Salesforce Certified B2C Commerce Architect Sample Questions (Q47-Q52):

NEW QUESTION # 47

A developer wants to import the data on different instances.

Which two types of data should the developer consider importing?

Choose 2 answers

- A. Catalog
- B. Services
- C. Customers
- D. Metadata
- E. Sites configurations

Answer: D,E

NEW QUESTION # 48

The Client is creating a new Storefront and their requirements include:

* ApplePay support

* Log in through a standard OAuth2 social media account

* One Click checkout process

* A/B testing for promotions

Which two items require technical documentation for customizing the Storefront Reference Architecture?

Choose 2 answers

- A. A/B testing for promotions
- B. Log in through a standard OAuth2 social media account
- C. One Click checkout process
- D. ApplePay support

Answer: B,C

Explanation:

For customizing the Storefront Reference Architecture to meet specific requirements, the following items would require detailed technical documentation:

* Option A (One Click checkout process): Implementing a one-click checkout process involves significant customization to streamline the checkout flow, potentially requiring integration with payment providers and modifications to the user session management.

* Option C (Log in through a standard OAuth2 social media account): Integrating OAuth2 for social media logins involves handling authentication tokens, user sessions, and potentially syncing user data with the B2C Commerce profiles, all of which require detailed security and integration documentation.

These customizations require careful planning and implementation to ensure they work seamlessly with existing Storefront Reference Architecture components and meet security standards.

NEW QUESTION # 49

The Client wants to offer custom made container products on its new B2C Commerce storefront. The Client provided two business requirements.

* Customer can specify container length, width, and height.

* Customer can specify the material that the container is made of.

The Client also provided the Architect a current data schema (shown below) for reference while preparing the technical documentation.

Which two gaps between the requirements and the data schema should the Architect discuss with the Client?

Choose 2 answers

- A. The data schema includes an implied structure that the customer's choices should be captured as custom objects, but there isn't a business requirement to do so
- B. The data schema includes a material Price_Markup field, but there isn't a business requirement to factor the material cost into the final price calculation.
- C. The data schema includes unique identifiers for material and color fields, but neither are reflected in the business

requirements.

- D. The data schema includes a Color_ID field, but there isn't a business requirement to allow the customer to specify container color.

Answer: B,D

NEW QUESTION # 50

The following promotions are configured with no exclusivity (can be combined with any other promotion) in a - 1 month campaign:

- * Free correct- in -store shipping
- * 20% accessories products discount, applies for all customers
- * \$5 off coupon based discount, sent to a selected group of customers

The combination of above promotions allows customers to get 16 socks for free in store. This was unintended, and the Client If considering disabling the coupon. The Client is concerned about a potential spike in the number of Call Center calls from customers who had the coupon code added to their baskets before it was disabled. As basket lifetime is set to 30 days for all customers, this can continue for the full length of the campaign.

What solutions should the Architect suggest to keep the Call Center calls to a minimum?

- A. Disable the coupon code. Restart the production instance from control Center to clear existing baskets.
- B. Disable the coupon code. Email all the customers to not use the coupon code in their baskets.
- C. Disable the coupon code. Reduce the basket lifetime in Business Manager to expire some of the existing baskets
- D. Disable the coupon code. Clear the production cache from the Business Manager to clear existing baskets.

Answer: C

Explanation:

Reducing the basket lifetime is a strategic approach to minimizing the impact of disabling a promotional coupon. This action will cause baskets that may still contain the now-disabled coupon to expire sooner, thereby reducing the potential volume of calls to the Call Center from customers inquiring about the coupon.

This method also avoids the drastic measure of clearing all existing baskets or restarting the production instance, which could disrupt user experience and lead to further customer dissatisfaction.

NEW QUESTION # 51

The developer has been given the following business requirement:

The shipping method, "Free Standard Ground Shipping" has an exclusion for products with 'category equals or is child of electronics-televisions.' The marketing department has scheduled a sale offering a "Free Standard Ground Shipping" method for brand XyzTV televisions for the next 3 months.

What method accomplishes this while following best practices'

- A. Extend the code in cartridge/models/shipping/shippingMethod.js using module.superModule and add an exception for the specified brand.
- B. Create a new shipping method and label it "Free Standard Ground Shipping". Give it the qualifier 'brand equals XyzTV', and add it to the checkout options.
- C. Extend the CheckoutShippingServices controller using module.superModule and add an exception for the specified brand.
- D. Create an allow list for the existing shipping method by adding a product exclusion for 'brand equals XyzTV' to the exclusion list for "Free Standard Ground Shipping."

Answer: C

NEW QUESTION # 52

.....

If you buy online classes, you will need to sit in front of your computer on time at the required time; if you participate in offline counseling, you may need to take an hour or two of a bus to attend class. So even if you are a newcomer, you don't need to worry that you can't understand the contents. Industry experts hired by B2C-Commerce-Architect Exam Questions also explain all of the difficult professional vocabulary through examples, forms, etc. You can completely study alone without the help of others.
