The intelligence and customizable OGEA-101 training material will help you get the OGEA-101 certification successfully.

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q107-Q112):

NEW QUESTION # 107

Which of the following is a responsibility of an Architecture Board?

- A. Creating the Statement of Architecture Work
- B. Allocating resources for architecture projects
- C. Conducting assessments of the maturity level of architecture discipline within the organization
- **D. Establishing targets for re-use of components**

Answer: D

Explanation:

An Architecture Board is an executive-level group responsible for the review and maintenance of the strategic architecture and all of its sub-architectures¹. It is a key element in a successful Architecture Governance strategy².

An Architecture Board is typically made responsible, and accountable, for achieving some or all of the following goals²:

Providing the basis for all decision-making with regard to the architectures Consistency between sub-architectures Establishing targets for re-use of components Flexibility of the Enterprise Architecture: To meet changing business needs To leverage new technologies Enforcement of Architecture Compliance Improving the maturity level of architecture discipline within the organization Ensuring that the discipline of architecture-based development is adopted Supporting a visible escalation capability for out-of-bounds decisions Therefore, the correct answer is option D, which captures one of the goals of an Architecture Board as stated in the TOGAF Standard, Version 9.22.

Option A is incorrect, because conducting assessments of the maturity level of architecture discipline within the organization is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Capability Framework³.

Option B is incorrect, because allocating resources for architecture projects is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Governance Framework⁴.

Option C is incorrect, because creating the Statement of Architecture Work is not a direct responsibility of an Architecture Board, but rather a part of the Architecture Development Method⁵. Reference:

1: Architecture Board - The Open Group³

2: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Board

3: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Capability Framework

4: TOGAF Standard, Version 9.2 - Part VI: Architecture Governance Framework - Architecture Governance Framework

5: TOGAF Standard, Version 9.2 - Part II: Architecture Development Method - Phase A: Architecture Vision

NEW QUESTION # 108

Which section of the TOGAF template for Architecture Principles should highlight the business benefits of adhering to the principle?

- A. Name
- **B. Rationale**
- C. Implications
- D. Statement

Answer: B

Explanation:

According to the TOGAF Standard, 10th Edition, the rationale section of the architecture principles template should highlight the business benefits of adhering to the principle, as well as the business risks of not adhering to it¹. The rationale section should explain the reasoning behind the principle, and provide evidence or arguments to support it. The rationale section should also link the principle to the business drivers, goals, and objectives of the enterprise, and show how the principle contributes to the value and success of the enterprise.

The other options are not correct, as they have different purposes in the architecture principles template. The name section should provide a short and memorable name for the principle, such as "Information is an Asset" or "Business Continuity"¹. The statement section should provide a concise and formal statement of the principle, such as "The enterprise's information is recognized as a core asset, and is managed accordingly" or

"The enterprise's ability to provide critical services and products must be maintained in the event of a disaster"¹. The implications section should identify the impact of the principle on the enterprise, such as the changes, costs, benefits, and risks that may result from applying or violating the principle¹. References: 1:

TOGAF Standard, 10th Edition, Part III: ADM Guidelines and Techniques, Chapter 23: Architecture Principles, Section 23.3 Developing Architecture Principles.

NEW QUESTION # 109

What provides context for architecture work, by describing the needs and ways of working employed by the enterprise?

- A. Business principles business goals, and business drivers
- B. Stakeholder needs
- C. Architecture Contracts
- D. Strategy and vision

Answer: A

Explanation:

Business principles business goals, and business drivers provide context for architecture work, by describing the needs and ways of working employed by the enterprise. They define what the enterprise wants to achieve, how it wants to operate, and what factors influence its decisions and actions. Reference: The TOGAF Standard | The Open Group Website, Section 3.2 Preliminary Phase.

NEW QUESTION # 110

Which section of the TOGAF template for Architecture Principles should highlight the requirements for carrying out the principle?

- A. Implications
- B. Name
- C. Rationale
- D. Statement

Answer: A

Explanation:

The Implications section describes the impact of adhering to the principle on the organization, the processes, the information systems, and the technology²³. It also identifies the changes, costs, and risks that may result from applying the principle²³. The Implications section helps to communicate the benefits and consequences of the principle to the stakeholders and to guide the implementation and governance of the architecture²³.

The other sections of the TOGAF template for Architecture Principles are¹:

* Name: This section provides a short and memorable name for the principle that represents its essence and purpose²³. The name should not mention any specific technology or solution²³.

* Statement: This section provides a concise and formal definition of the principle that expresses the fundamental rule or constraint that the principle imposes²³. The statement should be clear, unambiguous, and testable²³.

* Rationale: This section provides the reasoning and justification for the principle, explaining why it is important and how it supports the business goals and drivers²³. The rationale should also link the principle to the higher-level enterprise or IT principles that it elaborates on²³.

NEW QUESTION # 111

Which of the following best describes the class of information known as the Reference Library within the Architecture Repository?

- A. Guidelines and templates used to create new architectures
- B. Specifications to which architectures must conform
- C. Processes to support governance of the Architecture Repository
- D. A record of the governance activity across the enterprise

Answer: A

Explanation:

The class of information known as the Reference Library within the Architecture Repository contains guidelines and templates used to create new architectures. The Reference Library provides a set of resources that can be leveraged or customized for specific architecture development purposes. It includes generic building blocks, patterns, models, standards, frameworks, methods, techniques, best practices, etc. Reference:

The TOGAF Standard | The Open Group Website, Section 2.4 Architecture Repository.

NEW QUESTION # 112

.....
