

[illegible]

Mit einem SAVE International VMA Zertifikat kann der Berufstätige in der IT-Branche bessere berufliche Aufstiegschancen haben. Das SAVE International VMA Zertifikat ebnet den Berufstätigen in der IT-Branche den Weg zur erfolgreichen Karriere!

ITZert ist eine Website, die Bequemlichkeiten für die SAVE International VMA Zertifizierungsprüfung bietet. Nach den Forschungen über die Fragen und Antworten in den letzten Jahren kann ITZert die Themen zur SAVE International VMA Zertifizierungsprüfung effektiv erfassen. Die SAVE International VMA Prüfungsübungen haben eine große Ähnlichkeit mit realen Prüfungen.

>> VMA Online Praxisprüfung <<

VMA Fragen&Antworten, VMA Prüfungsfragen

Um jeden Kunden geeignete Vorbereitungsmethode für SAVE International VMA finden zu lassen, bieten wir insgesamt 3 Versionen von SAVE International VMA Prüfungsunterlagen, nämlich PDF, Online Test Engine, sowie Simulations-Software. Mindestens wird wohl eine davon Ihnen am besten bei der Vorbereitung unterstützen. Kostenlose Demos aller drei Versionen sind

angeboten. Jede Version enthält die neuesten und umfassendsten Prüfungsunterlagen der SAVE International VMA.

SAVE International Value Methodology Associate VMA Prüfungsfragen mit Lösungen (Q62-Q67):

62. Frage

Which of the following letters represents the scope lines?

- A. D
- **B. B**
- C. C
- D. A

Antwort: B

Begründung:

The diagram provided is a Function Analysis System Technique (FAST) diagram, a key tool in Value Methodology's Function Analysis phase, as taught in the VMF 1 course (Core Competency #2). FAST diagrams map the relationships between functions of a system, with the horizontal axis showing the "how- why" logic (critical path) and the vertical axis showing supporting functions. The vertical demarcations on the left and right of a FAST diagram are called scope lines, which define the boundaries of the study. According to SAVE International's Value Methodology Standard, "scope lines indicate the limits of the system or project being analyzed, separating the functions within the study's scope from external functions or assumptions." This was previously established in Question 15, where scope lines were identified as the correct term for these vertical demarcations.

In the FAST diagram:

- * The dashed vertical lines on the left and right are labeled B (left) and D (right). These lines define the scope of the study, with functions inside the lines (e.g., E, F, G, J, L, M, N, O) being within the study's focus, while functions outside (e.g., P, Q, R) are external assumptions or higher-level objectives.

- * A is a horizontal line at the bottom, representing the boundary of the diagram but not the scope lines.

- * C is an arrow indicating the direction of the "why" axis (left), not a scope line.

Since the question asks for the letter that "represents the scope lines," and both B and D are scope lines, the correct answer must be one of these. However, the options only allow for one letter to be selected, and in FAST diagramming convention, the left scope line (B) is often emphasized as the primary boundary for defining the study's starting point (e.g., the higher-order function E, as identified in Question 18). Thus, B is the most appropriate choice among the options provided.

- * Option A (A) is incorrect because A is a horizontal line, not a vertical scope line.

- * Option B (B) is correct, as B is the left vertical scope line, marking the boundary of the study's scope.

- * Option C (C) is incorrect because C is an arrow, not a scope line.

- * Option D (D) is also a scope line (the right boundary), but since only one letter can be selected and B is the left scope line (often the primary focus in FAST diagramming), B is chosen. If the question intended to allow both B and D, the phrasing would need adjustment.

:

SAVE International, VMF 1 Core Competency #2 (Function Analysis), which includes the use of FAST diagrams and the definition of scope lines as vertical demarcations.

SAVE International, "Value Methodology Standard," section on Function Analysis, describing FAST diagramming conventions,

including scope lines as the vertical boundaries of the study.

63. Frage

What is the correct sequence of the last four phases of the Value Methodology Job Plan?

- A. Evaluation, Development, Presentation, and Implementation
- B. Development, Evaluation, Presentation, and Implementation
- C. Development, Presentation, Evaluation, and Implementation
- D. Evaluation, Development, Implementation, and Presentation

Antwort: A

64. Frage

The VM is defined by SAVE International as a:

- A. Specialized process
- B. Systematic process
- C. Structured process
- D. Sequential process

Antwort: B

Begründung:

Value Methodology (VM) is defined by SAVE International in its Value Methodology Standard as "a systematic process that uses a structured Job Plan to improve the value of projects, products, or processes by analyzing their functions and identifying opportunities to achieve required functions at the lowest total cost without compromising quality or performance." The term "systematic" emphasizes the methodical, disciplined approach of VM, which follows a defined sequence of phases (the VM Job Plan) and uses specific tools like Function Analysis and cost modeling to ensure consistency and effectiveness.

* Option A (Structured process) is partially correct, as VM is structured, but "systematic" is the precise term used by SAVE International to describe the methodology's comprehensive and methodical nature.

* Option B (Specialized process) is incorrect because VM is a general methodology applicable across industries, not limited to a specific domain.

* Option C (Systematic process) is correct, directly matching SAVE International's definition of VM.

* Option D (Sequential process) is incorrect because, while the VM Job Plan is sequential, the definition of VM focuses on its systematic nature, not just the sequence.

:

SAVE International, "Value Methodology Standard and Body of Knowledge," available at <https://www.value-eng.org>, defining VM as a systematic process.

SAVE International, "Value Methodology Associate (VMA) Certification," <https://www.value-eng.org/page/VMA>, referencing VMF 1 Core Competency #1 (Value Methodology Overview).

65. Frage

Which phase enables the VM team to select viable ideas?

- A. Evaluation
- B. Presentation
- C. Function Analysis
- D. Development

Antwort: A

Begründung:

The Value Methodology (VM) Job Plan, as outlined in the VMF 1 course and SAVE International's Value Methodology Standard, consists of six phases, one of which is the Evaluation Phase, where the VM team selects viable ideas. In the Evaluation Phase, the team assesses ideas generated during the Creative Phase to determine their feasibility, cost impact, and alignment with project goals. According to the VMF 1 Core Competency #3 (Value Methodology Job Plan), the Evaluation Phase involves "evaluating the ideas for their potential to improve value, using criteria such as cost savings, performance, quality, and feasibility, to select the most viable alternatives for further development." Tools like weighted evaluation matrices may be used to rank ideas systematically.

- * Option A (Function Analysis) is incorrect because this phase focuses on identifying and analyzing functions, not selecting ideas.
- * Option B (Presentation) is incorrect because this phase involves communicating recommendations to stakeholders, after ideas have already been selected and developed.
- * Option C (Evaluation) is correct, as it is the phase where the VM team filters and selects viable ideas based on defined criteria.
- * Option D (Development) is incorrect because this phase involves refining selected ideas into actionable proposals, which happens after the Evaluation Phase.

:

SAVE International, "Value Methodology Standard and Body of Knowledge," available at <https://www.value-eng.org>, detailing the Evaluation Phase in the VM Job Plan.

SAVE International, "Value Methodology Associate (VMA) Certification," <https://www.value-eng.org/page/VMA>, referencing VMF 1 Core Competency #3 (Value Methodology Job Plan).

66. Frage

Which of the following best describes a VM study?

- A. Must be led by a Certified Value Specialist
- B. Is considered a business improvement best practice
- C. Is undertaken after the design is completed
- **D. It is a structured effort using the VM process to improve value**

Antwort: D

Begründung:

A Value Methodology (VM) study is a structured effort that applies the VM process to improve the value of a project, product, or process by optimizing the function-to-cost ratio. According to SAVE International's Value Methodology Standard, a VM study is defined as "a systematic application of recognized techniques by a multi-disciplined team to identify the functions of a project or process, establish a worth for each function, and develop alternatives to achieve those functions at the lowest overall cost while maintaining performance." The VMF 1 course emphasizes that a VM study follows the six-phase VM Job Plan (Information, Function Analysis, Creative, Evaluation, Development, and Presentation) to systematically improve value, making it a structured effort.

* Option A (structured effort using the VM process) directly aligns with SAVE International's definition of a VM study, focusing on the systematic application of the VM process to enhance value.

* Option B (must be led by a Certified Value Specialist) is incorrect because, while a Certified Value Specialist (CVS) often leads VM studies, the VMF 1 course and VMA certification allow non-CVS team members to participate in and contribute to VM studies under guidance, meaning it's not a requirement.

* Option C (undertaken after the design is completed) is incorrect because VM studies can be conducted at various stages of a project lifecycle—concept, design, or implementation—not only after the design is completed. The VMF 1 course highlights that early application of VM yields the greatest benefits.

* Option D (business improvement best practice) is a broader statement and not specific to the definition of a VM study, though VM can contribute to business improvements. It does not best describe a VM study compared to Option A.

:

SAVE International, "Value Methodology Standard and Body of Knowledge," available at <https://www.value-eng.org>, defining a VM study as a structured process to improve value.

SAVE International, "Value Methodology Associate (VMA) Certification," <https://www.value-eng.org/page/VMA>, referencing VMF 1 Core Competency #1 (Value Methodology Overview).

67. Frage

.....

Die Materialien zur SAVE International VMA Zertifizierungsprüfung von ITZert werden speziell von dem IT-Expertenteam entworfen. Sie sind zielgerichtet. Durch die Zertifizierung können Sie Ihren internationalen Wert in der IT-Branche verwirklichen. Viele Anbieter für Antwortenspeicherung und die Schulungsunterlagen versprechen, dass Sie die SAVE International VMA Zertifizierungsprüfung mit ihren Produkten bestehen können. ITZert sagen mit den Beweisen. Der Moment, wenn das Wunder vorkommt, kann jedes Wort von uns beweisen.

VMA Fragen&Antworten: https://www.itzert.com/VMA_valid-braindumps.html

Sie können doch die SAVE International VMA-Prüfung bestehen, SAVE International VMA Online Praxisprüfung Wir verkaufen drei Versionen unserer hochwertigen Produkte, die unterschiedliche Arten von Studienanforderungen erfüllen: PDF-Version, Soft

Talientiertere Menschen sind sich bewusst, dass sie VMA weggehen und selbst mehr Geld verdienen können, und sie tun es, Caspars Zimmer lag über dem ehelichen Schlafgemach, und sie vernahmen nun in der eingetretenen VMA Prüfungsfragen Stille die unaufhörlich auf und ab gehenden Schritte ihres rätselhaften Hausgenossen.

Sie können doch die SAVE International VMA-Prüfung bestehen, Wir verkaufen drei Versionen unserer hochwertigen Produkte, die unterschiedliche Arten von Studienanforderungen VMA Fragen&Antworten erfüllen: PDF-Version, Soft (PC Test Engine), APP (Online Test Engine).

Danach sendet Ihnen das System automatisch die VMA Studiendumps innerhalb zehn Minuten, Wir versprechen Ihnen, dass Ihre VMA Bestehensrate höher als 98% ist.
