To stand in the race and get hold of what you deserve in your career, you must check with all the PECB ISO-14001-Lead-Auditor Exam Questions that can help you study for the PECB ISO-14001-Lead-Auditor certification exam and clear it with a brilliant score. You can easily get these PECB ISO-14001-Lead-Auditor Exam Dumps from PECB that are helping candidates achieve their goals.

PECB Certified EMS ISO 14001 Lead Auditor Exam Sample Questions (Q37-Q42):

NEW QUESTION # 37

Which two of the following options are an advantage of using a sampling plan for the audit?

- A. Reduces the audit duration
- B. Implements the audit plan efficiently
- C. Gives confidence in the audit results
- D. Overrules the auditor's instincts
- E. Prevents conflict within the audit team
- F. Use of the plan for consecutive audits

Answer: A,C

Explanation:

According to ISO 19011:2018 Clause 5.3.2 and Annex B (Audit Sampling):

Sampling allows auditors to:

Reduce audit time while still covering sufficient evidence (A),

Provide statistically valid assurance and confidence in the results (C).

Sampling does not replace auditor judgment (D), nor is it intended to prevent conflict (F) or be reused blindly for future audits (E).

Reference: ISO 19011:2018 Clause 5.3.2, Annex B.

NEW QUESTION # 38

ABC is a large lubricant oils manufacturer located in country A. Due to tax exemption and other economic issues, they decided to move the whole plant to a neighbouring country B. They moved every single piece of the plant (equipment, systems); the new plant has the same layout, the same dimensions, the same suppliers of raw materials and the same customers. Even more, most personnel accepted to move to country B.

They operate a third-party certified EMS; the certificate was transferred to the new plant after a half-day audit from the certification body. You are auditing ABC's EMS in the new location, representing ABC's largest customer. When interviewing the Environmental Manager (EM), you ask:

You: Can I see the plan you developed to keep under control the impact of the EMS due to the change of site?

EM: We listed all elements and processes of the EMS that might need to be changed and selected those that we considered needed a careful review and probably a revision.

Below you will find that list; select six that you consider will need to be revised.

- A. External issues related to the context of the organisation
- B. Emergencies from external conditions
- C. Environmental conditions
- D. Requirements ABC chooses to comply with
- E. Maintenance of infrastructure
- F. Personnel competence

- G. ABC's Environmental policy
- H. Process for assessing risks
- I. Significant environmental aspects
- J. Roles and their responsibilities
- K. Legal requirements

Answer: A,B,C,F,I,K

NEW QUESTION # 39

A small services organisation has been contracted to handle the disposal of waste for a local hospital. You are an auditor conducting a Stage 2 audit of the care home to ISO 14001. You are reviewing the contract with the Service Manager (SM). An addendum to the contract only requires that biological waste is disposed of in the most environmentally friendly way, without reference to any regulatory requirements.

You: How was the waste disposal plan for the contract developed?

SM: We have a basic template that covers the materials, labour requirements and methods to be employed.

Some of that is specified by the contractor.

You: How does the plan deal with specific items like biological waste, which are included in the contract and can pose biological hazards to the environment?

SM: The basic plan covers general waste, but we have an addendum that covers biological waste.

You: Are you aware of the regulatory requirements for waste disposal standards in hospitals?

SM: Yes but we depend on the contractor to look after that side of things.

You raise a nonconformity against section 8.1.d of ISO 14001.

At the Stage 2 closing meeting of the audit, the EMS Manager objects to the nonconformity raised and asks for it to be withdrawn. He insists that they meet all the regulations.

Choose one of the options that the audit team leader should take in response to the request.

- A. Confirm that it is a valid nonconformity supported by a lack of evidence for meeting the requirement.
- B. Advise that the nonconformity will be reconsidered after the meeting.
- C. Offer to downgrade the nonconformity to an opportunity for improvement if the organisation can prove its compliance with regulations.
- D. Consult with the auditor who raised the nonconformity and ask whether he will agree to withdraw it.

Answer: A

NEW QUESTION # 40

Which one of the following options best describes the main purpose of a Stage 2 third-party audit?

- A. To identify nonconformances against a standard.
- B. To check for legal compliance by the organisation.
- C. To determine readiness for certification.
- D. To get to know the organisation's management system.

Answer: A

Explanation:

According to ISO/IEC 17021-1:2015 (used alongside ISO 14001 for certification audits), the certification process includes Stage 1 and Stage 2 audits:

The purpose of the Stage 1 audit is to review the management system documentation and assess the organization's preparedness for Stage 2.

The Stage 2 audit's main objective is to evaluate the implementation, including the effectiveness, of the organization's management system. This includes assessing conformity with all the requirements of ISO 14001:2015.

As per ISO/IEC 17021-1:2015 Clause 9.3.2.2.2:

"The stage 2 audit shall take place at the site(s) of the organization. It shall include at least the following:

information and evidence about conformity to all requirements of the applicable management system standard." Thus, the Stage 2 audit is where auditors identify nonconformities and gather evidence to support certification decisions.

Reference: ISO/IEC 17021-1:2015 Clause 9.3.2.2.2; ISO 14001 Lead Auditor Course Guide - Certification Process Module.

NEW QUESTION # 41

A multi-level shopping centre is open every day to the public from 09:00-21:00 hours. During an external audit of the centre to ISO 14001, you establish that there are 40 vending machines that are permanently switched on. Thirty of them do not sell perishable foodstuffs. You also note that there are eight escalators in the complex that run constantly during public access. When asked about environmental performance improvement objectives, the Centre Manager says that there are plans to increase the natural daylight by installing more skylights thus saving on lighting costs, but the estimated budget for this has not yet been approved by the board.

You: I note that energy consumption is a significant environmental aspect in the centre. How do you mitigate the impacts of this?

EMS Manager: We try to reduce our energy costs by negotiating a better deal from the energy company. We are considering changing to one that only supplies electricity from renewable sources.

You: What steps have you taken to reduce overall consumption?

EMS Manager: We conducted awareness training for staff. For example, turning off lights in staff areas not being used.

You: I see that the escalators account for the highest usage of energy. Are there any objectives to try and reduce this?

EMS Manager: No, it would be too costly to change them.

You: How do you measure electricity consumption?

EMS Manager: We have meters installed in each floor of the centre. We take readings every hour and we plot the consumption graph for every staff shift.

You continue the interview and find that energy consumption has increased steadily over the past five years.

Select the two statements that are true.

- A. The organisation should take action to address its energy consumption.
- B. The escalators are switched on permanently.
- C. The Centre Manager is trained in energy awareness.
- D. The organisation's energy supplier sources renewable energy.
- E. The vending machines are switched on permanently.
- F. The centre staff are responsible for energy consumption in the staff areas.

Answer: A,E

NEW QUESTION # 42

.....

If you buy our ISO-14001-Lead-Auditor study materials you will pass the ISO-14001-Lead-Auditor test smoothly and easily. We boost professional expert team to organize and compile the ISO-14001-Lead-Auditor training materials diligently and provide the great service which include the service before and after the sale, the 24-hours online customer service and refund service.
