

Don't Miss Up to 365 Days of Free Updates - Buy Infoblox NIOS-DDI-Expert Questions Now

BONUS!!! Download part of Prep4pass NIOS-DDI-Expert dumps for free: <https://drive.google.com/open?id=1T5jWYOEu3Yje9DAriqKrcbAi3bIvF7d7>

The study material to get Infoblox Infoblox Qualified NIOS DDI Expert - INE certified should be according to individual's learning style and experience. Real Infoblox NIOS-DDI-Expert Exam Questions certification makes you more dedicated and professional as it will provide you complete information required to work within a professional working environment.

Our company employs experts in many fields to write NIOS-DDI-Expert study guide, so you can rest assured of the quality of our learning materials. What's more, preparing for the exam under the guidance of our NIOS-DDI-Expert exam questions, you will give you more opportunities to be promoted and raise your salary in the near future. So when you are ready to take the exam, you can rely on our NIOS-DDI-Expert Learning Materials. If you want to be the next beneficiary, what are you waiting for? Come and buy our NIOS-DDI-Expert learning materials.

New NIOS-DDI-Expert Study Notes, Original NIOS-DDI-Expert Questions

Cracking the NIOS-DDI-Expert examination requires smart, not hard work. You just have to study with valid and accurate Infoblox NIOS-DDI-Expert practice material that is according to sections of the present Infoblox NIOS-DDI-Expert exam content. Prep4pass offers you the best NIOS-DDI-Expert Exam Dumps in the market that assures success on the first try. This updated NIOS-DDI-Expert exam study material consists of NIOS-DDI-Expert PDF dumps, desktop practice exam software, and a web-

based practice test.

Infoblox Qualified NIOS DDI Expert - INE Sample Questions (Q25-Q30):

NEW QUESTION # 25

An administrator is using the Management port with a Grid Master HA pair. The GUI can be accessed from the HA pair VIP.

- A. True
- B. False

Answer: B

Explanation:

Comprehensive and Detailed In-Depth Explanation: Management port and HA pair in NIOS:

- * Setup: The MGMT port (separate from LAN1) is for out-of-band access (e.g., SSH, GUI) to individual nodes, not the HA VIP.
- * VIP Role: The Virtual IP (LAN1) serves DNS/DHCP and GUI access in-band, not via MGMT.
- * Why False: MGMT port IPs (e.g., 192.168.2.101, 192.168.2.102) are node-specific-VIP (e.g., 192.168.1.100) isn't routable via MGMT. GUI access uses LAN1 VIP or node IPs, not MGMT VIP.
- * Practical Example: In an INE lab, access GUI via LAN1 VIP (not MGMT), test MGMT SSH, and troubleshoot port confusion. References: Infoblox NIOS Administrator Guide - Management Port; INE Course Content: NIOS DDI Grid Deployment.

NEW QUESTION # 26

Which of the following transport protocols are supported by scheduled NIOS Grid Backup? (Select all that apply.)

- A. HTTPS
- B. SFTP
- C. FTP
- D. SCP

Answer: A,B,C,D

Explanation:

Comprehensive and Detailed In-Depth Explanation: NIOS Grid Backup allows scheduled exports of the configuration database (DNS, DHCP, Grid settings) to an external server. Supported protocols ensure flexibility and security:

- * A (SFTP): Secure File Transfer Protocol (SSH-based) is supported for encrypted backups to remote servers (port 22). Widely used for secure transfers. Correct.
 - * B (SCP): Secure Copy Protocol (also SSH-based) is supported, offering a simple, secure file transfer option (port 22). Correct.
 - * C (FTP): File Transfer Protocol (unencrypted, port 21) is supported for legacy systems, though less secure. Correct.
 - * D (HTTPS): Web-based secure transfer (port 443) is supported, allowing backups to HTTP servers with SSL/TLS encryption. Correct.
 - * Setup: In Grid Manager (Grid > Grid Manager > Backup), you configure the protocol, server IP, and credentials.
 - * Practical Example: In an INE lab, you'd schedule a backup using SFTP to a remote server, test restoration, and troubleshoot connectivity issues, reinforcing Grid deployment skills.
 - * Note: All four are explicitly supported per NIOS documentation, making this a comprehensive list.
- References: Infoblox NIOS Administrator Guide - Grid Backup; INE Course Objective: NIOS DDI Grid Deployment.

NEW QUESTION # 27

When defining a custom DHCP option, what does the administrator need to specify? (Select all that apply.)

- A. Option Name
- B. Data Value
- C. Option Number
- D. Data Type

Answer: A,C,D

Explanation:

Comprehensive and Detailed In-Depth Explanation: Custom DHCP options (Data Management > DHCP > Option Spaces):

- * A (Option Name): Mandatory label (e.g., "CustomOpt"). Correct.

- * B (Option Number):Mandatory code (1-254, e.g., 150). Correct.
- * C (Data Type):Mandatory format (e.g., string, integer). Correct.
- * D (Data Value):Set when applying the option to a scope/range, not during definition. Optional here.

Incorrect.

* Practical Example:In an INE lab, define "VoiceVLAN" (Number: 150, Type: integer), apply value "10" later, and troubleshoot client config.References:Infoblox NIOS Administrator Guide - DHCP Options; INE Course Content: NIOS DDI DHCP Troubleshooting

NEW QUESTION # 28

When a Force Failover is performed on a HA pair, what is the priority that is set in the VRRP packet send from the Active to the Passive Node?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

Explanation:

Comprehensive and Detailed In-Depth Explanation:VRRP governs HA failover in NIOS, using priority values (0-255) to determine the active node. Here's the detailed process:

- * Normal Operation:The active node has a higher priority (e.g., 100) than the passive node (e.g., 90), set during HA configuration.
- * Force Failover:In Grid Manager (Grid > Members > Force Failover), the admin triggers a manual switch. The active node sends a VRRP advertisement withpriority 255to assert itself as the master, then lowers its priority (e.g., to 90), allowing the passive node (now higher, e.g., 100) to take over.
- * Why 255:Per VRRP standards (RFC 3768), 255 is the highest priority, reserved for the master to signal ownership or force transitions. Post-failover, priorities revert to configured values.
- * Options:
 - * A (0):Signals a node is shutting down, not forcing failover. Incorrect.
 - * C (1024):Exceeds VRRP's 8-bit range (0-255). Invalid.
 - * D (128):A possible priority, but not the forced failover value. Incorrect.
- * Practical Example:In an INE lab, you'd force failover, capture VRRP packets (e.g., with Wireshark), and verify the 255 priority, troubleshooting HA behavior.References:Infoblox NIOS Administrator Guide - HA Failover; RFC 3768 (VRRP); INE Course Content: NIOS DDI Grid Troubleshooting

NEW QUESTION # 29

A superuser can change the password on another admin account.

- **A. True**
- B. False

Answer: A

Explanation:

Comprehensive and Detailed In-Depth Explanation:In NIOS, asuperuseris an admin with unrestricted permissions across the Grid, including user management. Here's the breakdown:

- * Superuser Role:Defined in Grid Manager (Administration > Administrators), superusers have full read /write access to all objects and settings, including admin accounts.
- * Password Change:A superuser can navigate to Administration > Administrators, select another admin account (e.g., "user1"), and modify its password, overriding any restrictions on that account.
- * Why True:This is a built-in capability to ensure ultimate control, useful for scenarios like account recovery or security enforcement. No restrictions apply to superusers for this action.
- * Practical Example:In an INE troubleshooting lab, a superuser might reset a locked-out admin's password to regain Grid access, testing authentication policies.
- * Contrast:Regular admins with limited permissions can't modify others' accounts unless explicitly granted.References:Infoblox NIOS Administrator Guide - Admin Management; INE Course Objective: NIOS DDI Grid Deployment.

NEW QUESTION # 30

.....

Our product boosts many advantages and it is worthy for you to buy it. You can have a free download and tryout of our NIOS-DDI-Expert Exam torrents before purchasing. After you purchase our product you can download our NIOS-DDI-Expert study materials immediately. We will send our product by mails in 5-10 minutes. We provide free update and the discounts for the old client. If you have any doubts or questions you can contact us by mails or the online customer service personnel and we will solve your problem as quickly as we can.
