NEW QUESTION # 203

Which statement BEST describes an assessor's evidence gathering activities?

- A. Test certain assessment objectives to determine findings.
- **B. Use examinations, interviews, and tests to gather sufficient evidence.**
- C. Test all practices or objectives for a Level 2 practice
- D. Use interviews for assessing a Level 2 practice.

Answer: B

Explanation:

Under the CMMC Assessment Process (CAP) and CMMC 2.0 guidelines, assessors must gather objective evidence to validate that an organization meets the required security practices and processes. This evidence collection is performed through three primary assessment methods:

- * Examination- Reviewing documents, records, system configurations, and other artifacts.
- * Interviews- Speaking with personnel to verify processes, responsibilities, and understanding of security controls.
- * Testing- Observing system behavior, performing technical validation, and executing controls in real-time to verify effectiveness.
- * The CMMC Assessment Process (CAP) states that an assessor must use a combination of evidence-gathering methods (examinations, interviews, and tests) to determine compliance.
- * CMMC 2.0 Level 2 (Aligned with NIST SP 800-171) requires assessors to verify not only that policies and procedures exist but also that they are implemented and effective.
- * Solely relying on one method (like interviews in Option A) is insufficient.
- * Testing all practices or objectives (Option B) is unnecessary, as assessors follow scoping guidance to determine which objectives need deeper examination.
- * Testing only "certain" objectives (Option C) does not fully align with the requirement of gathering sufficient evidence from multiple methods.
- * CMMC Assessment Process (CAP) Guide, Section 3.5 - Assessment Methods explicitly defines the use of examinations, interviews, and tests as the foundation of an effective assessment.
- * CMMC 2.0 Level 2 Practices and NIST SP 800-171 require assessors to validate the presence, implementation, and effectiveness of security controls.
- * CMMC Appendix E: Assessment Procedures states that an assessor should use multiple sources of evidence to determine compliance.

Why Option D is Correct CMMC 2.0 and Official Documentation References Final Verification To ensure compliance with CMMC 2.0 guidelines and official documentation, an assessor must use examinations, interviews, and tests to gather evidence effectively, making Option D the correct answer.

NEW QUESTION # 204

What is objectivity as it applies to activities with the CMMC-AB?

- A. Reporting results of CMMC services completely
- B. Ensuring full disclosure
- **C. Avoiding the appearance of or actual, conflicts of interest**
- D. Demonstrating integrity in the use of materials as described in policy

Answer: C

Explanation:

Understanding Objectivity in CMMC-AB Activities Objectivity in CMMC-AB activities refers to the requirement that assessors and C3PAOs remain impartial, unbiased, and free from conflicts of interest while conducting assessments and providing CMMC-related services.

Key Aspects of Objectivity in CMMC Assessments: #No conflicts of interest- Assessors must not assess organizations they have financial, professional, or personal ties to.

#Unbiased reporting- Findings must be based solely on evidence, with no external influence.

#Avoiding even the appearance of a conflict-If there is any perception of bias, it must be addressed.

A). Ensuring full disclosure # Incorrect

Full disclosure is important but does not define objectivity. Objectivity means remaining neutral and free from conflicts.

B). Reporting results of CMMC services completely # Incorrect

While accurate reporting is required, objectivity focuses on impartiality, not just completeness.

C). Avoiding the appearance of or actual, conflicts of interest # Correct Objectivity in CMMC-AB activities is primarily about preventing bias and ensuring fair assessments.

Avoiding conflicts of interest ensures that assessments are credible and trustworthy.

D). Demonstrating integrity in the use of materials as described in policy # Incorrect Integrity is important, but objectivity is specifically about avoiding bias and conflicts of interest.

Why is the Correct Answer "C. Avoiding the appearance of or actual, conflicts of interest"?

CMMC-AB Code of Professional Conduct

Requires assessors and C3PAOs to avoid conflicts of interest and maintain impartiality.

CMMC Assessment Process (CAP) Document

Emphasizes that assessments must be free from external influence and conflicts of interest.

ISO/IEC 17020 Requirements for Inspection Bodies

Defines objectivity as avoiding conflicts of interest in the assessment process.
