Oracle 1Z1-591 Valid Exam Experience - 1Z1-591 Valid Exam Cost

Free update for 1Z1-591 Study Guide materials are available, that is to say, in the following year, you can get the latest information about the 1Z1-591 exam dumps without spending extra money. In addition, 1Z1-591 study guide of us is compiled by experienced experts, and they are quite familiar with the dynamics of the exam center, so that if you choose us, we can help you to pass the exam just one time, in this way, you can save your time and won't waste your money. We also have online and offline chat service stuff, if any other questions, just contact us.

Oracle Business Intelligence Foundation Suite 11g Essentials Sample Questions (Q48-Q53):

NEW QUESTION # 48

If you have a database with four aggregate tables, how should the repository be configured to take advantage of the aggregates?

- A. By creating four new logical tables sources
- **B. By creating four new logical table sources and choosing each dimension's level of aggregation in the Content tab**
- C. By creating four new logical table sources and using the Fragmentation content to specify the aggregation levels
- D. By creating four new logical table sources and using the "where" section of the Content tab to specify the aggregation levels

Answer: B

Explanation:

Content Tab

Aggregation Content

You can define the aggregation (ie the group by) of:

by hierarchy level

by logical column

It helps you to define an aggregate navigation

Note: logical table source

Logical table sources define the mappings from a single logical table to one or more physical tables. A logical table contains one or more logical table source. The mapping between physical columns and logical columns are done in this element.

The definition of the logical table source is used:

- * to specify transformations/calculations (in the column mapping tab),
- * to enable aggregate navigation and fragmentation (in the content tab) The Content tab of the Logical Table Source is used to define:
- * any aggregate table content definitions (specify the grain of the physical tables),

- * fragmented table definitions for the source,
- * and WHERE clauses (if you want to limit the number of rows returned).

NEW QUESTION # 49

Which two steps are needed to set up Failover support for an OBIEE deployment?

- A. Leverage spare hardware capacity of single machine by using Vertical scale out option
- **B. Apply OBIEE Clustering option**
- **C. Use Installer to affect Horizontal scale out of an existing instance**
- D. Employ WebLogic Enterprise Edition, licensed separately
- E. Use Installer to set up separate single instances, then apply Horizontal scale out clustering

Answer: B,C

Explanation:

Horizontal Scaleout of System Components

* Used for adding additional managed servers (Java components) and system components to an existing cluster

* Used for scalability and failover

* Set up via the Universal Installer > Scale Out BI System option

NEW QUESTION # 50

Identify the three advantages of the BI Server metadata repository.

- **A. Three layers support the highest level of security**
- **B. Mapping of federated data sources to one logical object**
- C. Ability to change physical sources without losing reports
- **D. Little changes in the physical layer to shift from development to production environment**

Answer: A,B,D

Explanation:

A: OBIEE Federated Repository Instead of moving data in to a single database, OBIEE - BI Administration can access multiple databases and create a single federated repository. OBIEE BI Answer uses this federated repository and build the ad-hoc reports and dashboards.

D: Repository Metadata Consists of 3 Layers

*The Physical Layer (Schema)

*The Business Model and Mapping Layer

*The Presentation Layer

Note: star schema

NEW QUESTION # 51

There are two aggregate tables that are available for query. How would they be mapped into the logical data model so queries can use them?

- A. By opening the two logical Table Source dialog boxes and mapping the appropriate levels in the Content tab
- B. Both A and B
- C. By creating two new logical tables sources
- D. By creating one new Logical Table Source

Answer: A

Explanation:

Explanation/Reference:

B: Example:

1. Configure the new source table to have the 'logical level' under the content set to 'Countries' (the summarized level)

b

2. Do the similar setting for dimension table

Now when user query the data at 'Countries' level, the query will be redirected to these summary table instead of the more detail fact table

Note: Aggregate tables are Physical tables that store Aggregates of measures across multiple levels of a Hierarchy.

NEW QUESTION # 52

Which three components are part of a cluster server?

- A. Server request Controller
- B. Web Server
- C. Repository Publishing Directory
- D. Master Server
- E. Primary Cluster Controller

Answer: B,D,E

Explanation:

Explanation

Oracle BI Cluster Server Components

* Oracle Business Intelligence Cluster Controller: The Cluster Controller determines which BI Server works in the cluster. It monitors the operation of servers in the cluster. The Cluster Controller is deployed in active-passive mode.

* Clustered BI Servers: The BI Cluster Server feature supports up to 16 BI Servers in a network domain to act as a single server. BI Servers in the cluster share requests from multiple Oracle BI clients.

* Master BI Server: A clustered Oracle Business Intelligence Server is designated as the Master BI Server.

The Oracle Business Intelligence Administration Tool connects to the master BI Server for online repository changes.

* Cluster Manager: The Cluster Manager is available in the Administration Tool when a repository is opened in online mode. The Cluster Manager enables Oracle BI Server clustered instances.

NEW QUESTION # 53

.....

Our practice exams are designed solely to help you get your 1Z1-591 certification on your first try. A Oracle 1Z1-591 practice test will help you understand the exam inside out and you will get better marks overall. It is only because you have practical experience of the exam even before the exam itself. Braindumpsqa offers authentic and up-to-date study material that every candidate can rely

on for good preparation. Our top priority is to help you pass the Oracle Business Intelligence Foundation Suite 11g Essentials (1Z1-591) exam on the first try.
