

Quiz 2026 Network Appliance Newest NS0-528 Exam Topic

2026 Latest Exams4Collection NS0-528 PDF Dumps and NS0-528 Exam Engine Free Share: <https://drive.google.com/open?id=1XbFjIXUtR8vubR8CW9l9JGxAk8ciLEoi>

In addition to the comprehensive Network Appliance NS0-528 practice exams, our product also includes Implementation Engineer - Data Protection Exam (NS0-528) PDF questions developed by our team to help you get prepared in a short time. Our Prepare for your Implementation Engineer - Data Protection Exam (NS0-528) PDF format works on all smart devices without limits of time and place.

Network Appliance NS0-528 Exam Syllabus Topics:

Topic	Details
Topic 1	• Troubleshooting and Testing: This section of the exam measures the skills of Support Engineers and focuses on the practical skills needed to maintain data integrity. It involves troubleshooting common data protection configuration issues, executing well-defined Disaster Recovery (DR) procedures, and performing data restore operations to recover from data loss.
Topic 2	• Data Protection Solutions: This section of the exam measures the skills of Storage Architects and covers the foundational principles of designing data protection solutions. It focuses on creating comprehensive design documentation, understanding the various components involved, and identifying all critical solution dependencies to ensure a robust and reliable data protection strategy.
Topic 3	• NetApp ONTAP Core Data Protection Features: This section of the exam measures the skills of Systems Administrators and validates core knowledge of data protection and redundancy within the ONTAP environment. It encompasses understanding how data efficiencies impact protection strategies and the practical knowledge required to deploy these data protection solutions effectively in a hybrid cloud infrastructure.
Topic 4	• NetApp Data Protection Software: This section of the exam measures the skills of DevOps Engineers and focuses on the deployment and administration of NetApp's proprietary data protection software. A key part of this domain involves applying these solutions to protect modern containerized applications running in Kubernetes environments.
Topic 5	• NetApp ONTAP Business Continuity Solutions: This section of the exam measures the skills of Disaster Recovery Specialists and covers advanced business continuity technologies. This includes the configuration and operation of SnapMirror active sync for continuous data replication and the execution of SVM-DR (Storage Virtual Machine Disaster Recovery) operations to ensure high availability.

NS0-528 Valid Test Fee, Reliable NS0-528 Test Duration

If you really want to pass the real test and get the Network Appliance certification? At first, you should be full knowledgeable and familiar with the NS0-528 certification. Even if you have acquired the knowledge about the NS0-528 actual test, the worries still exist. You do not know what questions you may be faced with when attending the real test. Now, you need the NS0-528 practice dumps which can simulate the actual test to help you. Our NS0-528 training dumps can ensure you pass at first attempt.

Network Appliance Implementation Engineer - Data Protection Exam Sample Questions (Q22-Q27):

NEW QUESTION # 22

An administrator is setting up SnapMirror SVM replication. One of the source data volumes uses cloud tiering with the snapshot-only tiering policy.

Which cloud tiering policy is supported on the destination volume?

- A. auto
- B. snapshot-only
- C. all
- D. none

Answer: B

Explanation:

When using SnapMirror SVM replication, the cloud tiering policy on the destination volume must match the source if tiering is to be preserved. The only supported tiering policy in this context is snapshot-only, which moves cold Snapshot blocks to cloud tier. This ensures compatibility during replication.

NEW QUESTION # 23

You have recently installed and set up a new NetApp HCI deployment in your data center that consists of four compute nodes and four storage nodes. Inside this HCI deployment, you are using ONTAP Select for file services. You must protect the data inside the ONTAP Select VM in case of a rack failure.

Which two methods would accomplish this task? (Choose two.)

- A. Replicate the SVMs from inside the ONTAP Select VM to an existing ONTAP cluster using SVM D
- B. Replicate the volumes using SnapMirror from inside the ONTAP Select VM to an existing ONTAP cluster.
- C. Enable FabricPools in the ONTAP Select instance.
- D. Using SolidFire real-time remote replication, replicate the hosting volumes to an ONTAP cluster.

Answer: A,D

NEW QUESTION # 24

You experience a node outage as a result of a component failure in a high-availability (HA) pair. You replace the failed component and get the node booted up again, but are unable to perform the giveback operation.

The onscreen error is:

"Connected to partner, Takeover is not possible: Storage failover mailbox disk state is invalid, Local node has encountered errors while reading the storage failover partner's mailbox disks. Local node missing partner disks" What are two ways to solve this problem? (Choose two.)

- A. Destroy the root aggregate.
- B. Destroy the mailboxes on both nodes.
- C. Correct the failover group configuration.
- D. Correct the shelf cabling errors.

Answer: C,D

NEW QUESTION # 25

You must manually upgrade your company's 8-node cluster from ONTAP 9.5 to ONTAP 9.7. Due to the sensitivity of the data that is being stored on the cluster, it is company policy to perform these upgrades one node at a time.

What are two steps that you must perform to accomplish this task? (Choose two.)

- A. Change disk ownership.
- B. Move Epsilon to maintain cluster quorum.
- C. Terminate active SMB connections.
- D. Terminate active NFS connections.

Answer: B,C

NEW QUESTION # 26

What is a SVM in NetApp ONTAP?

- A. A compressed volume that takes up less storage space
- B. A volume that is optimized for data access speed
- C. A volume that is encrypted to protect data
- D. A storage virtual machine that provides access to storage resources

Answer: D

NEW QUESTION # 27

.....

Candidates who are preparing for the Network Appliance exam suffer greatly in their search for preparation material. You won't need anything else if you prepare for the exam with our Network Appliance NS0-528 Exam Questions. Our experts have prepared Implementation Engineer - Data Protection Exam with dumps questions that will eliminate your chances of failing the exam.
