## Pass Guaranteed NCA-6.10 - Nutanix Certified Associate v6.10 –Reliable Exam Training

If you choose to sign up to participate in Nutanix certification NCA-6.10 exams, you should choose a good learning material or training course to prepare for the examination right now. Because Nutanix Certification NCA-6.10 Exam is difficult to pass. If you want to pass the exam, you must have a good preparation for the exam.

### Nutanix Certified Associate v6.10 Sample Questions (Q52-Q57):

#### NEW QUESTION # 52

What is the purpose of the OpLog?

- A. Persistent data storage
- B. Dynamic read cache
- C. Global metadata
- D. Persistent write buffer

**Answer: D**

Explanation:

The OpLog (Operational Log) in Nutanix serves as a persistent write buffer for incoming I/O operations. It temporarily stores write

requests to ensure fast acknowledgment to clients and better performance. The data is later coalesced and written to the Extent Store for long-term storage.

- \* A. Persistent write buffer: Correct, as the OpLog optimizes write performance by buffering writes temporarily.
- \* B. Persistent data storage: Incorrect, as this describes the Extent Store, not the OpLog.
- \* C. Global metadata: Incorrect, as metadata operations are handled by the Metadata Store.
- \* D. Dynamic read cache: Incorrect, as read caching is managed separately, often involving SSD-based caches.

References:

Nutanix Bible: Explanation of OpLog and Extent Store.

Nutanix University: NCP Certification Study Materials.

### NEW QUESTION # 53

Which storage protocol is used by Nutanix Distributed Storage Fabric (DSF) to provide access to an ESXi hypervisor?

- A. SMB
- B. NFS
- C. iSCSI
- D. LVM

**Answer: C**

Explanation:

Nutanix Distributed Storage Fabric (DSF) provides storage access to an ESXi hypervisor using the NFS (Network File System) protocol. DSF abstracts the underlying storage hardware and exposes storage as an NFS datastore to ESXi hosts. This integration enables high performance, data protection, and scalability while simplifying storage management.

Other options:

- \* LVM: Not used in Nutanix storage.
- \* iSCSI: Used for specific use cases, not the default protocol for ESXi.
- \* SMB: Not supported for ESXi environments.

Nutanix VMware Integration Documentation.

Nutanix Storage Protocol Support Documentation.

Nutanix DSF Overview Whitepaper.

### NEW QUESTION # 54

An administrator of an AHV cluster needs to deploy a solution that will provide self-service network provisioning and overlapping IP addresses for true multi-tenant networking with VPCs.

Which product will satisfy this requirement?

- A. Nutanix Kubernetes Platform
- B. Flow Network Security
- C. Flow Virtual Networking
- D. Nutanix Database Service

**Answer: C**

Explanation:

The correct answer is D. Flow Virtual Networking (FVN).

Flow Virtual Networking (FVN) is a Nutanix solution that enables advanced network virtualization, including:

- \* VPCs (Virtual Private Clouds)
- \* Overlapping IP address spaces
- \* Self-service network provisioning
- \* Multi-tenancy support
- \* Microsegmentation

FVN abstracts physical networking and allows tenants to manage isolated logical networks, providing cloud-like networking capabilities directly integrated with AHV.

Clarifications:

- \* A. Nutanix Kubernetes Platform (NKP): Orchestrates containers; does not provide virtualized network infrastructure.
- \* B. Flow Network Security: Focuses on microsegmentation and policy enforcement, not on VPC or L3 abstraction.
- \* C. Nutanix Database Service (NDB): Manages DBaaS; not related to networking.

Official Reference:

\* Nutanix Flow Virtual Networking Tech Note

\* Nutanix Documentation Portal - Flow Virtual Networking

\* Excerpt: "Flow Virtual Networking provides VPCs, overlapping IPs, and self-service networking capabilities for secure multi-tenancy in Nutanix AHV clusters."

#### NEW QUESTION # 55

An administrator has spent time correcting specific issues that have been identified by NCC Health Checks in Prism Element. How can just the checks that previously did not pass be executed again to confirm they are all resolved?

- A. Run LCM Pre-Upgrade to trigger NCC Checks.
- B. Select Run Check for each check worked.
- C. Select Only Failed And Warning Checks.
- D. Run ncc health checks run\_all.

Answer: C

#### NEW QUESTION # 56

When using the LCM Dark Site procedure in Prism Element or Prism Central, which Nutanix software component should be checked and upgraded first?

- A. MSP
- B. Foundation
- C. NCC
- D. LCM Framework

Answer: D

#### NEW QUESTION # 57

.....

As a professional website, ExamBoosts does not only guarantee you will receive a high score in your actual test, but also provide you with the most efficiency way to get success. Our NCA-6.10 study torrent can help you enhance the knowledge and get further information about the NCA-6.10 Actual Test. During the study and preparation for NCA-6.10 actual test, you will be more confident, independent in your industry. Dear everyone, go and choose our NCA-6.10 practice dumps as your preparation material.
