## 100% Pass Perfect OGA-031 - Exam ArchiMate 3 Part 1 Exam Objectives Pdf

In order to provide a convenient study method for all people, our company has designed the online engine of the OGA-031 study practice dump. The online engine is very convenient and suitable for all people to study, and you do not need to download and install any APP. We believe that the OGA-031 exam questions from our company will help all customers save a lot of installation troubles. You just need to have a browser on your device you can use our study materials. We can promise that the OGA-031 Prep Guide from our company will help you prepare for your exam well. If you decide to buy and use the study materials from our company, it means that you are not far from success.

## The Open Group ArchiMate 3 Part 1 Exam Sample Questions (Q72-Q77):

### NEW QUESTION # 72

Consider the following diagram which shows part of the ArchiSurance Claims Administration:

Which of the following correctly describes this diagram?

- A. The Claim Filed event assigns the Customer Service Representative to participate in the Accept Claim and Assign Claim processing.
- B. The event Claim Filed triggers the Accept Claim process which is serviced by the Customer Service Representative role before the Assign Claim process.
- C. Business event Claim Filed triggers a business process Accept Claim which in turn triggers an Assign Claim process.
- D. The information that flows from Claim Filed to Accept Claim and then to Assign Claim is reviewed by the Customer Service Representative role.

**Answer: C**

Explanation:

The correct answer is D. Business event Claim Filed triggers a business process Accept Claim which in turn triggers an Assign Claim process. This is because the diagram shows a business event (Claim Filed) that initiates a business process (Accept Claim) which is performed by a business role (Customer Service Representative). The business process then triggers another business process (Assign Claim) which is also performed by the same business role. The diagram does not show any information flow or assignment relationships between the elements.

### NEW QUESTION # 73

Complete the sentence. In the Physical Elements metamodel, a distribution network realizes a \_\_\_.

- A. Path
- B. Node
- C. Technology interaction
- D. Technology service

**Answer: A**

Explanation:

Comprehensive and Detailed in Depth Explanation: A Distribution Network is a physical element that represents a collection of structures that transport physical materials, goods, or energy.

A Path, in ArchiMate, represents a route or connection between two or more locations or elements. Since a Distribution Network enables movement along a defined route, it realizes a Path.

This relationship is explicitly defined in the ArchiMate 3.2 Specification, where Distribution Network elements realize Paths.

### NEW QUESTION # 74

Complete following sentence: In the generic metamodel the main types of elements can be divided into

- A. grouping and location

- B. structure and behavior
- C. resources and events
- D. process and function

**Answer: B**

Explanation:

Based on the ArchiMate 3 documents or objectives, the generic metamodel defines two main types of elements: structure and behavior. Structure elements represent the structural concepts that model the static construction or composition of concepts of the same or different types. Behavior elements represent units of activity performed by one or more active structure elements.

#### NEW QUESTION # 75

Complete the sentence. The passive counterpart of the application component in the application layer is called a(n) \_\_\_\_.

- A. Data object
- B. Application event
- C. Product
- D. Meaning

**Answer: A**

Explanation:

Comprehensive and Detailed in Depth Explanation: An Application Component is an active structure that represents software components performing behavior. Its passive counterpart is the Data Object, which represents structured information used or produced by applications.

Since Data Objects do not perform actions themselves but store, structure, or represent data, they are the correct counterpart to Application Components in the Application Layer.

This is clearly outlined in the ArchiMate 3.2 Specification, which states that Application Components act upon Data Objects.

#### NEW QUESTION # 76

What is an external active structure element that represents a point of access where one or more services are provided to the environment?

- A. A collaboration
- B. An interaction
- C. A capability
- D. An interface

**Answer: D**

Explanation:

Comprehensive and Detailed in Depth Explanation: An Interface in ArchiMate represents an access point through which elements interact with services. It can be a Business Interface, Application Interface, or Technology Interface.

Interfaces serve as a boundary between internal and external systems, allowing controlled interactions. The ArchiMate 3.2 Specification explicitly states that interfaces expose services to the environment.
