You can pass the real exam easily with our latest F3 vce dumps and this is the only smartest way to get success. Just contact us if you have any questions.

CIMA F3 Certification Exam is ideal for individuals who want to develop their careers in finance and accounting. F3 Financial Strategy certification is recognized globally and is highly respected in the finance industry. F3 exam is designed to test a candidate's ability to analyze complex financial information, identify financial risks and opportunities, and develop strategies to manage these risks and capitalize on these opportunities. Passing the CIMA F3 certification exam demonstrates a candidate's expertise in financial strategy and their ability to add value to their organization.

CIMA CIMAPRA19-F03-1 exam consists of two parts: the objective test and the case study exam. The objective test is a computer-based exam that tests the candidate's knowledge of the core principles of financial strategy. The case study exam, on the other hand, is a scenario-based exam that tests the candidate's ability to apply their knowledge to real-life situations.

The second version is the web-based format of the CIMA F3 Practice Test. Browsers such as Internet Explorer, Microsoft Edge, Firefox, Safari, and Chrome support the web-based practice exam.

CIMA F3 Financial Strategy Sample Questions (Q32-Q37):

NEW QUESTION # 32

ZZZ is a listed company based in Brinland, a European country. It is the largest owner and operator of residential care homes for elderly people in Brinland. Most of the residential care homes in Brinland are run by small private operators, and the standards of care are extremely variable. However, ZZZ has developed a good reputation because its client service is considered to be extremely good even though its prices are higher than those of most of its competitors.

ZZZ has expanded rapidly in the last few years, partly by acquisition and partly by organic growth. Consequently, the company's share price now stands at a record high, and the dividend declared at the end of the most recent accounting period was 10% higher than the previous year's dividend.

The Brinland government has recently set up a regulatory body to monitor the residential care homes industry.

The regulatory body is considering introducing a variety of regulations to improve the customer experience in the industry. Following a period of consultation and investigation, the regulatory body is expected to announce a range of new regulations in the near future.

The directors of ZZZ are concerned that the new regulations may adversely affect their company. Which THREE of the following new regulations are likely to have the greatest negative impact on ZZZ's performance?

- A. Imposition of a minimum staff to client ratio.
- B. Monopoly controls, forcing large operators to dispose of some care homes
- C. Imposition of a one-off "windfall" tax to fund training courses for carers across the industry
- D. Price controls, setting a maximum price that providers can charge
- E. Fines for companies that miss specified service level targets

Answer: A,B,E

NEW QUESTION # 33

Assume today is 31 December 20X1.

A listed mobile phone company has just launched a new phone which is proving to be a great success.

As a direct result of the product's success, earnings are forecast to increase by:

* 5% a year in each of years 20X2 - 20X6

* 3% from 20X7 onwards

Market analysts were very excited to hear the news of the success of the product and future growth forecasts.

Assuming a semi-efficient market applies, which of the following company valuation methods is likely to give the best estimate of the company's equity value today?

- A. Today's share price x number of shares in issue.
- B. Today's share price x number of shares in issue + retained earnings.
- C. Discounted free cash flow using the company's forecast growth rates.
- D. P/E valuation based on the company's long term P/E and earnings for the year ended 31 December 20X1.

Answer: A

NEW QUESTION # 34

A venture capitalist invests in a company by means of buying

* 6 million shares for \$3 a share and

* 7% bonds with a nominal value of \$2 million, repayable at par in 3 years' time

The venture capitalist expects a return on the equity portion of the investment of at least 20% a year on a compound basis over the first 3 years of the investment

The company has 8 million shares in issue

What is the minimum total equity value for the company in 3 years' time required to satisfy the venture capitalist's expected return?

Give your answer to the nearest \$ million

□

- A. 0
- B. 1

Answer: B

NEW QUESTION # 35

A company's Board of Directors is considering raising a long-term bank loan incorporating a number of covenants.

The Board members are unsure what loan covenants involve.

Which THREE of the following statements regarding loan covenants are true?

- A. A positive loan covenant would require the company to undertake specific actions.
- B. A restrictive covenant prohibits the company from conducting certain actions without the approval of the lending institution.
- C. A loan covenant has no contractually binding obligations.
- D. A financial covenant usually requires the company to adhere to specific financial conditions or targets.
- E. A covenant gives the financial institution the right but not the obligation to convert debt into equity in a case of non-compliance.

Answer: A,B,D

NEW QUESTION # 36

Two unlisted companies TTT and YYY are being valued. The companies have similar capital structures and risk profiles and operate in the same industry sector. It is easier to value TTT than to value YYY because there have recently been several well-publicised private sales of TTT shares.

Relevant company data:

□ What is the best estimate of YYY's share price?

- A. \$0.60
- B. \$0.94
- C. \$1.20
- D. \$0.68

Answer: A

Explanation:

Step 1 - Find TTT's P/E ratio

Profit for the year (TTT) = \$25m

Shares in issue = 100m # EPS = $25 / 100 = \$0.25$

Share price = \$2.00

$P/E_{TTT} = \frac{2.00}{0.25} = 8$ Step 2 - Apply this P/E to YYY Profit for

the year (YYY) = \$15m Value of YYY's equity = $15 \times 8 = \$120m$ Shares in issue (YYY) = 200m Price per YYY

share = $\frac{120}{200} = \$0.60$ Price per YYY share = $\frac{120}{200} = \$0.60$

NEW QUESTION # 37

.....

There are F3 Financial Strategy (F3) exam questions provided in F3 Financial Strategy (F3) PDF questions format which can be viewed on smartphones, laptops, and tablets.
