The certification is necessary to get a job in your desired SAP company. Success in the test gives you an edge over the others because you will have certified skills that will make a good impression on the interviewer. Most people preparing for the C_C4H22_2411 Exam are confused about preparation. How will they get real and updated SAP Certified Associate - Implementation Consultant - SAP Emarsys (C_C4H22_2411) exam questions?

SAP Certified Associate - Implementation Consultant - SAP Emarsys Sample Questions (Q42-Q47):

NEW QUESTION # 42

You want reply mail to be sent to an external, monitored inbox on one of your own servers. How can you do this? Note: There are 2 correct answers to this question.

- **A. Configure the SAP Emarsys Reply Management feature to forward replies.**
- **B. Configure the SAP Emarsys MX DNS record and create your own MX record in parallel.**
- C. Configure the SAP Emarsys MX DNS record in your template footer to forward replies.
- D. Configure the SAP Emarsys MX DNS record by adding your own server domain.

Answer: A,B

Explanation:

To route reply mail to an external inbox in SAP Emarsys:

- * Option B:Correct. The Reply Management feature allows configuration to forward replies to a specified external inbox.
- * Option D:Correct. Configuring the Emarsys MX DNS record alongside your own MX record ensures replies are routed to your server while maintaining Emarsys email functionality.
- * Option A:Incorrect. The template footer doesn't control MX records or reply routing.
- * Option C:Incorrect. Adding your domain to the Emarsys MX record alone doesn't suffice without parallel configuration.The SAP Emarsys Help Portal under "Reply Management" and "DNS Configuration" details these options.References:SAP Emarsys Help Portal - "Reply Management" (<https://help.emarsys.com/>).

NEW QUESTION # 43

Web Recommender widgets can display cross-sell and up-sell recommendations to customers as they navigate your website. Which widgets should be placed on product pages? Note: There are 2 correct answers to this question.

- A. Personal widget
- **B. Also-Bought widget**
- **C. Related widget**
- D. Search widget

Answer: B,C

Explanation:

Web Recommender widgets in SAP Emarsys enhance product pages:

- * Option B (Also-Bought widget):Correct. Shows items frequently purchased together, ideal for cross- sell on product pages.
- * Option C (Related widget):Correct. Displays similar or complementary items, supporting up-sell and cross-sell.
- * Option A:Incorrect. Personal widgets are broader and not product-page-specific.
- * Option D:Incorrect. Search widgets are for search result pages, not product pages.The SAP Emarsys Help Portal under "Web Recommendations" recommends these for product pages.References:SAP Emarsys Help Portal - "Web Recommendations" (<https://help.emarsys.com/>).

NEW QUESTION # 44

Which of the following statements apply when using Google Product Feed (GPF)?

- A. United States is selected as the default locale if a language is not supported.
- **B. Multiple GPFs are supported for clients who target multiple countries.**
- C. A custom field can be inserted using c_* format.
- D. Multiple GPFs are not supported for clients who use multiple languages.

Answer: B

Explanation:

Google Product Feed (GPF) integration in SAP Emarsys enhances product recommendations:

- * Option C:Correct. Multiple GPFs are supported for clients targeting multiple countries, allowing tailored feeds per region or market.
- * Option A:Incorrect. There's no mention of the U.S. as a default locale; unsupported languages typically fall back to a client-defined default.
- * Option B:Incorrect. Multiple GPFs are supported regardless of language use, countering this statement.
- * Option D:Incorrect. Custom fields in GPF use a specific syntax, but "c_*" is not the standard format per Emarsys documentation (it's more aligned with Google's custom attributes).The SAP Emarsys Help Portal under "Google Product Feed" confirms support for multiple feeds.References:SAP Emarsys Help Portal - "Google Product Feed" (<https://help.emarsys.com/>).

NEW QUESTION # 45

How does contact duplication work in SAP Emarsys? Note: There are 2 correct answers to this question.

- **A. Contacts with the same unique identifier are merged automatically on import.**
- B. Contacts with identical first name and last name are merged automatically.
- C. It runs every hour, checking against the full database.
- **D. It runs every time a new contact is about to be imported.**

Answer: A,D

NEW QUESTION # 46

Which statement correctly describes the data flow of Web recommendations?

- A. Recommendations are requested from SAP Emarsys Customer Engagement servers. The returned recommendations are then displayed on the client website.
- B. Recommendations are requested from the end user's email server by the JavaScript API. The returned recommendations are then displayed by the same API.
- C. Recommendations are displayed on SAP Emarsys Customer Engagement servers using a PHP module.
- **D. Recommendations are requested from the end user's browser by the JavaScript API. The returned recommendations are then displayed by the same API.**

Answer: D

Explanation:

Web recommendations in SAP Emarsys work as follows:

- * Option A:Correct. The JavaScript API (Web Extend) requests recommendations from the Emarsys servers directly from the
