

Detailed C1000-189 Answers - C1000-189 Reliable Test Guide

Purchasing our C1000-189 training test is not complicated, there are mainly four steps: first, you can choose corresponding version according to the needs you like. Next, you need to fill in the correct email address. And if the user changes the email during the subsequent release, you need to update the email. Then, the user needs to enter the payment page of the C1000-189 Learning Materials to buy it. Finally, within ten minutes of payment, the system automatically sends the C1000-189 study materials to the user's email address. And then you can quickly study and pass the C1000-189 exam.

Our C1000-189 prep torrent boosts the highest standards of technical accuracy and only use certificated subject matter and experts. We provide the latest and accurate IBM Instana Observability v1.0.277 Administrator - Professional exam torrent to the client and the questions and the answers we provide are based on the real exam. We can promise to you the passing rate is high and about 98%-100%. Our C1000-189 test braindumps also boosts high hit rate and can stimulate the exam to let you have a good preparation for the exam. Our C1000-189 prep torrent boost the timing function and the content is easy to be understood and has been simplified the important information. Our C1000-189 test braindumps convey more important information with less amount of answers and questions and thus make the learning relaxed and efficient. If you fail in the exam we will refund you immediately. All IBM Instana Observability v1.0.277 Administrator - Professional exam torrent does a lot of help for you to pass the exam easily and successfully.

IBM C1000-189 Reliable Test Guide & C1000-189 Reliable Test Practice

The browser-based version has all features of the desktop C1000-189 practice exam. You don't need special plugins or software installations to operate the web-based IBM Instana Observability v1.0.277 Administrator - Professional (C1000-189) practice exam. This IBM Instana Observability v1.0.277 Administrator - Professional (C1000-189) practice test is compatible with every browser such as MS Edge, Chrome, Internet Explorer, Firefox, Opera, and Safari. PracticeVCE's web-based C1000-189 practice exam promotes self-assessment and self-study.

IBM Instana Observability v1.0.277 Administrator - Professional Sample Questions (Q13-Q18):

NEW QUESTION # 13

Which statement accurately describes the use of the agent key?

- A. It is used for both downloading Instana artifacts and deploying an instance.
- B. It is used only for deploying an instance.
- C. It is required only for downloading the license.
- D. It is not included in the purchase email and must be obtained separately.

Answer: A

Explanation:

The IBM Instana Observability product architecture uses a security credential called an agent key for authentication and authorization in both installation and deployment operations. The documentation explicitly affirms: "The agent key must be used for downloading Instana installation artifacts from IBM repositories as well as for deploying agents to connect to the backend." This binding ensures entitlement enforcement and integrity of data transfer. The key, distributed through official IBM entitlement channels or purchase confirmation emails, validates the customer's licensed environment. During deployment, the same key is included in configuration files or environment variables so that each agent securely authenticates to its assigned backend instance. This unified mechanism simplifies lifecycle management while maintaining strong license controls. The key is never generated manually nor limited to licensing download alone-its dual purpose makes it critical in both provisioning and operations stages.

NEW QUESTION # 14

What is the default folder used to install Instana agent in Linux?

- A. /var/lib/instana
- B. /opt/instana/agent
- C. /opt/instana/agent/etc/
- D. /etc/default/instana

Answer: B

Explanation:

IBM Instana installation and agent management documentation specifies: "By default, the Instana agent is installed to the /opt/instana/agent directory on Linux hosts." All primary binaries, configuration, and logs are contained within this root directory, though logs and runtime data are often symlinked or forwarded to standard system directories for rotation. Management scripts and configuration files reside inside this path as well-subdirectories like /etc/ and /data/ are located under /opt/instana/agent. This default directory ensures a consistent and predictable layout across distributions and matches enterprise Linux filesystem standards for third-party agents. Other directories listed (A, B, D) are for data or environment references but are not the root install directory.

NEW QUESTION # 15

Which statement best describes BeeInstana?

- A. It is a metric database used to perform complex metric queries
- B. A Kubernetes operator that requires high-performing data stores and a distributed data store cluster.
- C. An operator that can be used to install Instana on Kubernetes
- D. An operator that can be used only on self-hosted deployments that have data stores installed

Answer: B

Explanation:

BeeInstana is identified in Instana's documentation as the core Kubernetes operator driving distributed installation and management of Instana components. The documentation defines: "BeeInstana is a Kubernetes operator that requires robust, high-performing distributed data stores and manages Instana deployment complexity, resource allocation, and scaling within large clusters." By leveraging Kubernetes-native constructs, BeeInstana orchestrates Instana backend, UI, sensors, and streaming components-ensuring reliable, scalable deployments for enterprise settings. The operator orchestrates failover, recovery, and persistent storage management, supporting self-hosted and hybrid installations. While it is associated with metric data handling, its main role is orchestration and operational management based on distributed database infrastructures. Simple operator installation (A, D) does not capture its full role, and describing BeeInstana as only a metric database (B) misrepresents its architectural function in Instana's platform lifecycle.

NEW QUESTION # 16

What is mandatory to use Instana REST APIs?

- A. CURL
- B. Python
- C. Cookie
- **D. Token**

Answer: D

Explanation:

Access to Instana's REST API is secured using authorization tokens-an industry-standard best practice for API authentication and traceability. IBM documentation says: "A personal or team API token is required to authenticate REST API calls." Tokens serve as credentials embedded in HTTP headers on each request, providing both identity and access control for the API consumer. Tokens are mandatory; without a valid token, any API requests are denied with a 401 Unauthorized error, regardless of whether a tool (such as CURL) is used. Tokens can be scoped for individual users (personal tokens) or teams (team tokens), enabling granular tracking and revocation as part of enterprise security policies. API tokens are generated from the Instana UI under the profile or team section. Cookies and raw client libraries (e.g., Python) are not authentication methods for Instana APIs.

NEW QUESTION # 17

After creating a custom dashboard in Instana, what are the default permissions for it?

- A. Only owner can see and edit it - cannot be shared to other users.
- B. All users can view it but only editors can modify it.
- **C. Only owner can see and edit it - can be shared to other users.**
- D. All users can view and edit it.

Answer: C

Explanation:

The dashboard permissions model in Instana ensures secure, user-specific management of visual analytics content. IBM confirms: "By default, dashboards created by a user are private and accessible only to their creator; they can be shared explicitly with other users or teams for viewing or editing." This model supports controlled collaboration while maintaining ownership accountability. The owner may later assign permissions within the UI, typically under the Dashboard Sharing and Permissions option, defining read or write privileges per user or group. Default private scoping avoids accidental data exposure yet allows managed distribution in team settings. Public dashboards may be intentionally created as shared artifacts, but sharing must always be a conscious user action. These principles align with enterprise-grade security requirements described in the Permissions section of the dashboards documentation and remain unchanged across Instana versions.

NEW QUESTION # 18

.....

Our customers comment that the C1000-189 latest dumps pdf covers most questions of actual test. Most questions in our C1000-189 dumps valid will appear in the real test because IBM exam prep is created based on the formal test. If you practice the C1000-189 Test Questions and remember the key points of study guide, the rate of you pass will reach to 95%.

C1000-189 Reliable Test Guide: <https://www.practicevce.com/IBM/C1000-189-practice-exam-dumps.html>

If so our C1000-189 exam guide torrent should be your best helper, It is quite clear that many people would like to fall back on the most authoritative company no matter when they have any question about preparing for C1000-189 exam or met with any problem, We designed C1000-189 free download study materials for the majority of candidates, IBM Detailed C1000-189 Answers After you receive the email, just click our downloading link, you will get our exam products.

You shouldn't expect to master the PC without spending some time learning how it works, Appendix E: Web Resources, If so our C1000-189 exam guide torrent should be your best helper.

It is quite clear that many people would like to fall back on the most authoritative company no matter when they have any question about preparing for C1000-189 Exam or met with any problem.

Excellent Detailed C1000-189 Answers – 100% High-quality IBM Instana Observability v1.0.277 Administrator - Professional Reliable Test Guide

We designed C1000-189 free download study materials for the majority of candidates, After you receive the email, just click our downloading link, you will get our exam products.

IBM C1000-189 dumps pdf--PDF version is available for company customers to do certification training and teaching by PDF or PPT, it is also available for personal C1000-189 customers who like studying on paper or just want to get the questions and answers.
