Free PDF 1z0-1057-24 - Oracle Project Management Cloud 2024 Implementation Professional –Professional Dumps Torrent

Our 1z0-1057-24 test material can help you focus and learn effectively. You don't have to worry about not having a dedicated time to learn every day. You can learn our 1z0-1057-24 exam torrent in a piecemeal time, and you don't have to worry about the tedious and cumbersome learning content. We will simplify the complex concepts by adding diagrams and examples during your study. By choosing our 1z0-1057-24 test material, you will be able to use time more effectively than others and have the content of important information in the shortest time. And you can pass the 1z0-1057-24 exam easily and successfully.

Oracle Project Management Cloud 2024 Implementation Professional Sample

Questions (Q46-Q51):

NEW QUESTION # 46

Your organization has a requirement to create and apply a new theme for the application user interface. Which option allows you to achieve this requirement?

- A. User Interface Text
- **B. Appearance Page**
- C. Setup and Maintenance Work Area
- D. Structure Page

Answer: B

Explanation:

The option that allows you to achieve this requirement is Appearance Page. This page allows you to create and apply a new theme for the application user interface by selecting various options such as colors, fonts, logos, etc. You can also preview and publish your theme changes using this page. Structure Page is not an option that allows you to achieve this requirement. This page allows you to customize the structure and layout of the application user interface by adding or removing components such as regions, tabs, fields, etc. Setup and Maintenance Work Area is not an option that allows you to achieve this requirement. This work area allows you to perform various setup tasks for implementing and configuring Oracle Fusion applications using predefined templates and spreadsheets. User Interface Text is not an option that allows you to achieve this requirement. This option allows you to customize the text and labels of the application user interface by editing or translating them using various tools such as Text Editor or Translation Workbench.

NEW QUESTION # 47

Which component provides a human workflow service that handles all interactions with users or groups in business processes?

- A. SOA Suite
- B. Subledger Accounting
- **C. BPM Worklist**
- D. Security Console

Answer: C

Explanation:

The BPM Worklist component provides a human workflow service that handles all interactions with users or groups in business processes. The BPM Worklist allows users to view, act on, track, and administer workflow tasks that require their attention. Users can also delegate, escalate, or reassign tasks to other users or groups as needed.

NEW QUESTION # 48

Your customer has implemented Oracle Project Portfolio Management Cloud recently and they have hired new employees for their Professions Services business. These employees are set up in Oracle Human Capital Management Cloud, but the Project Administrators are unable to add them as resources in the Planning Resource Breakdown Structure.

What are three conditions for new employees to show up in the list? (Choose three.)

- A. All new employees created as persons must have an active project role.
- B. All new employees created as persons must have an active supervisor.
- **C. All new employees created as persons must be assigned to a department.**
- **D. All new employees created as persons must have an active assignment.**
- **E. Current date is before the effective date of the resource, and you did not enable the "Include people with future-dated effective start dates" option during the search.**

Answer: C,D,E

Explanation:

Refhttps://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfin/project-foundation-configuration-define-project-resource-breakdown-structures.html#OAPFM180158_2 Why can't I find persons in the list of resources when I enter team members, planning resources, or person rate schedules?

You can't find persons in the list of resources when you enter team members, planning resources, or person rate schedules in the following situations:

- * The administrator didn't assign a department while creating users. Persons must have an active assignment and be assigned to a department in Oracle Fusion Human Capital Management before they can be added as team members or entered as resources on the planning resource breakdown structure or person rate schedule.
- * The resource isn't active in Oracle Fusion Human Capital Management because the current date is before the effective date of the resource. If you want to include persons who will start in the future, select the Include people with future-dated effective start dates option when you search for the person.
- * Persons assigned as project managers aren't active as of the project start date.
- * The assignment of the person is terminated, and an appropriate value isn't set for the number of days to display people with terminated assignments. You can set the profile value appropriately at the site profile level using the Specify Number of Days to Display People with Terminated Assignments task in the Setup and Maintenance work area.

NEW QUESTION # 49

Which four standard objects can you configure to include business specific attributes by using Application Composer for Project Execution Management? (Choose four.)

- A. Project Deliverables
- B. Project Issues
- C. Project Resource Request
- D. Project Milestones
- E. Project Gates
- F. Project Resource Assignment

Answer: A,B,D,E

Explanation:

Application Composer is a tool that allows you to configure standard objects or create custom objects to include business specific attributes for Project Execution Management. Four of the standard objects that you can configure using Application Composer are:

- * Project Gates: These are checkpoints that mark the completion of a phase or stage in a project lifecycle.
- * Project Issues: These are problems or risks that affect the progress or outcome of a project.
- * Project Milestones: These are significant events or achievements that indicate the status or completion of a project or task.
- * Project Deliverables: These are products or services that are produced or provided as part of a project or task. Project Resource Request and Project Resource Assignment are not standard objects that you can configure using Application Composer. These are features that allow you to request and assign resources for projects and tasks based on various criteria such as availability, qualifications, preferences, etc. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfin/manage-project-execution.html#OAPFM2356201>

NEW QUESTION # 50

Which three Cost Collection Flexfield core attributes can be derived during import if not explicitly entered in a transaction document? (Choose three.)

- A. Funding Source
- B. Billable Flag
- C. Expenditure Type
- D. Capitalizable Flag
- E. Work Type

Answer: B,C,D

Explanation:

The Cost Collection Flexfield is a descriptive flexfield that captures additional information about project costs. It has three core attributes that are required for every cost transaction: Billable Flag, Expenditure Type, and Capitalizable Flag. These attributes can be derived during import if not explicitly entered in a transaction document, based on various rules and sources such as expenditure type defaults, project type defaults, transaction source defaults, etc. Funding Source and Work Type are not core attributes of the Cost Collection Flexfield, but context-sensitive segments that can be optionally enabled for certain transaction sources or business units.

These segments capture additional information about how the costs are funded or what type of work is performed.
