

VMware 2V0-32.24 Valid Test Tutorial | 2V0-32.24 Study Guide

There is no denying that no exam is easy because it means a lot of consumption of time and effort. Especially for the upcoming 2V0-32.24 exam, although a large number of people to take the exam every year, only a part of them can pass. If you are also worried about the exam at this moment, please take a look at our 2V0-32.24 Study Materials which have became the leader in this career on the market. And if you have a try on our 2V0-32.24 preparation quiz, you will be satisfied.

VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.
Topic 2	<ul style="list-style-type: none">Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.
Topic 3	<ul style="list-style-type: none">Architecture and Technologies: This section of the exam measures the skills of Cloud Architects and covers the core differences between VMware Cloud Management offerings, focusing on SaaS versus on-premises deployments. It introduces the capabilities of vRealize Suite Lifecycle Manager, vRealize Operations, and vRealize Log Insight, helping professionals understand the foundational technologies that support VMware's cloud ecosystem.

VMware 2V0-32.24 Study Guide, Test 2V0-32.24 Prep

If you purchase 2V0-32.24 exam questions and review it as required, you will be bound to successfully pass the exam. And if you still don't believe what we are saying, you can log on our platform right now and get a trial version of 2V0-32.24 study engine for free to experience the magic of it. Of course, if you encounter any problems during free trialing, feel free to contact us and we will help you to solve all problems on the 2V0-32.24 practice engine.

VMware Cloud Operations 8.x Professional V2 Sample Questions (Q56-Q61):

NEW QUESTION # 56

An Administrator needs to create a new alert in vRealize Log Insight that will send email notifications to a distribution list based on the defined query.

Drag and drop the five actions the administrator must complete in order to create the alert from the action list on the left and place the actions into the correct sequence on the right. (Choose five.)

Action List	Sequential Order
Select the button called Create Alert from Query.	1
Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.	2
Run the query for which the notification should be send.	3
Switch to Interactive Analytics in vRealize Log Insight.	4
Specify the alert details including a name.	5

Answer:

Explanation:

Action List

- Select the button called Create Alert from Query.
- Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.
- Run the query for which the notification should be send.
- Switch to Interactive Analytics in vRealize Log Insight.
- Specify the alert details including a name.

Action List

- Select the button called Create Alert from Query.
- Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.
- Run the query for which the notification should be send.
- Switch to Interactive Analytics in vRealize Log Insight.
- Specify the alert details including a name.

Sequential Order

Sequential Order	Action
1	Switch to Interactive Analytics in vRealize Log Insight.
2	Run the query for which the notification should be send.
3	Select the button called Create Alert from Query.
4	Specify the alert details including a name.
5	Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.

Sequential Order

Sequential Order	Action
1	Switch to Interactive Analytics in vRealize Log Insight.
2	Run the query for which the notification should be send.
3	Select the button called Create Alert from Query.
4	Specify the alert details including a name.
5	Select the Email check-box and type the e-mail distribution list to which vRealize Log Insight should send the notifications.

NEW QUESTION # 57

An administrator has been tasked to configure vRealize Operations to securely forward vRealize Operations logs to a centralized syslog server. The logs should be forwarded in their original format.

What would be the resulting Protocol and Port configuration?

- A. Port: 514 - Protocol: syslog
- B. Port: 9000 - Protocol: cfapi
- C. Port: 9543 - Protocol: cfapi
- D. Port: 6514 - Protocol: syslog

Answer: D

Explanation:

To securely forward vRealize Operations logs to a centralized syslog server, the syslog protocol over port 6514 is used. Port 6514 is the default port for secure syslog (Syslog over TLS), ensuring that logs are transmitted in their original format while being encrypted for security.

NEW QUESTION # 58

An administrator needs to change the password for the admin user account on vRealize Operations.

Which two methods can the administrator use to complete this task? (Choose two.)

- A. Log in to vRealize Suite Lifecycle Manager and use the rotate password functionality
- B. Log in to each node via SSH and use the appropriate script to reset the admin user account password
- C. Log in to the Primary node via SSH and use the appropriate command to reset the admin user account password
- D. Log in to the vRealize Operations admin UI as the admin user, take the cluster offline and use the change password functionality
- E. Log in to the vRealize Operations admin UI as the admin user and use the change password functionality

Answer: B,C

Explanation:

To change the password for the admin user account in vRealize Operations, these methods can be used:

Log in to the Primary node via SSH and use the appropriate command to reset the admin user account password: This method allows the administrator to directly reset the admin password on the primary node via SSH using command-line utilities specific to vRealize Operations.

Log in to each node via SSH and use the appropriate script to reset the admin user account password: In a multi-node environment, the password reset might need to be performed on each node using a script to ensure that the new password is applied across all nodes in the cluster.

NEW QUESTION # 59

An administrator is tasked with installing vRealize Log Insight using vRealize Suite Lifecycle Manager (vRSLCM). They have been instructed to use DHCP for the deployment.

Which statement about this scenario is correct?

- A. Static IP addresses are required for any product deployment in vRSLCM
- B. **DHCP addresses are only supported for vRealize Log Insight worker nodes**
- C. DHCP addresses are only supported for the cluster virtual IP address (VIP)
- D. A default gateway does not need to be supplied for the deployment

Answer: B

Explanation:

In vRealize Suite Lifecycle Manager (vRSLCM), DHCP addresses can be used for vRealize Log Insight worker nodes. However, static IP addresses are typically recommended for the management and master nodes to ensure stability and consistency in the deployment. DHCP addresses are not recommended for the primary or management nodes because they might change after a reboot, causing issues with connectivity and accessibility.

NEW QUESTION # 60

An administrator is updating a Content Pack within vRealize Log Insight which has user modifications.

What step should the administrator take to ensure the user modifications persist after the update?

- A. Export the modifications as a Content Pack and import the changes to the user profile after the update is completed.
- B. **Export the modifications as a Content Pack and import the changes to the system profile after the update is completed.**
- C. Persist user modifications is not available when updating the Content Pack.
- D. Update the content pack as per the standard procedure.

Answer: B

Explanation:

When updating a Content Pack in vRealize Log Insight that has user modifications, it is essential to export the custom changes (such as modified queries, dashboards, etc.) as a separate Content Pack. After the update is completed, the exported Content Pack containing the user modifications can be imported back into the system profile to ensure that the customizations persist and are not lost during the update process.

NEW QUESTION # 61

As a market leader, our company is able to attract quality staffs, it actively seeks out those who are energetic, persistent, and professional to various 2V0-32.24 certificate and good communicator. And we strongly believe that the key of our company's success is its people, skills, knowledge and experience. Over 50% of the account executives and directors have been with the Group for more than ten years. The successful selection, development and 2V0-32.24 training of personnel are critical to our company's ability to provide a high pass rate of 2V0-32.24 exam questions for you to pass the 2V0-32.24 exam.
