

# 100% Pass 2026 Nutanix - NCA-6.10 Valid Braindumps Sheet

P.S. Free 2026 Nutanix NCA-6.10 dumps are available on Google Drive shared by Dumps4PDF: [https://drive.google.com/open?id=1Yd\\_0XsHgj66gcXcVWs5BnJH-sgpDm\\_AE](https://drive.google.com/open?id=1Yd_0XsHgj66gcXcVWs5BnJH-sgpDm_AE)

Before you can become a professional expert in Nutanix technology, you need to pass NCA-6.10 exam test. It means you should get the NCA-6.10 certification. The NCA-6.10 actual exam is challenging and passing is definitely requires a lot of hard work and effort. Dumps4PDF will provide the latest and valid NCA-6.10 test study material to you. It just needs to be taken 20-30 hours for preparation, then you can attend the actual test with confident. Besides, in case of failure, we will give you full refund. While, 100% pass is the guarantee we promise to our customers.

To other workers who want to keep up with the time and being competent in today's world, you are also looking for some effective NCA-6.10 exam prep as well. Without voluminous content to remember, our NCA-6.10 practice materials contain what you need to know and what the exam want to test, So our NCA-6.10 Real Exam far transcend others in market. We never avoid our responsibility of offering help for exam candidates like you, so choosing our NCA-6.10 training guide means you choose success.

## Latest NCA-6.10 Study Guide, NCA-6.10 Free Updates

Helping our candidates to pass the NCA-6.10 exam and achieve their dream has always been our common ideal. We believe that your satisfactory is the drive force for our company. So on one hand, we adopt a reasonable price for you, ensures people whoever is rich or poor would have the equal access to buy our useful NCA-6.10 real study dumps. On the other hand, we provide you the responsible 24/7 service. Our candidates might meet so problems during purchasing and using our NCA-6.10 Prep Guide, you can contact with us through the email, and we will give you respond and solution as quick as possible. With the commitment of helping candidates to pass NCA-6.10 exam, we have won wide approvals by our clients. We always take our candidates' benefits as the priority, so you can trust us without any hesitation.

## Nutanix Certified Associate v6.10 Sample Questions (Q47-Q52):

### NEW QUESTION # 47

An administrator of an AHV cluster needs to deploy a solution that will provide self-service network provisioning and overlapping IP addresses for true multi-tenant networking with VPCs.

Which product will satisfy this requirement?

- A. Flow Network Security
- **B. Flow Virtual Networking**
- C. Nutanix Database Service
- D. Nutanix Kubernetes Platform

**Answer: B**

Explanation:

The correct answer is D. Flow Virtual Networking (FVN).

Flow Virtual Networking (FVN) is a Nutanix solution that enables advanced network virtualization, including:

- \* VPCs (Virtual Private Clouds)
- \* Overlapping IP address spaces
- \* Self-service network provisioning
- \* Multi-tenancy support
- \* Microsegmentation

FVN abstracts physical networking and allows tenants to manage isolated logical networks, providing cloud-like networking capabilities directly integrated with AHV.

Clarifications:

- \* A. Nutanix Kubernetes Platform (NKP): Orchestrates containers; does not provide virtualized network infrastructure.
- \* B. Flow Network Security: Focuses on microsegmentation and policy enforcement, not on VPC or L3 abstraction.
- \* C. Nutanix Database Service (NDB): Manages DBaaS; not related to networking.

Official Reference:

- \* Nutanix Flow Virtual Networking Tech Note
- \* Nutanix Documentation Portal - Flow Virtual Networking
- \* Excerpt: "Flow Virtual Networking provides VPCs, overlapping IPs, and self-service networking capabilities for secure multi-tenancy in Nutanix AHV clusters."

**NEW QUESTION # 48**

An administrator needs to remove several old VM snapshots.

From which Prism Element dashboard should the administrator complete this task?

- A. Tasks
- B. Storage
- C. Settings
- **D. VM**

**Answer: D**

Explanation:

To remove old VM snapshots, the task should be completed from the VM dashboard in Prism Element. This dashboard allows administrators to manage virtual machine-related operations, including snapshot creation, deletion, and restoration. Steps include:

- \* Navigate to Prism Element > VM.
- \* Select the VM for which snapshots need to be deleted.
- \* Click on Snapshots, then delete the selected snapshots.
- :

Nutanix Prism Element Guide - VM Management.  
Nutanix Support Portal - Snapshot Management.

**NEW QUESTION # 49**

Nutanix Support has asked an administrator to provide an NCC output, but there is no access to the command line.

What should the administrator do to provide the requested NCC output?

- A. Configure email in Alert Settings and Run Health Checks in the Alert Dashboard.
- B. Run Health Checks in the Alert Dashboard and enter an email to send it to.
- **C. Configure email in Alert Settings and Run Health Checks in the Health Dashboard.**
- D. Run Health Checks in the Event Dashboard.

**Answer: C**

#### Explanation:

When command-line access is unavailable, Nutanix administrators can use the Prism UI to generate an NCC (Nutanix Cluster Check) output. The steps are:

- \* Configure the email settings in Alert Settings under the Prism UI.
- \* Navigate to the Health Dashboard, where the "Run Health Checks" option can be used.
- \* Provide the administrator's email address to send the health report, which includes NCC outputs.

This method enables the administrator to share diagnostic information with Nutanix Support directly via email.

- \* A. Run Health Checks in the Alert Dashboard and enter an email to send it to: Incorrect. Health Checks are run from the Health Dashboard, not the Alert Dashboard.
- \* B. Configure email in Alert Settings and Run Health Checks in the Health Dashboard: Correct.

This provides the requested NCC output when the command-line is inaccessible.

- \* C. Run Health Checks in the Event Dashboard: Incorrect. Health Checks are not run from the Event Dashboard.
- \* D. Configure email in Alert Settings and Run Health Checks in the Alert Dashboard: Incorrect, as this is not the correct location for Health Checks.

## NEW QUESTION # 50

When is deduplication recommended?

- A. Full clone VMs
- **B. Server workloads**
- C. Linked Clone VMs
- D. Cold data

**Answer: B**

## NEW QUESTION # 51

Which statement best describes the Storage Pool?

- **A. Group of physical disks**
- B. Group of boot drives
- C. Group of Storage Containers
- D. Group of vDisks

**Answer: A**

#### Explanation:

The correct answer is B. Group of physical disks.

In Nutanix architecture:

- \* A Storage Pool is the aggregation of physical storage devices (SSD, HDD) across all nodes in a cluster.
- \* Each storage pool backs one or more Storage Containers, which are logical partitions used for data placement.
- \* Storage pools cannot span clusters and are always confined to the cluster in which they are defined.

Clarifications:

- \* A (Storage Containers): These are logical groupings within storage pools.
- \* C (Boot Drives): These are not part of the pool.
- \* D (vDisks): These exist within VMs and are backed by containers, not pools directly.

Prism UI Navigation Path:

Storage > Storage Pools

Official Reference:

\* Nutanix Bible - Storage Pool Definition

\* Nutanix Storage Admin Guide

\* Excerpt: "A storage pool is made up of physical disks from one or more nodes and serves as the physical storage foundation for containers."

## NEW QUESTION # 52
