

Pass Guaranteed 2026 Oracle 1Z0-1122-25: Newest Questions Oracle Cloud Infrastructure 2025 AI Foundations Associate Exam

2026 Latest DumpsFree 1Z0-1122-25 PDF Dumps and 1Z0-1122-25 Exam Engine Free Share: https://drive.google.com/open?id=1qZET50cd9QuHoPrhwL7ES8CM6J36dZf_

You can get help from DumpsFree Oracle 1Z0-1122-25 exam questions and easily pass get success in the Oracle 1Z0-1122-25 exam. The 1Z0-1122-25 practice exams are real, valid, and updated that are specifically designed to speed up 1Z0-1122-25 Exam Preparation and enable you to crack the Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25) exam successfully.

Oracle 1Z0-1122-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Intro to AI Foundations: This section of the exam measures the skills of AI Practitioners and Data Analysts in understanding the fundamentals of artificial intelligence. It covers key concepts, AI applications across industries, and the types of data used in AI models. It also explains the differences between artificial intelligence, machine learning, and deep learning, providing clarity on how these technologies interact and complement each other.
Topic 2	<ul style="list-style-type: none">Intro to ML Foundations: This section evaluates the knowledge of Machine Learning Engineers in understanding machine learning principles and methodologies. It explores the basics of supervised learning, focusing on regression and classification techniques, along with unsupervised learning methods such as clustering and anomaly detection. It also introduces reinforcement learning fundamentals, helping professionals grasp the different approaches used to train AI models.
Topic 3	<ul style="list-style-type: none">Intro to Generative AI & LLMs: This section tests the abilities of AI Developers to understand generative AI and large language models. It introduces the principles of generative AI, explains the fundamentals of large language models (LLMs), and discusses the core workings of transformers, prompt engineering, instruction tuning, and LLM fine-tuning for optimizing AI-generated content.
Topic 4	<ul style="list-style-type: none">OCI Generative AI and Oracle 23ai: This section evaluates the skills of Cloud AI Architects in utilizing Oracle's generative AI capabilities. It includes a deep dive into OCI Generative AI services, Autonomous Database Select AI for enhanced data intelligence and Oracle Vector Search for efficient information retrieval in AI-driven applications.

2026 Unparalleled Oracle Questions 1Z0-1122-25 Exam

Time and tides wait for no man. Take away your satisfied 1Z0-1122-25 preparation quiz and begin your new learning journey. You will benefit a lot after you finish learning our 1Z0-1122-25 study materials just as our other loyal customers. Live in the moment and bravely attempt to totally new things. You will harvest meaningful knowledge as well as the shining 1Z0-1122-25 Certification that so many candidates are dreaming to get.

Oracle Cloud Infrastructure 2025 AI Foundations Associate Sample Questions (Q19-Q24):

NEW QUESTION # 19

You are working on a project for a healthcare organization that wants to develop a system to predict the severity of patients' illnesses upon admission to a hospital. The goal is to classify patients into three categories - Low Risk, Moderate Risk, and High Risk - based on their medical history and vital signs. Which type of supervised learning algorithm is required in this scenario?

- A. Binary Classification
- B. Clustering
- C. Multi-Class Classification
- D. Regression

Answer: C

Explanation:

In this healthcare scenario, where the goal is to classify patients into three categories-Low Risk, Moderate Risk, and High Risk-based on their medical history and vital signs, a Multi-Class Classification algorithm is required. Multi-class classification is a type of supervised learning algorithm used when there are three or more classes or categories to predict. This method is well-suited for situations where each instance needs to be classified into one of several categories, which aligns with the requirement to categorize patients into different risk levels.

NEW QUESTION # 20

Which feature is NOT available as part of OCI Speech capabilities?

- A. Provides timestamped, grammatically accurate transcriptions
- B. Transcribes audio and video files into text
- C. Supports multiple languages including English, Spanish, and Portuguese
- D. Uses extensive data science experience to operate

Answer: D

Explanation:

OCI Speech capabilities are designed to be user-friendly and do not require extensive data science experience to operate. The service provides features such as transcribing audio and video files into text, offering grammatically accurate transcriptions, supporting multiple languages, and providing timestamped outputs. These capabilities are built to be accessible to a broad range of users, making speech-to-text conversion seamless and straightforward without the need for deep technical expertise.

NEW QUESTION # 21

Which type of machine learning is used to understand relationships within data and is not focused on making predictions or classifications?

- A. Unsupervised learning
- B. Reinforcement learning
- C. Supervised learning
- D. Active learning

Answer: A

Explanation:

Unsupervised learning is a type of machine learning that focuses on understanding relationships within data without the need for labeled outcomes. Unlike supervised learning, which requires labeled data to train models to make predictions or classifications, unsupervised learning works with unlabeled data and aims to discover hidden patterns, groupings, or structures within the data. Common applications of unsupervised learning include clustering, where the algorithm groups data points into clusters based on similarities, and association, where it identifies relationships between variables in the dataset. Since unsupervised learning does not predict outcomes but rather uncovers inherent structures, it is ideal for exploratory data analysis and discovering previously unknown patterns in data .

NEW QUESTION # 22

What is the benefit of using embedding models in OCI Generative AI service?

- A. They facilitate semantic searches.
- B. They simplify managing databases.
- C. They optimize the use of computational resources.
- D. They enable creating detailed graphics.

Answer: A

Explanation:

Embedding models in the OCI Generative AI service are designed to represent text, phrases, or other data types in a dense vector space, where semantically similar items are located closer to each other. This representation enables more effective semantic searches, where the goal is to retrieve information based on the meaning and context of the query, rather than just exact keyword matches.

The benefit of using embedding models is that they allow for more nuanced and contextually relevant searches. For example, if a user searches for "financial reports," an embedding model can understand that "quarterly earnings" is semantically related, even if the exact phrase does not appear in the document. This capability greatly enhances the accuracy and relevance of search results, making it a powerful tool for handling large and diverse datasets .

NEW QUESTION # 23

Which capability is supported by Oracle Cloud Infrastructure Language service?

- A. Converting text into images
- B. Analyzing text to extract structured information like sentiment or entities
- C. Translating text into speech
- D. Detecting objects and scenes in images

Answer: B

Explanation:

Oracle Cloud Infrastructure (OCI) Language service is specifically designed to analyze text and extract structured information such as sentiment, entities, key phrases, and language detection. This service provides natural language processing (NLP) capabilities that help users gain insights from unstructured text data. By identifying the sentiment (positive, negative, neutral) and recognizing entities (like names, dates, or places), the service enables businesses to process large volumes of text data efficiently, aiding in decision-making processes.

NEW QUESTION # 24

.....

DumpsFree Oracle 1Z0-1122-25 Exam Questions are made in accordance with the latest syllabus and the actual Oracle 1Z0-1122-25 certification exam. We constantly upgrade our training materials, all the products you get with one year of free updates. You can always extend the to update subscription time, so that you will get more time to fully prepare for the exam. If you still confused to use the training materials of DumpsFree, then you can download part of the examination questions and answers in DumpsFree website. It is free to try, and if it is suitable for you, then go to buy it, to ensure that you will never regret.
