Valid H13-831_V2.0 Test Pdf & H13-831_V2.0 Study Material

Choosing our Huawei H13-831_V2.0 study material, you will find that it will be very easy for you to overcome your shortcomings and become a persistent person. If you decide to buy our HCIE-Cloud Service Solutions Architect (Written) V2.0 H13-831_V2.0 study questions, you can get the chance that you will pass your H13-831_V2.0 exam and get the certification successfully in a short time.

Huawei HCIE-Cloud Service Solutions Architect (Written) V2.0 Sample Questions (Q58-Q63):

NEW QUESTION # 58

Because stand-alone RDS has certain limitations in processing large quantities of data, a company decided to use Huawei Cloud DDM distributed middleware + RDS instance to solve the problems of limited stand-alone RDS expansion capabilities and slow database response. Which of the following description about the advantages of DDM distributed middleware + RDS instance over stand-alone RDS are correct? (Multiple choice)

- A. separate read and write, the user can read the data in accordance with the pressure load for each RDS instance configuration - one or more read-only instance, improve query concurrency.
- B. High performance, DDM instance associates multiple RDS nodes, and realizes parallel computing at the same time.
- C. Horizontal expansion, DDM supports new RDS instances without interrupting business, and horizontal expansion of storage space.
- D. Data distributed storage, DDM adopts a horizontal split method to split a single database with a large number of data records according to specified rules, and distributed storage to each partition.

Answer: A,B,C,D

NEW QUESTION # 59

When the user uses the Huawei Cloud SMS host migration service to migrate the source server. Which of the following file systems is not supported?
