DP-203 Online Version | DP-203 Test Questions

Solutions is one of the top platforms that has been helping Data Engineering on Microsoft Azure exam candidates for many years. Over this long time period countless candidates have passed their dream Data Engineering on Microsoft Azure (DP-203) certification exam. They all got help from Exams. Solutions DP-203 Practice Questions and easily passed their exam. The Microsoft DP-203 exam questions are designed by experience and qualified DP-203 certification expert.

Do you want to pass DP-203 certification exam easily? Then it is necessary to have DumpsTorrent DP-203 exam certification training materials. DumpsTorrent DP-203 test training materials are summarized by IT experts with constant practice, which is the combination of DP-203 Exam Dumps and answers, and can't be matched by any DP-203 test training materials from others. DumpsTorrent will take you to a more beautiful future.

2025 Efficient DP-203 – 100% Free Online Version | Data Engineering on Microsoft Azure Test Questions

Microsoft DP-203 preparation materials will be the good helper for your qualification certification. We are concentrating on providing high-quality authorized DP-203 study guide all over the world so that you can clear exam one time. As we all know, the preparation process for an exam is very laborious and time- consuming. We had to spare time to do other things to prepare for Microsoft DP-203 Exam, which delayed a lot of important things.

## Microsoft Data Engineering on Microsoft Azure Sample Questions (Q47-Q52):

NEW QUESTION # 47
You are designing an Azure Data Lake Storage Gen2 structure for telemetry data from 25 million devices distributed across seven key geographical regions. Each minute, the devices will send a JSON payload of metrics to Azure Event Hubs.
You need to recommend a folder structure for the dat
a. The solution must meet the following requirements:
Data engineers from each region must be able to build their own pipelines for the data of their respective region only.
The data must be processed at least once every 15 minutes for inclusion in Azure Synapse Analytics serverless SQL pools.
How should you recommend completing the structure? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.
NOTE: Each correct selection is worth one point.

Values

{deviceID}
{mm}/{HH}/{DD}/{MM}/{YYYY}
{regionID}/{deviceID}
{regionID}/raw
{YYYY}/{MM}/{DD}/{HH}
{YYYY}/{MM}/{DD}/{HH}/{mm}
raw/{deviceID}
raw/{regionID}

Answer Area

/ [Value] / [Value] / [Value] .json

Answer:

Explanation:

Values

{deviceID}
{mm}/{HH}/{DD}/{MM}/{YYYY}
{regionID}/{deviceID}
{regionID}/raw
{YYYY}/{MM}/{DD}/{HH}
{YYYY}/{MM}/{DD}/{HH}/{mm}
raw/{deviceID}
raw/{regionID}

Answer Area

/ {mm}/{HH}/{DD}/{MM}/{YYYY} / {regionID}/{deviceID} / {YYYY}/{MM}/{DD}/{HH} .json

NEW QUESTION # 48
You have an Azure subscription that contains an Azure Synapse Analytics dedicated SQL pool. You plan to deploy a solution that will analyze sales data and include the following:
* A table named Country that will contain 195 rows
* A table named Sales that will contain 100 million rows
* A query to identify total sales by country and customer from the past 30 days You need to create the tables. The solution must maximize query performance.
How should you complete the script? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer Area

```
CREATE TABLE [dbo].[Sales]
(
        [OrderDate]       date        NOT NULL
,       [CustomerId] int NOT NULL
,       [CountryId] int NOT NULL
,       [Total] money NOT NULL
)
WITH
(
        DISTRIBUTION =   [ HASH([CustomerId])          ▼ ]
                          HASH([CustomerId])
        CLUSTERED COLUMN  HASH([OrderDate])
)                         REPLICATE
CREATE TABLE [dbo].[Country]  ROUND_ROBIN
,
```

Answer:

Explanation:

Answer Area

```
CREATE TABLE [dbo].[Sales]
(
    [OrderDate]      date         NOT NULL
,   [CustomerId] int NOT NULL
,   [CountryId] int NOT NULL
,   [Total] money NOT NULL
)
WITH
(
    DISTRIBUTION = | HASH([CustomerId]) ▼ |
                   | HASH([CustomerId])  |
    CLUSTERED COLUMN| HASH([OrderDate])  |
                    | REPLICATE          |
)               | ROUND_ROBIN        |
CREATE TABLE [dbo].[Country]
,
```

NEW QUESTION # 49

A company uses the Azure Data Lake Storage Gen2 service.

You need to design a data archiving solution that meets the following requirements:

Data that is older than five years is accessed infrequency but must be available within one second when requested.

Data that is older than seven years in NOT accessed.

Costs must be minimized while maintaining the required availability.

How should you manage the data? To answer, select the appropriate option in he answers area.

NOTE: Each correct selection is worth one point.

Answer Area

Data over five years old: | ▼ |
Delete the blob.
Move to archive storage.
Move to cool storage.
Move to hot storage.

Data over seven years old: | ▼ |
Delete the blob.
Move to archive storage.
Move to cool storage.
Move to hot storage.

Answer:

Explanation:

Answer Area

Data over five years old: | ▼ |
Delete the blob.
Move to archive storage.
Move to cool storage.
Move to hot storage.

Data over seven years old: | ▼ |
Delete the blob.
Move to archive storage.
Move to cool storage.
Move to hot storage.

Explanation:

Answer Area

Data over five years old: [Move to cool storage. ▼]
- Delete the blob.
- Move to archive storage.
- **Move to cool storage.**
- Move to hot storage.

Data over seven years old: [Move to archive storage. ▼]
- Delete the blob.
- **Move to archive storage.**
- Move to cool storage.
- Move to hot storage.

NEW QUESTION # 50

You have an Azure Synapse Analytics dedicated SQL pool.

You need to monitor the database for long-running queries and identify which queries are waiting on resources Which dynamic management view should you use for each requirement? To answer, select the appropriate options in the answer area.

NOTE; Each correct answer is worth one point.

Answer Area

Monitor the database for long-running queries: [sys.dm_pdw_exec_requests ▼]
- **sys.dm_pdw_exec_requests**
- sys.dm_pdw_sql_requests
- sys.dm_pdw_exec_sessions

Identify which queries are waiting on resources: [sys.dm_pdw_lock_waits ▼]
- sys.dm_pdw_waits
- **sys.dm_pdw_lock_waits**
- sys.resource_governor_workload_groups

Answer:

Explanation:

Answer Area

Monitor the database for long-running queries: [sys.dm_pdw_exec_requests ▼]
- **sys.dm_pdw_exec_requests**
- sys.dm_pdw_sql_requests
- sys.dm_pdw_exec_sessions

Identify which queries are waiting on resources: [sys.dm_pdw_lock_waits ▼]
- sys.dm_pdw_waits
- **sys.dm_pdw_lock_waits**
- sys.resource_governor_workload_groups

Explanation:

Answer Area

Monitor the database for long-running queries: [sys.dm_pdw_exec_requests ▼]

Identify which queries are waiting on resources: [sys.dm_pdw_lock_waits ▼]

NEW QUESTION # 51

You have an Azure Active Directory (Azure AD) tenant that contains a security group named Group1. You have an Azure Synapse Analytics dedicated SQL pool named dw1 that contains a schema named schema1.

You need to grant Group1 read-only permissions to all the tables and views in schema1. The solution must use the principle of least

privilege.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

NOTE: More than one order of answer choices is correct. You will receive credit for any of the correct orders you select.

Answer:

Explanation:

Explanation:

Step 1: Create a database role named Role1 and grant Role1 SELECT permissions to schema You need to grant Group1 read-only permissions to all the tables and views in schema1.

Place one or more database users into a database role and then assign permissions to the database role.

Step 2: Assign Rol1 to the Group database user

Step 3: Assign the Azure role-based access control (Azure RBAC) Reader role for dw1 to Group1 Reference:

NEW QUESTION # 52

......

Over the past few years, we have gathered hundreds of industry experts, defeated countless difficulties, and finally formed a complete learning product - DP-203 Test Answers, which are tailor-made for students who want to obtain Microsoft certificates. Our customer service is available 24 hours a day. You can contact us by email or online at any time. In addition, all customer information for purchasing Data Engineering on Microsoft Azure test torrent will be kept strictly confidential. We will not disclose your privacy to any third party, nor will it be used for profit.

DP-203 Test Questions: https://www.dumpstorrent.com/DP-203-exam-dumps-torrent.html

To be recognized as the leading international exam bank in the world through our excellent performance, our DP-203 Test Questions - Data Engineering on Microsoft Azure qualification test are being concentrated on for a long time and have accumulated mass resources and experience in designing study materials.There is considerable skilled and motivated stuff to help you obtain the DP-203 Test Questions - Data Engineering on Microsoft Azure exam certificate, Microsoft DP-203 Online Version Using the product of Test Inside will not only help you pass the exam but also secure a bright future for you ahead.

Navigation controls, such as next page and previous page buttons, might reside Pdf DP-203 Version at the bottom of all pages in digital media publication, However, if you are seeking a job, then this certification is surely the best choice for you.

Free PDF 2025 Microsoft DP-203 Useful Online Version

To be recognized as the leading international exam bank in the DP-203 world through our excellent performance, our Data Engineering on Microsoft Azure qualification test are being concentrated on for a long timeand have accumulated mass resources and experience in designing DP-203 Test Questions study materials.There is considerable skilled and motivated stuff to help you obtain the Data Engineering on Microsoft Azure exam certificate.

Using the product of Test Inside will not only help you pass the exam but also secure a bright future for you ahead, On the one hand, it is convenient for you to read the dump files of our DP-203 study materials.

If you do well, maybe you will get a better DP-203 Online Version job and higher salary, It is a good chance to test your current revision conditions.
