DEP-2025 Braindumps Downloads & DEP-2025 New Braindumps Ebook

If you TestValid, TestValid can ensure you 100% pass Apple Certification DEP-2025 Exam. If you fail to pass the exam, TestValid will full refund to you.

Apple Deployment and Management Exam Sample Questions (Q242-Q247):

NEW QUESTION # 242

Which feature allows IT administrators to manage email settings on a device?

- A. MDM
- B. iCloud
- C. Find My
- **D. Configuration profiles**

Answer: D

Explanation:

Configuration profiles allow IT administrators to manage email settings on a device, preconfiguring accounts with details like server addresses, ports, and authentication (e.g., OAuth, certificates). These profiles are deployed via MDM or manually, ensuring consistent email access. Find My (option B) and iCloud (option C) are unrelated to email management. MDM (option D) delivers profiles, but the profiles define the settings.

The Apple Platform Deployment Guide details email configuration via profiles.

Reference: Apple Platform Deployment Guide (Chapter: Configuration Profiles).

NEW QUESTION # 243

What should be escrowed in MDM to enable resetting the password on a user's FileVault-encrypted Mac?

- A. Bootstrap token
- B. Institutional recovery key
- C. Secure token
- **D. Personal recovery key**

Answer: D

Explanation:

The personal recovery key, generated when FileVault is enabled, must be escrowed in MDM to allow password resets on an encrypted Mac. The macOS Security Overview states, "For MDM-managed devices, the personal recovery key can be escrowed to enable password resets or disk unlocking by an administrator." Option B is an older method, C is an authentication credential not escrowed for this purpose, and D is for updates, not password resets.

References:

macOS Security Overview, "FileVault Management" section.

Apple Platform Deployment Guide, "FileVault and MDM" section.

NEW QUESTION # 244

Which type of content can be cached using content caching?

- A. OS updates
- **B. All of the above**
- C. Apps
- D. iCloud data

Answer: B

Explanation:

Content caching on a Mac running macOS 10.13 or later can cache multiple types of content: apps (from the App Store), OS

updates (for macOS, iOS, iPadOS), and iCloud data (e.g., documents, photos). This reduces bandwidth usage by storing content locally for networked devices. Options A, B, and C are all correct individually, but D encompasses them all, aligning with the capabilities outlined in the Apple Platform Deployment Guide.

Reference: Apple Platform Deployment Guide (Chapter: Content Caching).

NEW QUESTION # 245

What's required to unenroll a supervised device from an MDM solution?

- A. A wipe command
- **B. An administrator's approval**
- C. User acceptance
- D. An Apple ID

Answer: B

Explanation:

Unenrolling a supervised device from an MDM solution requires an administrator's approval, typically executed by removing the MDM profile via the MDM server. For supervised devices (via ADE or Apple Configurator), users cannot remove the profile themselves, ensuring organizational control. An Apple ID (option B) isn't required for unenrollment, though it may relate to Activation Lock. User acceptance (option C) isn't needed for supervised devices. A wipe command (option D) may accompany unenrollment but isn't mandatory. The Apple Platform Deployment Guide outlines this process for supervised devices.

NEW QUESTION # 246

What provides a consistent set of management tools for Apple devices to all MDM vendors?

- A. Managed service configuration files
- **B. Apple's MDM framework**
- C. Automated Device Enrollment
- D. Apple Push Notification service

Answer: B

Explanation:

Apple's MDM framework standardizes tools. The Mobile Device Management Protocol Reference states, "Apple's MDM framework provides a consistent set of APIs and management tools that all MDM vendors use to manage Apple devices." Option D supports communication, not tools.

Reference:

Mobile Device Management Protocol Reference, "Overview" section.

Apple Platform Deployment Guide, "MDM Framework" section.

NEW QUESTION # 247
