You may face many choices of attending the certificate exams and there are a variety of certificates for you to get. You want to get the most practical and useful certificate which can reflect your ability in some area. If you choose to attend the test C-TS414-2023 certification buying our C-TS414-2023 exam guide can help you pass the test and get the valuable certificate. Our company has invested a lot of personnel, technology and capitals on our products and is always committed to provide the top-ranking C-TS414-2023 Study Material to the clients and serve for the client wholeheartedly.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Quality Management Sample Questions (Q79-Q84):

NEW QUESTION # 79

What do the selection and evaluation of audit monitoring display? Note : 2 correct answer

- **A. Audit component according to different criteria**
- B. Detailed audit valuation
- **C. Tabular Overview lists of audit components**
- D. The QM-STI(Quality Management- Statistic Interface)report

Answer: A,C

NEW QUESTION # 80

You use a status profile in the quality info record in procurement, under which circumstances does the system create an inspection lot of the next supplier relationship during gr processing?

- A. When the vendor attains an A in the vendor Evolution
- B. When the usage decision for the previous inspection lot was rej
- C. When there is an open inspection lot for the current supplier relationship status
- **D. When the UD for the previous inspection lot was accepted**

Answer: D

NEW QUESTION # 81

A quality info record is released for the purchase of a material from a supplier. In what ways can you restrict the release? Note: There are 2 correct answers to this question.

- **A. To a quantity, by entering a release quantity**
- B. Until the supplier quality score is better than a threshold, by entering the minimum threshold
- **C. Until the supplier has provided a quality certificate, by entering a certificate type**
- D. To a period of time, by supplying a release date

Answer: A,C

Explanation:

The quality info record: Procurement (transaction QI01/QI02) manages supplier-material relationships and can impose release restrictions:

* To a Quantity, by Entering a Release Quantity (A): In the quality info record, you can set a "Release Quantity" field to limit the approved purchase quantity (e.g., 100 units). Once exceeded, further approval is needed, a standard feature.

* Until the Supplier Has Provided a Quality Certificate, by Entering a Certificate Type (B): You can specify a certificate type (e.g., "ISO 9001") in the "Certificate" field, blocking release until the supplier provides it, verified during goods receipt.

* To a Period of Time, by Supplying a Release Date (C): While validity dates exist, they define the record's lifespan, not a specific release restriction mechanism.

* Until the Supplier Quality Score is Better Than a Threshold (D): Quality scores influence supplier evaluation but aren't directly set as a release condition in the info record.

Thus, "A" and "B" are the correct answers, reflecting standard SAP QM functionality. References: SAP Help Portal - "Quality Info Record: Procurement"; SAP S/4HANA QM User Guide - "Supplier Release".

NEW QUESTION # 82

Your business requirements demand production triggers.

Which of the following events in production can create an inspection lot(3 Correct Ans)

- A. ATP check
- B. Goods Movement
- C. Order Release
- D. Dead line monitoring /batch monitoring
- E. Order Creation

Answer: B,C,D

NEW QUESTION # 83

Which task list type is used for inspection lots with inspection lot origin 03 Production? Note: There are 2 correct answers to this question.

- A. Routing
- B. Inspection plan
- C. Equipment task list
- D. Master recipe

Answer: A,B

Explanation:

Inspection lots with origin 03 (Production) in SAP QM are triggered during production processes (e.g., order release or goods receipt). The task list types used are:

* Routing (B): In production (PP), routings (transaction CA01) define operations and can include QM- relevant operations with inspection characteristics. For inspection lot origin 03, the system uses routings when QM is integrated with PP, especially for in-process inspections.

* Inspection Plan (D): The inspection plan (transaction QP01) is the primary QM task list for origin 03, defining detailed inspection steps (e.g., characteristics, sampling) for production-related lots, such as goods receipt from production.

* Master Recipe (A): Used in Process Industries (PP-PI) for recipes (transaction C201), not standard for discrete manufacturing origin 03 lots.

* Equipment Task List (C): Relevant for Plant Maintenance (PM), not production QM lots.

Thus, "Routing" and "Inspection plan" are the correct answers for origin 03. References: SAP Help Portal - "Inspection Lot Origin 03"; SAP S/4HANA QM Customizing Guide - "Inspection Lot Creation".

NEW QUESTION # 84

.....

In some companies, the certificate of the exam is directly linked with the wages and the position in your company. Our C-TS414-2023 exam cram will offer you the short way to get the certificate. With the most eminent professionals in the field to compile and examine the C-TS414-2023 Test Dumps, they have a high quality. Purchasing the C-TS414-2023 exam cram of us guarantees the pass rate, and if you can't pass, money back is guaranteed.
