Please believe that our PDFBraindumps team have the same will that we are eager to help you pass FCP_ZCS_AD-7.4 exam. Maybe you are still worrying about how to prepare for the exam, but now we will help you gain confidence. By constantly improving our dumps, our strong technical team can finally take proud to tell you that our FCP_ZCS_AD-7.4 exam materials will give you unexpected surprises. You can download our free demo to try, and see which version of FCP_ZCS_AD-7.4 Exam Materials are most suitable for you; then you can enjoy your improvement in IT skills that our products bring to you; and the sense of achievement from passing the FCP_ZCS_AD-7.4 certification exam.

Fortinet FCP_ZCS_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	VPN Solutions in Azure: This section of the exam measures skills of a Network Security Engineer and addresses secure connectivity between Azure and on-premises environments. Candidates will review the different site-to-site VPN options available in Azure, configure tunnels between FortiGate devices and Azure VPN gateways, and understand how Azure Virtual WAN enhances global connectivity.
Topic 2	Fortinet Product Deployment: This section of the exam measures skills of a Network Security Engineer and covers the implementation of Fortinet products within Azure environments. The topics include deploying individual FortiWeb and FortiGate instances, integrating FortiGate with Azure's software-defined networking, and applying best practices for secure and efficient deployments of Fortinet solutions in the cloud.
Topic 3	Azure Route Server Use Cases: This section of the exam measures skills of a Cloud Engineer and explores real-world applications of the Azure Route Server. It includes identifying scenarios where Route Server is used to streamline routing operations, support hybrid connectivity, and improve manageability in complex network topologies.

Our experts check whether there is an update on the FCP - Azure Cloud Security 7.4 Administrator exam questions every day, if an update system is sent to the customer automatically. If you have any question about our FCP_ZCS_AD-7.4 Test Guide, you can email or contact us online.

Fortinet FCP - Azure Cloud Security 7.4 Administrator Sample Questions (Q64-Q69):

NEW QUESTION # 64

What critical step is involved when integrating FortiGate with Azure SDN?

Response:

- A. Configuring security policies
- B. Implementing a VPN gateway
- C. Configuring VLAN attachments
- D. Setting up direct peering

Answer: A

NEW QUESTION # 65

Which load balancing method should be used in Azure to ensure optimal distribution of traffic across multiple servers?

Response:

- A. Round Robin
- B. Least Connections
- C. Geographic
- D. IP Hash

Answer: B

NEW QUESTION # 66

A Linux server was deployed in a protected subnet with a dynamic IP address. A FortiGate VM in the internal subnet provides traffic filtering to it, and you must implement a firewall policy using the IP address of the Linux server.

Which feature could help integrate FortiGate using Linux server tags?

- A. Software-defined network (SDN) connector
- B. Targets Management
- C. Microsoft Entra ID
- D. Service Fabric Cluster

Answer: A

Explanation:

The Software-defined network (SDN) connector allows FortiGate to dynamically pull metadata such as tags, IP addresses, and resource groups from Azure resources. This enables automatic policy updates based on dynamic IP changes, such as those of a Linux server in a protected subnet.

NEW QUESTION # 67

In the context of Azure Route Server, what is a primary function of the route server subnet?

- A. Hosting virtual machines for routing propagation purposes
- B. Acting as a dedicated subnet to host network virtual appliances (NVAs) with routing propagation capabilities
- C. Providing DNS resolution for on-premises networks
- **D. Serving as the hub for the exchange of routing information**

Answer: D

Explanation:

The route server subnet in Azure is a dedicated subnet that hosts the Azure Route Server, which functions as the hub for dynamic routing information exchange between Azure virtual networks and BGP-enabled network virtual appliances (NVAs) or on-premises routers. It enables seamless and centralized route propagation.

NEW QUESTION # 68

Refer to the exhibits.

FGT connector settings

Azure Connector

Server region: Global

Use managed identity: ☐

Directory ID: 60b93279-efda-45f5-9c1d-e7f999c

Application ID: e7ac2b2f-25b1-4e66-96b4-9dbc90e

Client secret: [REDACTED] This field is required.

Resource path: ☒

Subscription ID: 9a359c2e-e035-4d1e-ba17-0b600cb2

Resource group: SxLab ☒

Application registration key

Client secrets

A secret string that the application uses to prove its identity when requesting a token. Also can be referred to as application password.

+ New client secret

Description	Expires	Value	ID
FortGateKey	12/31/2299	application secret	

You are configuring an SDN connector for Azure on a FortiGate device. You completed all the required steps on the Azure side. While configuring the FortiGate side, you notice that you did not save the client secret used in the Azure App Registration. What is the quickest way to obtain the value of the client secret?

- A. Create a new app registration
- B. Create a new external connector for Azure
- **C. Create a new client secret**
- D. Create a new resource group

Answer: C

Explanation:

Azure does not allow you to view an existing client secret's value after creation for security reasons. If you did not save the client secret when it was first generated, the quickest and only option is to create a new client secret under the existing app registration and use the new value in your FortiGate configuration.

NEW QUESTION # 69

.....

You will have the chance to renew your knowledge while getting trustworthy proof of your expertise with the Fortinet FCP_ZCS_AD-7.4 exam. After passing the Fortinet FCP_ZCS_AD-7.4 certification exam, you can take advantage of a number of extra benefits. The Fortinet FCP_ZCS_AD-7.4 Certification test, however, is a valuable and difficult credential. But with the correct concentration, commitment, and FCP_ZCS_AD-7.4 exam preparation, you could ace this test with ease.
