, "Supervision" section.

NEW QUESTION # 64

What are two functions of Secure Enclave? (Select two)

- A. Encrypt tokens for Recovery Lock, Bypass Code, and Personal Recovery Key.
- B. Encrypt mail, web, and other internet traffic.
- **C. Process data from Face ID and Touch ID sensors.**
- D. Secure MDM communications and APNs notifications.
- **E. Provide secure generation and key storage for encrypting data at rest.**

Answer: C,E

Explanation:

The Secure Enclave is a coprocessor built into Apple silicon and T2-equipped devices, designed to handle sensitive security functions. Apple Learning emphasizes two primary roles: (1) secure key generation and storage for data at rest encryption (D), ensuring FileVault and other storage encryption keys remain isolated from the main processor, and (2) biometric data processing (E) for Touch ID and Face ID. The Secure Enclave isolates and protects this biometric data, never exposing it to iOS, iPadOS, or macOS directly. It does not encrypt mail or internet traffic (handled by TLS/SSL), nor does it secure MDM communications or APNs notifications. Tokens for Recovery Lock and bypass codes are tied to MDM workflows but not directly managed by Secure Enclave. Its primary function is cryptographic and biometric security.

NEW QUESTION # 65

Which of these account roles in Apple Business Manager or Apple School Manager can enable federated authentication?

- A. Device Enrollment Manager
- B. Authentication Manager
- C. Content Manager
- **D. People Manager**

Answer: D

Explanation:

Apple defines strict roles and permissions for tasks in Apple Business Manager (ABM) and Apple School Manager (ASM). Federated Authentication requires elevated privileges, as it links your Apple deployment to an identity provider such as Microsoft Entra ID. According to Apple's learning guides, only the roles of Administrator and People Manager can enable and configure federated authentication. Other roles such as Content Manager or Device Enrollment Manager have no authority to make federation-level changes. This restriction ensures only trusted admins with organizational oversight can integrate Apple IDs with external identity systems, minimizing security risk and maintaining compliance.

NEW QUESTION # 66

What's required to use Activation Lock on a device?

- A. An MDM solution
- B. Supervision
- **C. An Apple ID**
- D. A passcode

Answer: C

Explanation:

Activation Lock requires an Apple ID (personal or Managed) to be enabled, typically activated when Find My is turned on. It prevents reactivation after a wipe without the associated credentials. An MDM solution (option A) can manage or bypass Activation Lock but isn't required to use it. Supervision (option B) enhances management but isn't necessary for Activation Lock. A passcode (option D) adds security but isn't a prerequisite. The Apple Platform Security Guide specifies an Apple ID as the core requirement.

NEW QUESTION # 67

What should be escrowed in MDM to enable resetting the password on a user's FileVault-encrypted Mac?

- A. Bootstrap token
- **B. Personal recovery key**

- Answer: B**

The personal recovery key, generated when FileVault is enabled, must be escrowed in MDM to allow password resets on an encrypted Mac. The macOS Security Overview states, "For MDM-managed devices, the personal recovery key can be escrowed to enable password resets or disk unlocking by an administrator." Option B is an older method, C is an authentication credential not escrowed for this purpose, and D is for updates, not password resets.

Apple Platform Deployment Guide, "FileVault and MDM" section.
