NEW QUESTION # 40

In an EC-integrated implementation, which of the following EC elements can be used to map fields? Note:

There are 3 correct answers to this question.

- A. Background Elements
- B. MDF Objects
- C. Pay Components
- D. Time Off
- E. Biographical Information

Answer: B,C,E

Explanation:

In SAP SuccessFactors Compensation integrated with Employee Central, mapping data fields between Employee Central and Compensation templates is essential. The following elements can be mapped:

* Biographical Information (Option A):

* Biographical data such as date of birth, gender, and other demographic information can be mapped from Employee Central to Compensation worksheets. This data can be used to filter or personalize employee details on the worksheet.

* MDF Objects (Option C):

* Metadata Framework (MDF) Objects allow custom object configuration in Employee Central, enabling businesses to define custom fields or data structures. These can then be mapped to fields in Compensation templates, providing flexibility to bring in

custom attributes like competencies, certifications, or additional criteria.

* Pay Components (Option D):

* Pay components, such as base salary, allowances, and bonuses, are fundamental elements in Employee Central and can be mapped directly to compensation planning fields on the worksheet.

This mapping ensures accurate financial data and compensation planning alignment with Employee Central records.

Excluded Options:

* Time Off (Option B): Time Off data is not typically mapped directly to Compensation worksheets as it primarily manages leave and absence.

* Background Elements (Option E): Background elements generally pertain to employee profiles (e.g., previous work experience or education) and are not used in direct mapping to Compensation worksheets.

:

SAP SuccessFactors Employee Central and Compensation Integration Guide, specifically under the "Mapping Employee Central Data to Compensation Fields" section, outlines eligible data fields and elements that can be integrated.

NEW QUESTION # 41

Your customer would like the Reward team to be able to override the final salary of the employee by directly entering in the final amount in Executive Review. However, they want to make sure that this is only possible during the last week of the planning cycle. How can you achieve this?

- A. Create a custom read-only Money field change read-only to No on the correct date.
- B. Create a custom editable Money field with field-based permissions set to read-only. Change the permissions to editable on the correct date.
- C. Create a custom editable Money field. In the formula to calculate the final salary, use the dateDiff() function to determine if the custom column can override the calculated value.
- D. Create a custom editable Money field use custom validation to check that values are NOT entered until the correct date.
