2026 Authoritative Salesforce Reliable FS-Con-101 Test Syllabus

When preparing for the test FS-Con-101 certification, most clients choose our products because our FS-Con-101 study materials enjoy high reputation and boost high passing rate. Our products are the masterpiece of our company and designed especially for the certification. Our FS-Con-101 Study Materials have gone through strict analysis and verification by the industry experts and senior published authors. The clients trust our products and place great hopes on our FS-Con-101 study materials.

Salesforce Certified Field Service Consultant Sample Questions (Q15-Q20):

NEW QUESTION # 15

Universal Containers plans to implement Crew Management to better support its clients. Which area does the Consultant need to consider as part of the recommendation?

- A. Salesforce Field Service considers the Recommended Crew Size when assigning appointments.
- B. Capacity-based scheduling is supported for Service Crews.
- **C. The Preferred Resource service objective is ignored for active Crew Members.**
- D. A service resource can only be 2 member of 2 single Crew

Answer: C

Explanation:

Crew Management is a feature that allows creating and managing crews of multiple service resources who share the same service appointments[163]. The Preferred Resource service objective is ignored for active Crew Members because it only applies to individual resources and not crews[164]. Capacity-based scheduling is not supported for Service Crews because crews do not have capacity limits and can be assigned unlimited service appointments[165]. A service resource can be a member of multiple crews and can switch between them depending on their availability and skills[166]. Salesforce Field Service does not consider the Recommended Crew Size when assigning appointments because it only considers the Required Crew Size which indicates the minimum number of crew members needed for a service appointment[167]. NEW QUESTION # 16

Time sheet entries can be associated to which two objects? Choose 2 answer

- **A. Work order line item**
- B. assigned resources
- **C. Work order**
- D. Service resource

Answer: A,C

Explanation:

Time sheet entries are records that track the time spent by a service resource on a work order or a work order line item[28]. Time sheet entries can be associated to work order line items or work orders using lookup fields [29]. Assigned resources are records that assign a service resource to a service appointment[30]. Service resources are records that represent the people or equipment that perform field service tasks[31]. Time sheet entries cannot be associated to assigned resources or service resources directly. References: https://help.salesforce.com/s/articleView?id=sf.fs_time_sheets_overview.htm&type=5 https://help.salesforce.com/s/articleView?id=sf.fs_time_sheet_entries_overview.htm&type=5 https://help.salesforce.com/s/articleView?id=sf.fs_assigned_resources_overview.htm&type=5 https://help.salesforce.com/s/articleView?id=sf.fs_service_resources_overview.htm&type=5

NEW QUESTION # 17

Northern Trail Outfitters (NTO) wants to track and report on individual tasks completed, including parts consumed and pricing details, as part of the Work Order completion process. NTO wants to schedule one or multiple tasks to different Technicians as needed.

How should the Consultant meet the requirement utilizing the standard Salesforce Field Service Data Model?

- A. Create multiple Service Appointments, each with its own child Work Order Line Item
- B. Create multiple Service Appointments, each with its own child task records.
- C. Create Custom Object records, each with its own child Service Appointment.
- **D. Create Work Order Line Items, each with its own child Service Appointment.**

Answer: D

Explanation:

This option allows tracking individual tasks completed as work order line items, including parts consumed and pricing details, and scheduling one or multiple tasks to different technicians as needed using service appointments.

References:https://help.salesforce.com/s/articleView?id=sf.fs_work_order_line_items.htm&type=5

NEW QUESTION # 18

Which object can be used to share Service Appointments with Service Resources in Salesforce Field Service?

- A. User Territory
- B. Work Order
- C. Service Territory Member
- **D. Service Territory**

Answer: D

Explanation:

This object can be used to share service appointments with service resources in Salesforce Field Service by assigning service resources to service territories and assigning service appointments to the same service territories.

References:https://help.salesforce.com/s/articleView?id=sf.fs_service_territories.htm&type=5

NEW QUESTION # 19

Service resources at universal container UC frequently work in more than one serviceterritory the current scheduling policy looks only at primary territory while us still want to optimizer to use the service resource primary when scheduling, UC also wants the scheduling policy to look at the resources secondary services territory Which two scheduling policy changes should a consultant recommend?

Choose 2 answers

- **A. Includes the match territory work rule**
- **B. Deselect workinglocation primary on the working territories work rule**
- C. Remove the match territory work rule
- D. Select working location enable primary on the working territories work rule

Answer: A,B

Explanation:

The match territorywork rule is used to match service appointments to service resources based on their assigned territories.

Deselecting working location primary on the working territories work rule allows considering secondary territories as well as primary territories when matching service appointments to service resources. Removing the match territory work rule would ignore territories when scheduling service appointments. Selecting working location enable primary on the working territories work rule would only consider primary territories when matching service appointments to service resources.
