2025 DEP-2025 Latest Practice Questions | Accurate 100% Free DEP-2025 Practice Tests

Although our company has designed the best and most suitable DEP-2025 learn prep, we also do not stop our step to do research about the study materials. All experts and professors of our company have been trying their best to persist in innovate and developing the DEP-2025 test training materials all the time in order to provide the best products for all people and keep competitive in the global market. We believe that the study materials will keep the top selling products. We sincerely hope that you can pay more attention to our DEP-2025 study questions.

Apple Deployment and Management Exam Sample Questions (Q221-Q226):

NEW QUESTION # 221

Which Kerberos feature allows users to sign in once and access multiple authenticated services?

- **A. Ticket-granting ticket (TGT)**
- B. SAML
- C. OAuth
- D. Sign in with Apple at Work & School

Answer: A

Explanation:

In Kerberos, the Ticket-Granting Ticket (TGT) is the feature that enables single sign-on (SSO). After initial authentication, the user receives a TGT from the Key Distribution Center (KDC). The TGT is then used to obtain service tickets for accessing various resources without re-authenticating, providing a seamless SSO experience. Sign in with Apple at Work & School (option A) is an Apple-specific feature, not a Kerberos component. OAuth (option B) and SAML (option D) are separate SSO protocols, not Kerberos features.

The Apple Platform Security Guide explains the TGT's role in Kerberos SSO.

Reference: Apple Platform Security Guide (Section: Kerberos and SSO).

NEW QUESTION # 222

You used Apple Business Manager to assign enrolled iPhone and iPad devices to a new MDM solution. What must you do to enroll the devices in the new MDM solution using Automated Device Enrollment?

- **A. Erase the devices.**
- B. Send a remote-wipe command from Apple Business Manager.
- C. Revive the devices.
- D. Release the devices in Apple Business Manager.

Answer: A

Explanation:

Erasing triggers ADE. The Apple Business Manager User Guide states, "To enroll devices in a new MDM solution via ADE after reassignment, erase the devices to restart Setup Assistant and connect to the new server." References:

Apple Business Manager User Guide, "Reassign Devices" section.

Apple Platform Deployment Guide, "ADE Re-enrollment" section.

NEW QUESTION # 223

You're assigning books that were bought in Apple Business Manager. Which of these can you assign the books to?

- A. iPhone and iPad devices
- B. Mac computers
- **C. Users with a Managed Apple Account**
- D. Shared iPad devices

Answer: C

Explanation:

In Apple Business Manager (ABM), books are assigned to users with Managed Apple Accounts, not directly to devices. This allows users to access books across multiple devices linked to their account. The Apple Business Manager User Guide states, "Books can be assigned to users with Managed Apple Accounts. Once assigned, users can access these books on any device where they're signed in with their Managed Apple Account." Options A, B, and D are incorrect because assignment is user-centric,

not device-specific, though Macs can access books via the user's account.

Reference:

Apple Business Manager User Guide, "Manage Content" section.

Apple Deployment Guide for Education, "Content Distribution" section.

NEW QUESTION # 224

A user reports that their managed Mac is asking for a six-digit PIN after an unexpected restart. What explains this?

- A. You sent the Lock a Mac command.
- B. You turned on Activation Lock.
- C. You turned on Managed Lost Mode.
- D. You sent the EraseDevice command.

Answer: A

Explanation:

The Lock a Mac command generates a six-digit PIN for unlocking. The Mobile Device Management Protocol Reference states, "The Lock command sent via MDM locks a Mac and generates a six-digit PIN that must be entered to regain access." Option A prevents booting, B wipes the device, and D is iOS-specific.

Reference:

Mobile Device Management Protocol Reference, "Lock Command" section.

macOS Security Overview, "Device Locking" section.

NEW QUESTION # 225

Which portal should educational institutions use to manage student devices?

- A. Managed Apple ID portal
- B. Apple School Manager
- C. Apple Business Manager
- D. Apple Configurator

Answer: B

Explanation:

Apple School Manager (ASM) is the dedicated portal for educational institutions to manage student devices, staff accounts, and content like apps and books. It supports features like Shared iPad and integration with classroom tools, tailored for education.

Apple Business Manager (option A) is for businesses, not schools.

Apple Configurator (option B) is a tool for manual device setup, not a management portal. There's no standalone "Managed Apple ID portal" (option D); Managed Apple IDs are managed within ASM. The Apple Platform Deployment Guide specifies ASM for educational device management.

Reference: Apple Platform Deployment Guide (Chapter: Apple School Manager).

NEW QUESTION # 226

.....

Prep4cram can not only achieve your dreams, but also provide you one year of free updates and after-sales service. The answers of Prep4cram's exercises is 100% correct and they can help you pass Apple Certification DEP-2025 Exam successfully.
