TEXES 160 PPR Exam Questions and Answers 100% Pass

Which of the following rationales would a supporter of block scheduling provide to convince others to support the organizational structure?

- A. Teachers can focus on more subjects in a shorter time
- B. There is an emphasis on mastering facts and skills
- C. Students' time in quality learning situations is increased
- D. The responsibility for learning is shifted to the teachers ✓✓C. Students' time in quality learning situations is increased

Which of the following strategies best supports a teacher's goal to incorporate critical thinking skills into language arts lessons?

- A. Providing students with opportunities to seek additional content knowledge
- B. Creating a forum for students to debate points of view
- C. Having students individually summarize various literature read
- D. Asking students to create practice questions as a review activity ✓✓B. Creating a forum for students to debate points of view

Pass4guide 100-160 product in above-mentioned three formats carries most probable real exam questions. Every person who attempts the exam has different preparation style. Some want to do in-depth study while some prefer quick Cisco Certified Support Technician (CCST) Cybersecurity test preparation. Pass4guide has introduced these three formats so every applicant of the test can prepare as per unique learning styles. In addition, we offer up to 1 year of free questions updates, free demos, discounts, and a 24/7 customer support. Don't miss these incredible offers. Purchase real exam questions today.

Cisco 100-160 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Basic Network Security Concepts: This section of the exam measures the skills of a Network Defender and focuses on understanding network-level protections, including firewalls, VPNs, and intrusion detectionprevention systems, providing insight into how threats are mitigated within network environments.
Topic 2	<ul style="list-style-type: none">Incident Handling: This section of the exam measures the skills of an Incident Responder and centers on recognizing security incidents, responding appropriately, and containing threats—forming the essential foundation of incident response procedures.
Topic 3	<ul style="list-style-type: none">Endpoint Security Concepts: This section of the exam measures the skills of an Endpoint Security Specialist and includes securing individual devices, understanding protections such as antivirus, patching, and access control at the endpoint level, essential for maintaining device integrity.

Topic 4	<ul style="list-style-type: none"> • Essential Security Principles: This section of the exam measures the skills of a Cybersecurity Technician and covers foundational cybersecurity concepts such as the CIA triad (confidentiality, integrity, availability), along with basic threat types and vulnerabilities, laying the conceptual groundwork for understanding how to protect information systems.
Topic 5	<ul style="list-style-type: none"> • Vulnerability Assessment and Risk Management: This section of the exam measures the skills of a Risk Management Analyst and entails identifying and assessing vulnerabilities, understanding risk priorities, and applying mitigation strategies that help manage threats proactively within an organization's systems

100-160 Exam Dumps Demo | 100-160 Clear Exam

Do you want to pass your exam with the least time? If you do, then we will be your best choice. 100-160 training materials are edited and verified by experienced experts in this field, therefore the quality and accuracy can be guaranteed. Besides 100-160 exam materials contain both questions and answers, and it's convenient for you to have a check after practicing. We have online and offline chat service, if you have any questions about 100-160 Training Materials, you can consult us, we will give you reply as quickly as possible.

Cisco Certified Support Technician (CCST) Cybersecurity Sample Questions (Q357-Q362):

NEW QUESTION # 357

Which of the following is NOT a component of AAA?

- A. Authorization
- B. Authentication
- C. Accountability
- **D. Accurate accounting**

Answer: D

Explanation:

The components of AAA are Authentication, Authorization, and Accounting. Accounting refers to the process of tracking and logging user activities, but its focus is not on accuracy. Instead, accounting provides information about resource usage, user activities, and system utilization for auditing and analysis purposes.

NEW QUESTION # 358

Which of the following helps to ensure the confidentiality of data in computer operations?

- A. Intrusion Detection System (IDS)
- B. Antivirus software
- **C. Access control lists (ACLs)**
- D. Data integrity controls

Answer: C

Explanation:

Access control lists (ACLs) are a security mechanism used in computer operations to enforce and manage access permissions for users and resources. ACLs enable organizations to control who can access specific data or resources, helping to ensure the confidentiality of sensitive information.

NEW QUESTION # 359

Which endpoint security mechanism is used to secure data transmitted between the endpoint and the network?

- A. Intrusion Detection System (IDS)
- **B. Encryption**
- C. Firewall
- D. Antivirus

Answer: B

Explanation:

Encryption is the mechanism used to secure data transmitted between the endpoint and the network. By encrypting the data, it becomes unreadable to unauthorized parties, ensuring the confidentiality and integrity of the information being transmitted. Encryption transforms the data into a ciphertext, which can only be decrypted back into its original form using the proper encryption key. This helps protect sensitive and confidential data from interception and unauthorized access during transmission over the network.

NEW QUESTION # 360

What regulation is specifically designed to ensure the security of payment card data processed by organizations?

- A. GDPR
- **B. PCI DSS**
- C. HIPAA
- D. BYOD

Answer: B

Explanation:

The Payment Card Industry Data Security Standard (PCI DSS) is a regulation that focuses on ensuring the security of payment card data processed by organizations. It provides a set of security requirements that organizations handling payment card data must follow to protect against fraud and data breaches.

NEW QUESTION # 361

Which security assessment of IT systems verifies that PII data is available, accurate, confidential, and accessible only by authorized users?

- A. Risk framing
- B. Workflow management
- C. Cyber Kill Chain
- **D. Information assurance**

Answer: D

Explanation:

The CCST Cybersecurity study material defines Information Assurance (IA) as the practice of managing information-related risks to ensure data availability, integrity, confidentiality, authentication, and non-repudiation. It specifically applies to sensitive information like PII (Personally Identifiable Information).

"Information assurance involves the protection and validation of data so that it remains accurate, confidential, and available only to authorized users. IA ensures the trustworthiness of information, particularly when handling sensitive or regulated data such as PII."

(CCST Cybersecurity, Vulnerability Assessment and Risk Management, Information Assurance section, Cisco Networking Academy) A (Risk framing) is part of risk management planning but does not verify data integrity and confidentiality directly.

B (Cyber Kill Chain) is an attack lifecycle model.

C (Workflow management) is about process efficiency, not data protection.

D is correct: Information Assurance addresses the availability, accuracy, and confidentiality of sensitive data.

NEW QUESTION # 362

.....

Our 100-160 training materials are excellent. The quality is going through official authentication. So your money paid for our 100-160 practice engine is absolutely worthwhile. In addition, you are advised to invest on yourselves. After all, no one can be relied on except yourself. And you can rely on our 100-160 learning quiz. We can claim that if you study with our 100-160 exam questions for 20 to 30 hours, then you are bound to pass the exam for we have high pass rate as 98% to 100%.
