### NEW QUESTION # 104

Hotspot Question

A company is implementing Dynamics 365 Supply Chain Management for the management and maintenance of company assets. The company has a single legal entity in the United States. All assets are installed at the company's locations.

The company performs routine maintenance on assets. At times, the assets break and require emergency repairs. Several of the asset repairs must be performed by engineers who have specialized certifications. The certified engineers may be out of office, so a request may not be completed immediately.

The company must be able to use Supply Chain Management to track the asset repairs and the progress of the repairs by the engineers by using the following configurable states:

- New

- Pending

- In progress

- Completed

You need to configure the system.

Which feature should you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

□

**Answer:**
