# Dumps CWNP CWAP-404 Download & CWAP-404 Valid Practice Questions

P.S. Free 2025 CWNP CWAP-404 dumps are available on Google Drive shared by PrepAwayExam: https://drive.google.com/open?id=18QW0oDhZvb07AY5h1lNWYu_EeGz_FRZk

We know that tenet from the bottom of our heart, so all parts of service are made due to your interests. You are entitled to have full money back if you fail the exam even after getting our CWAP-404 test prep. Our staff will help you with genial attitude. We esteem your variant choices so all these versions of CWAP-404 Study Materials are made for your individual preference and inclination.

CWAP-404 preparation materials will be the good helper for your qualification certification. We are concentrating on providing high-quality authorized CWAP-404 study guide all over the world so that you can clear exam one time. CWAP-404 reliable exam bootcamp materials contain three formats: PDF version, Soft test engine and APP test engine so that our products are enough to satisfy different candidates' habits and cover nearly full questions & answers of the real CWAP-404 test.

How Can PrepAwayExam CWNP CWAP-404 Practice Test be Helpful in Exam Preparation?

Everybody hopes he or she is a successful man or woman no matter in his or her social life or in his or her career. Thus owning an authorized and significant CWAP-404 certificate is very important for them because it proves that he or she boosts practical abilities and profound knowledge in some certain area. Passing CWAP-404 Certification can help they be successful and if you are one of them please buy our CWAP-404 guide torrent because they can help you pass the CWAP-404 exam easily and successfully.

CWNP Certified Wireless Analysis Professional Sample Questions (Q155-Q160):

NEW QUESTION # 155
What is encrypted within the fourth frame of the 4-Way Handshake?

- A. PMK
- B. PTK
- C. GTK
- D. GMK

Answer: C

Explanation:
The GTK (Group Temporal Key) is encrypted within the third message of the 4-Way Handshake.
The 4-Way Handshake is a process that establishes a secure connection between a STA (station) and an AP (access point) using WPA2 (Wi-Fi Protected Access 2), which is a security protocol that uses AES- CCMP (Advanced Encryption Standard-Counter Mode CBC-MAC Protocol) as its encryption algorithm. The 4-Way Handshake consists of four messages that are exchanged between the STA and the AP. The first message is sent by the AP to the STA, containing the ANonce (Authenticator Nonce), which is a random number generated by the AP.
The second message is sent by the STA to the AP, containing the SNonce (Supplicant Nonce), which is a random number generated by the STA, and the MIC (Message Integrity Code), which is a value that verifies the integrity of the message. The third message is sent by the AP to the STA, containing the GTK, which is a key that is used to encrypt and decrypt multicast and broadcast data frames, and the MIC. The GTK is encrypted with the KEK (Key Encryption Key), which is derived from the PTK (Pairwise Temporal Key). The PTK is a key that is used to encrypt and decrypt unicast data frames, and it is derived from the PMK (Pairwise Master Key), the ANonce, and the SNonce. The fourth message is sent by the STA to the AP, containing only the MIC, to confirm the completion of the 4-Way Handshake. The other options are not correct, as they are not encrypted within the third message of the 4-Way Handshake. The PMK is a key that is derived from a passphrase or obtained from an authentication server, and it is not transmitted in any message of the 4-Way Handshake. The PTK is a key that is derived from the PMK, the ANonce, and the SNonce, and it is not transmitted in any message of the 4-Way Handshake. The GMK (Group Master Key) is a key that is generated by the AP and used to derive the GTK, and it is not transmitted in any message of the 4-Way Handshake.

NEW QUESTION # 156
Which common feature of a Spectrum Analyzer would be the best to help you locate a non-802.11 interference source?

- A. Max hold
- B. Min hold
- C. Location filter
- D. Device finder

Answer: D

Explanation:
Explanation
The device finder is a common feature of a spectrum analyzer that helps locate a non-802.11 interference source. The device finder uses a directional antenna to measure the signal strength of a specific frequency or signal source. By pointing the antenna in different directions, the device finder can indicate the direction and distance of the interference source. The device finder can also filter out other signals that are not related to the interference source. The other options are not correct, as they do not help locate a non-802.11 interference source. Max hold and min hold are features that show the maximum and minimum RF power levels over time, respectively. Location filter is a feature that filters out signals that are not from a specific location or area. References: [Wireless Analysis Professional Study Guide CWAP-404], Chapter 3: Spectrum Analysis, page 77-78

NEW QUESTION # 157
How is the length of an AIFS is calculated?

- A. SIFS + AIFS * Time Unit
- B. AIFSN * Slot Time + SIFS
- C. SIFS * Slot Time + AIFSN

- D. DIFS + SIFS + AIFSN

Answer: B

Explanation:
The length of an AIFS (Arbitration Interframe Space) is calculated by multiplying the AIFSN (Arbitration Interframe Space Number) by the Slot Time and adding the SIFS (Short Interframe Space). An AIFS is a variable interframe space introduced by 802.11e to help prioritize medium access for different Access Categories (ACs). An AC is a logical queue that corresponds to a QoS (Quality of Service) level for different types of traffic. Each AC has a different AIFSN value, which determines how long it has to wait before attempting to access the medium. A lower AIFSN value means a higher priority and a shorter waiting time. The Slot Time is a fixed value that depends on the PHY type and channel width. The SIFS is the shortest interframe space that is used for high-priority transmissions, such as ACKs or CTSs. The formula for calculating the AIFS length is: AIFS = AIFSN * Slot Time + SIFS.

NEW QUESTION # 158
Which one of the following statements is not true concerning DTIMs?

- A. Every Beacon frame must contain a DTIM
- B. DTIM stands for Delivery Traffic Indication Map
- C. The DTIM interval can dictate when an STA will wake up to listen to beacon frames
- D. Buffered Broadcast and Multicast traffic will be transmitted following a DTIM

Answer: A

Explanation:
Explanation
Every Beacon frame must contain a DTIM is not a true statement concerning DTIMs. DTIM stands for Delivery Traffic Indication Message, and it is a subfield within the TIM (Traffic Indication Map) element in a Beacon frame. The DTIM indicates how many Beacon frames (including the current one) will appear before the next DTIM. For example, if the DTIM interval is set to 3, it means that every third Beacon frame will contain a DTIM. Buffered broadcast and multicast traffic will be transmitted following a DTIM, so that STAs in power save mode can wake up and receive them. The DTIM interval can also dictate when an STA will wake up to listen to Beacon frames, as some STAs may choose to only listen to Beacon frames that contain a DTIM . References: CWAP-404 Certified Wireless Analysis Professional Study and Reference Guide, Chapter 6: MAC Sublayer Frame Exchanges, page 200; CWAP-404 CertifiedWireless Analysis Professional Study and Reference Guide, Chapter 6: MAC Sublayer Frame Exchanges, page 201.

NEW QUESTION # 159
You are analyzing a problem with a specific client adapter.
The vendor specifications sheet does not provide detailed information.
What tool can you use to provide the most detailed specification information in many such cases?

- A. WLAN controller
- B. FCC ID Search
- C. Spectrum analyzer
- D. Wi-Fi finder

Answer: B

NEW QUESTION # 160
......

Owing to the industrious dedication of our experts and other working staff, our CWAP-404 study materials grow to be more mature and are able to fight against any difficulties. Our CWAP-404 preparation exam have achieved high pass rate in the industry, and we always maintain a 99% pass rate with our endless efforts. We have to admit that behind such a starling figure, there embrace mass investments from our company on our CWAP-404 learning quiz. But it is all worth that as the high pass rate can make sure our customers pass the exam by the best percentage.

CWAP-404 Valid Practice Questions: https://www.prepawayexam.com/CWNP/braindumps.CWAP-404.ete.file.html

CWNP Dumps CWAP-404 Download After my explanation, I bet you will understand the core, As we all know, CWAP-404 certification is one of the most recognized certification in the IT industry, When you are preparing for CWAP-404 exam, it is necessary to learn test related knowledge, We guarantee to the clients if only they buy our study materials and learn patiently for some time they will be sure to pass the CWAP-404 test with few failure odds, CWNP Dumps CWAP-404 Download Considering that, it is no doubt that an appropriate certification would help candidates achieve higher salaries and get promotion.

NX-OS Supported Platforms, Thanks to the programming built CWAP-404 into the Furby plush toys, as well as the app, the toy is capable of learning and evolving as it's played with.

After my explanation, I bet you will understand the core, As we all know, CWAP-404 Certification is one of the most recognized certification in the IT industry.

2026 CWNP Reliable CWAP-404: Dumps Certified Wireless Analysis Professional Download

When you are preparing for CWAP-404 exam, it is necessary to learn test related knowledge, We guarantee to the clients if only they buy our study materials and learn patiently for some time they will be sure to pass the CWAP-404 test with few failure odds.

Considering that, it is no doubt that an appropriate CWAP-404 Reliable Test Prep certification would help candidates achieve higher salaries and get promotion.
