It is our mission to help you pass the exam. 350-601 guide torrent will provide you with 100% assurance of passing the professional qualification exam. We are very confident in the quality of 350-601 study guide. And we believe that all students who have purchased our study materials will be able to successfully pass the professional qualification exam as long as they follow the content provided by 350-601 study guide, study it on a daily basis, and conduct regular self-examination through mock exams. Once you unfortunately fail the exam, 350-601 Guide Torrent will provide you with a full refund and the refund process is very simple. As long as you provide your staff with your transcripts, you will receive a refund soon. Of course, before you buy, 350-601 certification training offers you a free trial service, as long as you log on our website, you can download our trial questions bank for free. I believe that after you try 350-601 certification training, you will love them.

The community has a lot of talent, people constantly improve their own knowledge to reach a higher level. But the country's demand for high-end IT staff is still expanding, internationally as well. So many people want to pass Cisco 350-601 certification exam. But it is not easy to pass the exam. However, in fact, as long as you choose a good training materials to pass the exam is not impossible. We BootcampPDF Cisco 350-601 Exam Training materials in full possession of the ability to help you through the certification. BootcampPDF website training materials are proved by many candidates, and has been far ahead in the international arena. If you want to through Cisco 350-601 certification exam, add the BootcampPDF Cisco 350-601 exam training to Shopping Cart quickly!

Quiz 2025 350-601 Practice Engine - Implementing Cisco Data Center Core Technologies (350-601 DCCOR) Realistic Latest Dumps Pdf

You can imagine that you just need to pay a little money for our 350-601 exam prep, what you acquire is priceless. So it equals that you have made a worthwhile investment. Firstly, you will learn many useful knowledge and skills from our 350-601 Exam Guide, which is a valuable asset in your life. After all, no one can steal your knowledge. In addition, you can get the valuable 350-601 certificate.

Cisco 350-601 Certification Exam is an important certification for IT professionals who want to enhance their skills and knowledge in data center technologies. Implementing Cisco Data Center Core Technologies (350-601 DCCOR) certification demonstrates the candidate's ability to implement and troubleshoot data center infrastructure, network infrastructure, storage infrastructure, compute infrastructure, automation, and security. Implementing Cisco Data Center Core Technologies (350-601 DCCOR) certification is highly valued in the industry and can lead to better job opportunities and higher salaries.

Cisco Implementing Cisco Data Center Core Technologies (350-601 DCCOR) Sample Questions (Q22-Q27):

NEW QUESTION # 22

What is a characteristic of EPLD updates on Cisco MDS 9000 Series Switches?

- A. EPLD updates are installed only via the Cisco DCNM GUI
- B. EPLD bundles are released separately from a Cisco MDS NX-OS release
- C. EPLD updates are nondisruptive to traffic flow
- **D. EPLD packages update hardware functionality on a device**

Answer: D

Explanation:

https://www.cisco.com/c/en/us/td/docs/switches/datacenter/mds9000/sw/6_2/release/notes/epld/epld_mn.htm

Introduction

Switches and directors in the Cisco MDS 9000 Series contain several electrical programmable logical devices (EPLDs) that provide hardware functionalities in all of the modules. As of Cisco MDS SAN-OS Release 1.2, EPLD image upgrades are periodically provided to include enhanced hardware functionality or to resolve known issues.

NEW QUESTION # 23

An engineer is asked to use SaaS to manage Cisco computing. Which two items are needed to accomplish the task? (Choose two.)

- **A. Intersight**
- B. UCS Central
- C. UCS Manager
- **D. Device/Claim ID**
- E. Node name/Serial Number

Answer: A,D

Explanation:

To use SaaS to manage Cisco computing, you need to have a Cisco Intersight account and a device/claim ID for each device that you want to manage. Cisco Intersight is a cloud-based platform that provides unified management, automation, and analytics for Cisco data center products. A device/claim ID is a unique identifier that is generated when you register a device with Cisco Intersight. You can use the device/claim ID to claim the device and add it to your Intersight account. Once you claim the device, you can monitor, configure, and troubleshoot it from the Intersight dashboard. References: For more information on how to use SaaS to manage Cisco computing, please refer to the following resources:

- * Cisco Intersight Overview
- * Cisco Intersight Getting Started Guide
- * Cisco Intersight Device Connector

NEW QUESTION # 24

Refer to the exhibit. Which two statements about the routing table of the leaf switch are true?

(Choose two.)

```
ACI-Leaf1# show ip route vrf DATACENTER:DC
10.20.1.0/24, ubest/mbest: 1/0, attached, direct, pervasive
  *via 10.0.8.65%overlay-1, [1/0], 4w3d, static
172.16.100.0/24, ubest/mbest: 1/0
  *via 10.1.168.95%overlay-1, [200/5], 3w0d, bgp-132, internal, tag 132 (mpls-vpn)
172.16.99.0/24, ubest/mbest: 1/0
  *via 10.0.1.14, [20/0], 3w0d, bgp-132, external, tag 200
```

- **A. The next hop 10.1.168.95 for route 172.16.100.0/24 is the TEP address of a border leaf in ACI.**
- B. The next hop 10.0.1.14 for route 172.16.99.0/24 is the TEP address of a border leaf in ACI.
- C. 172.16.100.0/24 is a BD subnet in ACI.
- **D. 10.20.1.0/24 is a BD subnet in ACI.**
- E. The next hop 10.0.8.65 for route 10.20.1.0/24 is the TEP address of a border leaf in ACI.

Answer: A,D

Explanation:

10.20.1.0/24 is a BD in ACI because of the part which says "direct, pervasive".

For the other answer choice, we see from the administrative distance and the "internal" naming, we know that this is an external subnet (172.16.100.0/24) and that as all external routes are exchanged with the fabric through MP-BG. MP-BGP is actually used to populate the leaves in the fabric with routing on how to reach those external routes. In MP-BGP, the spines are only the route reflectors. So from this we know that the next hop of the external subnet will be a VTEP of a leaf.

NEW QUESTION # 25

A server engineer wants to control power usage on a Cisco UCS C-Series rack server down to the component level.

Which two components support specific power limits? (Choose two.)

- A. network controller
- **B. processor**
- C. graphic card
- **D. memory**
- E. storage controller

Answer: B,D

Explanation:

https://www.cisco.com/c/en/us/td/docs/unified_computing/ucs/c/sw/gui/config/guide/4_1/b_Cisco_UCS_C-series_GUI_Configuration_Guide_41/b_Cisco_UCS_C-series_GUI_Configuration_Guide_41_chapter_0100.html

NEW QUESTION # 26

Refer to the exhibit.

```
Enter the configuration method. (console/gui) ? console

Enter the setup mode; setup newly or restore from backup.
(setup/restore) ? restore

NOTE:
  To configure Fabric interconnect using a backup file on
  a remote server, you will need to setup management
  interface.
  The management interface will be re-configured (if
  necessary), based on information stored in the backup file.

Continue to restore this Fabric interconnect from a backup
file (yes/no) ? yes

Physical Switch Mgmt0 IPv4 address : 192.168.10.10
Physical Switch Mgmt0 IPv4 netmask : 255.255.255.0
IPv4 address of the default gateway : 192.168.10.1
Enter the protocol to get backup file (scp/ftp/tftp/sftp)
? scp
Enter the IP address of backup server: 20.10.20.10
Enter fully qualified backup file name: Backup.bak
Enter user ID: user
Enter password:
  Retrieved backup configuration file.
Configuration file - Ok
```

Which type of backup is required to restore a Cisco UCS configuration?

- A. full state
- B. all configuration
- C. system configuration
- D. logical configuration

Answer: C

Explanation:

https://www.cisco.com/c/en/us/td/docs/unified_computing/ucs/sw/cli/config/guide/1-0-2/b_CLI_Config_Guide_1-0-2/CLI_Config_Guide_1-0-2_chapter29.pdf

The following example restores a system configuration from the Backup.bak file, which was retrieved from the 20.10.20.10 backup server using FTP:

```
Enter the configuration method. (console/gui) ? console

Enter the setup mode; setup newly or restore from backup. (setup/restore) ? restore

NOTE:
  To configure Fabric interconnect using a backup file on a remote server,
  you will need to setup management interface.
  The management interface will be re-configured (if necessary),
  based on information stored in the backup file.

Continue to restore this Fabric interconnect from a backup file (yes/no) ? yes

Physical Switch Mgmt0 IPv4 address : 192.168.10.10
Physical Switch Mgmt0 IPv4 netmask : 255.255.255.0
IPv4 address of the default gateway : 192.168.10.1

Enter the protocol to get backup file (scp/ftp/tftp/sftp) ? scp
Enter the IP address of backup server: 20.10.20.10
Enter fully qualified backup file name: Backup.bak
Enter user ID: user
Enter password:
Retrieved backup configuration file.
Configuration file - Ok
```
