Quiz Genesys - GCX-GCD –The Best Reliable Torrent

One of the great features of our GCX-GCD training material is our GCX-GCD pdf questions. GCX-GCD exam questions allow you to prepare for the real GCX-GCD exam and will help you with the self-assessment. You can easily pass the Genesys GCX-GCD exam by using GCX-GCD dumps pdf. Moreover, you will get all the updated GCX-GCD Questions with verified answers. If you want to prepare yourself for the real Genesys Cloud CX: Developer Certification exam, then it is one of the most important ways to improve your GCX-GCD preparation level. We provide 100% money back guarantee on all GCX-GCD braindumps products.

Genesys Cloud CX: Developer Certification Sample Questions (Q76-Q81):

NEW QUESTION # 76

Which of the following are commonly used in Voice over IP (VoIP) or internet communication systems?

- A. SIP
- B. Gateway
- C. Outbound Proxy
- D. WebRTC

Answer: A,D

Explanation:

SIP (Session Initiation Protocol) Trunks: These are used to connect the Genesys Cloud CX platform to external telephony systems, such as carriers or on-premises equipment, facilitating voice communication over IP networks.

WebRTC Trunks: These are utilized for WebRTC-based communications, enabling real-time voice and video interactions directly through web browsers without the need for additional plugins or software.

NEW QUESTION # 77

If a WebSocket gets closed due to any issue, the events sent by Genesys Cloud CX are automatically queued and sent once the WebSocket is open again.

- A. False
- B. True

Answer: A

Explanation:

In Genesys Cloud CX, if a WebSocket connection is closed due to any issue, events are not automatically queued and sent once the WebSocket is reopened. Instead, the client is responsible for detecting the disconnection and re-establishing the connection. Upon reconnection, the client must resubscribe to the necessary topics to continue receiving events. Any events that occurred during the downtime are not automatically resent; therefore, implementing a robust reconnection and resubscription strategy is crucial to ensure no critical events are missed.

NEW QUESTION # 78

Which of the following statements are true? (Choose two.)

- A. Genesys Cloud CX allows recording downloads using Platform Recording APIs.
- B. Genesys Cloud CX allows cloud storage using integration.
- C. Genesys Cloud CX maintains the recordings and the metadata indefinitely.
- D. Genesys Cloud CX does not allow integrations for cloud storage.

Answer: A,B

Explanation:

Genesys Cloud CX provides Platform Recording APIs that enable users to download recordings programmatically. This allows for efficient retrieval and management of recorded interactions.

Genesys Cloud CX supports integrations with cloud storage services, such as AWS S3, allowing organizations to store recordings externally. This facilitates bulk downloading and long-term storage of recordings.

NEW QUESTION # 79

For web chat, widget permissions must be assigned to the user.

- A. False
- B. True

Answer: A

Explanation:

In Genesys Cloud CX, widget permissions are not assigned to individual users. Instead, permissions related to web chat widgets are managed through roles and permissions within the platform. To create or manage web chat widgets, a user must have the appropriate permissions, such as Widgets > Deployment > All or Web Chat > Deployment > All. These permissions are typically assigned to administrative roles responsible for configuring and deploying web chat functionalities.

NEW QUESTION # 80

Currently, you manage all agents' schedules using a spreadsheet. This shows when each agent is working, when they are on breaks, and when they have meetings or other events that take them away from the queue. You would like to manage these in an easier and more automated way.

Which Genesys Cloud CX contact center feature can you use to replace and automate the spreadsheet schedule?

- A. Genesys Cloud CX Architect
- B. Genesys Cloud CX Workforce Management
- C. Genesys Cloud CX Reporting and Analytics
- D. Genesys Cloud CX API

Answer: B

Explanation:

Workforce Management in Genesys Cloud CX automates agent scheduling, including work shifts, breaks, meetings, and time off, replacing manual spreadsheet processes and improving efficiency and accuracy.
