

DEP-2025 Latest Test Question, DEP-2025 Trusted Exam Resource

P.S. Free & New DEP-2025 dumps are available on Google Drive shared by PDF4Test: https://drive.google.com/open?id=11OAmFoZvgnBzptEXgKM_nI9jwdFRjle

If you are preparing for DEP-2025 exam and upset without accurate exam torrent and practice materials, PDF4Test guarantees you to pass exam at first attempt absolutely. Our DEP-2025 exam torrent is edited by latest official examination knowledge. Once official department change questions we will release new version of DEP-2025 Exam Torrent accordingly. We provide one year free update and service warranty for all products. You will have sufficient time to take part in exams.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	• Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 2	• Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.
Topic 3	• Device Enrollment: This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.
Topic 4	• Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.

Topic 5	• Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 6	• Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Topic 7	• Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.
Topic 8	• Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 9	• Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.
Topic 10	• Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 11	• Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.

Apple DEP-2025 Trusted Exam Resource & Reliable DEP-2025 Braindumps Pdf

We have dedicated staff to update all the content of DEP-2025 exam questions every day. So you don't need to worry about that you buy the materials so early that you can't learn the last updated content. And even if you failed to pass the exam for the first time, as long as you decide to continue to use Apple Deployment and Management Exam torrent prep, we will also provide you with the benefits of free updates within one year and a half discount more than one year. DEP-2025 Test Guide use a very easy-to-understand language.

Apple Deployment and Management Exam Sample Questions (Q95-Q100):

NEW QUESTION # 95

What's required to install a configuration profile on a device?

- A. User acceptance
- B. An MDM solution
- C. An ADE token
- D. An APNs certificate

Answer: A

Explanation:

To install a configuration profile on an Apple device, user acceptance is required unless the device is enrolled in an MDM solution with specific automation (e.g., Automated Device Enrollment). Configuration profiles, which contain settings or policies, are typically downloaded manually (e.g., via a website or email) and must be approved by the user through the Settings app on iOS/iPadOS or System Settings on macOS. An MDM solution (option A) can push profiles, but it's not required for manual installation. An APNs certificate

certificate (option B) is needed for MDM communication, not profile installation itself. An ADE token (option D) is for Automated Device Enrollment, not general profile installation. The Apple Platform Deployment Guide notes that user consent is a default step for manual profile installation.

NEW QUESTION # 96

Which of these is a valid consideration when organizations buy content in Apple Business Manager?

- A. Content is automatically assigned to user accounts.
- B. Only IT administrators can make purchases on behalf of the organization.
- C. Organizations must negotiate a license directly with the publisher when buying free content.
- **D. Licenses for purchased apps can be transferred to another location.**

Answer: D

Explanation:

Licenses can be transferred within an organization. The Apple Business Manager User Guide states, "Licenses for purchased apps can be transferred to another location within the same organization in Apple Business Manager." Options B, C, and D are incorrect as free content doesn't require negotiation, assignment isn't automatic, and multiple roles can purchase.

References:

Apple Business Manager User Guide, "Manage Licenses" section.

Apple Platform Deployment Guide, "Content Management" section.

NEW QUESTION # 97

What's the benefit of using Managed Distribution?

- A. Simplifies enrollment
- **B. Enables app license management**
- C. Separates personal and managed data
- D. Allows personalization

Answer: B

Explanation:

Managed Distribution, available through Apple Business Manager or Apple School Manager, enables app license management by allowing organizations to purchase, assign, and revoke app licenses centrally. This ensures efficient use of licenses, reassignment as needed, and compliance with licensing terms. Personalization (option A) is unrelated to distribution. Data separation (option C) is a feature of User Enrollment, not Managed Distribution. Simplified enrollment (option D) pertains to ADE, not app management. The Apple Business Manager User Guide highlights license management as the primary benefit.

NEW QUESTION # 98

What's required to purchase apps in Apple Business Manager?

- **A. An Administrator role**
- B. User acceptance
- C. A Managed Apple ID
- D. An Apple Developer account

Answer: A

Explanation:

In Apple Business Manager (ABM), the Administrator role is required to purchase apps through the Apps and Books section, as it has permissions to manage financial transactions and content acquisition. Other roles, like Content Manager, can distribute but not purchase apps. An Apple Developer account (option B) is for app development, not purchasing. A Managed Apple ID (option C) is for users, not administrators buying apps. User acceptance (option D) is irrelevant to purchasing. The Apple Business Manager User Guide confirms the Administrator's purchasing authority.

NEW QUESTION # 99

Which feature allows IT administrators to manage VPN settings on a device?

- A. Find My
- B. MDM
- C. Configuration profiles
- D. iCloud

Answer: C

Explanation:

Configuration profiles enable IT administrators to manage VPN settings on a device, specifying details like server address, protocol (e.g., IKEv2, L2TP), and authentication methods (e.g., certificates, credentials). These profiles are deployed via MDM or manually, ensuring secure network access. Find My (option B) and iCloud (option C) are unrelated to VPN management. MDM (option D) is the system that delivers profiles, but the profiles themselves contain the VPN settings. The Apple Platform Deployment Guide details VPN configuration via profiles.

NEW QUESTION # 100

.....

We are intent on keeping up with the latest technologies and applying them to the DEP-2025 exam questions and answers not only on the content but also on the displays. Our customers have benefited from the convenience of state-of-the-art. That is why our pass rate on DEP-2025 practice quiz is high as 98% to 100%. The data are unique-particular in this career. With our DEP-2025 exam torrent, you can enjoy the leisure study experience as well as pass the DEP-2025 exam with success ensured.
