

Dumps MS-721 Download & Interactive MS-721 Course

What's more, part of that Actual4Labs MS-721 dumps now are free: <https://drive.google.com/open?id=1XKxu9DTzVTCsq9MtzAPEyJRN190AtZ>

Many candidates like APP test engine of MS-721 exam braindumps because it seem very powerful. If you are interested in this version, you can purchase it. This version provides only the questions and answers of MS-721 exam braindumps but also some functions easy to practice and master. It can be used on any electronic products if only it can open the browser such as Mobile Phone, Ipad and others. If you always have some fear for the real test or can't control the time to finish your test, APP test engine of Microsoft MS-721 Exam Braindumps can set timed test and simulate the real test scene for your practice.

The MS-721 exam is an updated version of the previous Microsoft Certified Solutions Expert (MCSE) certification exam. The updated exam is designed to cover the latest trends and technologies in the field of collaboration and communication systems engineering. MS-721 exam includes a wide range of topics, including designing and implementing collaboration and communication solutions, configuring and managing collaboration and communication systems, and troubleshooting collaboration and communication systems.

The MS-721 exam is currently in beta testing, which means that it is still being refined and modified before it is officially released. However, taking the beta exam provides candidates with the opportunity to gain early access to the certification and demonstrate their knowledge and skills in collaboration and communication systems.

Microsoft MS-721 (Collaboration Communications Systems Engineer (beta)) Exam is a certification exam offered by Microsoft that tests the candidate's knowledge and skills in designing and implementing collaboration and communication solutions using Microsoft

technologies. MS-721 exam is targeted towards professionals who are responsible for designing, deploying, and managing communication and collaboration solutions for their organizations.

Interactive MS-721 Course & Latest MS-721 Dumps Pdf

Three versions of MS-721 study materials will be offered by us. Each one has its own advantage, you can pick the proper one for yourself. We also have free demo for you, you can have a look at and decide which version you want to choose. We also have the live chat service and the live off chat service to answer all questions you have. If you failed to pass the exam, money back will be guaranteed, if you have another exam to attend, we will replace another MS-721 Study Materials for you freely.

Microsoft Collaboration Communications Systems Engineer Sample Questions (Q67-Q72):

NEW QUESTION # 67

Once Direct Routing is deployed, you need to prepare the environment to support a remote SBA in the Vancouver facility. The solution must meet the technical requirements.

Which three actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- **A. Register an application in Azure Active Directory (Azure AD).**
- B. Enable ForwardPAI on the online voice gateway.
- **C. Configure the SBC for media bypass.**
- D. Configure the SBC for call forking.
- **E. Run the New-CsTeMsSurvivableBranchAppliance Cmdlet.**
- F. Enroll the SBA server in Microsoft Intune.

Answer: A,C,E

Explanation:

Topic 1, Contoso

Overview

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.

General Overview

The network contains an Active Directory forest named contoso.com that syncs to Microsoft 365 by using Azure AD Connect. Domain controllers run Windows Server 2019.

Physical Locations

Contoso has offices in Toronto, New York, and London. Contoso has a manufacturing facility in Vancouver.

Contoso has a global sales team that works remotely without a physical corporate office.

Active Directory Environment

The network contains an Active Directory forest named contoso.com that syncs to Microsoft 365 by using Azure AD Connect.

Domain controllers Windows Server 2019.

Microsoft Office 365

Contoso has a Microsoft 365 subscription. All users are assigned Microsoft 365 F3 licenses. Contoso uses Microsoft Exchange Online for email.

Network Infrastructure

All the offices connect to each other by using a private WAN. The Toronto office has a 1 -Gbps internet circuit and the London office has a 100-Mbps internet circuit. Internet access for all the offices is provided through the Toronto and London offices.

The remote sales team users connect to the network by using VPN connections. The remote users use various connection types, including wireless and mobile.

Skype for Business Server traffic for the remote users is routed through the VPN connections.

Telephony

Contoso uses a centralized Skype for Business Server 2015 deployment configured for disaster recovery between the Toronto and London datacenters.

Each frontend pool connects to the PSTN through a pair of managed Session Border Controllers (SBCs) that provide Enterprise Voice and dial-in conferencing.

Contoso has a Skype for Business Server Survivable Branch Appliance (SBA) and a local SBC that connect to a Primary Rate Interface (PRI) in the Vancouver manufacturing facility.

Contoso has hybrid connectivity deployed between Skype for Business Server and Office 365.

All SBCs are Microsoft Teams-certified.

The returns department has an auto attendant that uses an ID of returns3a@contoso.com.

Planned Changes

Contoso plans to migrate all existing services from Skype for Business Server to Teams.

Direct Routing will be deployed for the existing SBCs.

Existing meeting rooms have Skype for Business Server video endpoints that are Skype for Business Server-certified. The endpoints are not Teams-certified.

You plan to use the video endpoints in Teams until the equipment is replaced with Microsoft Teams Rooms.

A limited pilot of the Teams migration and the Direct Routing deployment will occur in the Vancouver facility before deployment to the entire company.

Technical Requirements

Contoso identifies the following technical requirements:

- * During the limited pilot, the media path must be optimized.

- Media flow/ for the remote sales team users must be optimized.

Contoso identifies the following technical requirements:

- * During the limited pilot, the media path must be optimized.

- * Media flow/ for the remote sales team users must be optimized.

- * All sales team users require inbound toll free audio conferencing-

- * Users in the Vancouver facility must be able to place emergency calls regardless of internet availability.

- * When users in the returns department dial out, the outbound calls must display Contoso and the department's phone number.

- * The video endpoints for the existing meeting rooms must be able to be used for both voice and video conferencing in Teams meetings. All sales team users require inbound toll free audio conferencing-

- * Users in the Vancouver facility must be able to place emergency calls regardless of internet availability.

- * When users in the returns department dial out, the outbound calls must display Contoso and the department's phone number.

- * The video endpoints for the existing meeting rooms must be able to be used for both voice and video conferencing in Teams meetings.

NEW QUESTION # 68

You have Microsoft Teams Phone handsets.

You need to receive an alert when a handset of an executive goes offline.

What should you do in the Microsoft Team admin center?

- A. Register the handsets by using remote provisioning.
- **B. Modify the device state rule.**
- C. Create a configuration profile for IP phones.
- D. Create a Teams app setup policy and assign the policy to all executives.

Answer: B

Explanation:

<https://docs.microsoft.com/en-us/microsoftteams/alerts/device-health-status>

NEW QUESTION # 69

You have a Microsoft Teams Phone deployment.

When you attempt to deploy a Session Border Controller (SBC) named sbc1.xontoso.com, you receive the following error message: "We can't use the "SBC1-Contoso.com" domain as it hasn't been set up in the organization. Try again. If you continue to have problems, contact Microsoft customer support." You need to add the SBC to the tenant.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

The screenshot shows a list of actions on the left and an answer area on the right. The actions are:

- From the Microsoft 365 admin center, add a licensed user that has a UPN to the contoso.com domain.
- From the Microsoft Teams admin center, enable external access for the contoso.com domain.
- From the Microsoft Teams admin center, add the SBC as sbc1.contoso.onmicrosoft.com.
- From the Microsoft 365 admin center, validate the contoso.com domain.
- From the Microsoft Teams admin center, add the SBC as sbc1.contoso.com.

The answer area is empty, with a Microsoft logo and a watermark 'actual4labs.com'.

Answer:

Explanation:

Answer Area

The screenshot shows the answer area with three actions:

- From the Microsoft Teams admin center, add the SBC as sbc1.contoso.onmicrosoft.com.
- From the Microsoft 365 admin center, add a licensed user that has a UPN to the contoso.com domain.
- From the Microsoft Teams admin center, add the SBC as sbc1.contoso.com.

- 1 - From the Microsoft Teams admin center, add the SBC as sbc1.contoso.onmicrosoft.com.
- 2 - From the Microsoft 365 admin center, add a licensed user that has a UPN to the contoso.com domain.
- 3 - From the Microsoft Teams admin center, add the SBC as sbc1.contoso.com.

NEW QUESTION # 70

Your company has offices in Seattle.

You deploy Microsoft Teams Phone. You have three Session Border Controller (SBCs) named SBC1, SBC2, and SBC3.

You need to configure voice routing to meet the following requirements:

All calls to area codes 425 and 206 must attempt to go to SBC1, and if SBC1 is unavailable, fail over to SBC2.

All other calls to the United States and Canada must go out through SBC2.

International calls must go out through SBC2 or SBC3.

How should you complete the PowerShell script? To answer, drag the appropriate values to the correct targets. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

The screenshot shows a PowerShell script configuration interface with two panes: Values and Answer Area.

Values:

- 'sbc1.contoso.com'
- 'sbc2.contoso.com'
- 'sbc3.contoso.com'
- 'sbc1.contoso.com', 'sbc2.contoso.com'
- 'sbc2.contoso.com', 'sbc3.contoso.com'
- 'sbc1.contoso.com', 'sbc3.contoso.com'

Answer Area:

```
New-CsOnlineVoiceRoute -Identity 'Redmond' -NumberPattern '^\\+1(425|206)(\\d{7})$' -OnlinePstnGatewayList [ ]
```

```
New-CsOnlineVoiceRoute -Identity 'US and Canada' -NumberPattern '^\\+1(\\d{10})$' -OnlinePstnGatewayList [ ]
```

```
New-CsOnlineVoiceRoute -Identity 'All other calls' -NumberPattern '^\\+(?!1)\\d+' -OnlinePstnGatewayList [ ]
```

Answer:

Explanation:

Values	Answer Area
'sbc1.contoso.com'	<code>New-CsOnlineVoiceRoute -Identity 'Redmond' -NumberPattern '^\\+1(425 206)(\\d{7})\$'</code>
'sbc2.contoso.com'	<code>-OnlinePstnGatewayList 'sbc1.contoso.com', 'sbc2.contoso.com'</code>
'sbc3.contoso.com'	<code>New-CsOnlineVoiceRoute -Identity 'US and Canada' -NumberPattern '^\\+1(\\d{10})\$'</code>
'sbc1.contoso.com', 'sbc2.contoso.com'	<code>-OnlinePstnGatewayList 'sbc2.contoso.com'</code>
'sbc2.contoso.com', 'sbc3.contoso.com'	<code>New-CsOnlineVoiceRoute -Identity 'All other calls' -NumberPattern '^\\+((?!1)\\d+)'</code>
'sbc1.contoso.com', 'sbc3.contoso.com'	<code>-OnlinePstnGatewayList 'sbc2.contoso.com', 'sbc3.contoso.com'</code>

NEW QUESTION # 71

You need to connect the analog intercoms to Teams Phone.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Enable Direct Routing to a Teams-certified SBC.
- B. Create a resource account for each intercom.
- C. Create a trusted application endpoint for Teams.
- D. Create a configuration profile for IP phones.
- E. Register the ATAs with a Teams-certified SBC.

Answer: A,E

Explanation:

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/direct-routing-analog-devices> This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

NEW QUESTION # 72

.....

Actual4Labs have made customizable Microsoft MS-721 practice tests so that users can take unlimited tests and improve Microsoft MS-721 exam preparation day by day. These MS-721 practice tests are based on the real examination scenario so the students can feel the pressure and learn to deal with it. The customers can access the result of their previous given MS-721 Exam history and try not to make any excessive mistakes in the future.
