ASIS PSP Reliable Exam Materials - Reliable PSP Test Sample

It is exceedingly helpful in attaining a suitable job when qualified with PSP certification. It is not easy to get the PSP certification, while certified with which can greatly impact the future of the candidates. Now, please take PSP practice dumps as your study material, you will pass your exam with PSP practice materials successfully. PSP free demo is available for everyone. Our PSP

practice dumps are extremely detailed and complete in all key points which will be in the real test. Believe us and you can easily pass by our PSP practice dumps.

ASIS Physical Security Professional Exam Sample Questions (Q197-Q202):

NEW QUESTION # 197

Coverage of what provides remuneration for losses due to employee dishonesty?

- **A. Fidelity Bonds**
- B. Insurance against loss of use
- C. Surety Bonds
- D. 3-D policies

Answer: A

NEW QUESTION # 198

You are providing construction management services for a small office building project. Your duties include reviewing and approving the contractor's baseline schedule. The contractor has submitted the first baseline schedule for the project.

The contractor has included codes for each activity that identify (1) the category of work and (2) the trade/subcontract performing the work. What can this code information be used for?

- A. Display resources me contractor plans to use on each activity
- **B. Organize reports to group related work activities**
- C. Group schedule activities together based on their start dates
- D. Display detailed information regarding the sequencing of activities in the schedule

Answer: B

NEW QUESTION # 199

What changes to logic would eliminate Activity B from the critical path?

- **A. Replace the relationship from Activity A to Activity B with FFO and add an FSO relationship from Activity A to Activity C**
- B. Reduce the lag value of the relationship from Activity A to Activity B from 5 to 0
- C. Replace the relationship from Activity B to Activity C with SSO
- D. Add a SS 15 relationship from Activity A to Activity B and replace the relationship from Activity A to Activity B with FFO

Answer: A

Explanation:

To eliminate Activity B from the critical path, its dependencies must change so that its delay no longer impacts the path's completion time.

Replacing the A # B relationship with a Finish-to-Finish with Offset (FFO) and adding an FSO (Finish-to- Start with Offset) relationship from A # C allows Activity C to proceed independently of Activity B.

References: PSP Study Guide, Section 2.2.4 - Relationships and Calculations, explains how relationship types can influence critical path determination.

NEW QUESTION # 200

The BEST reason to use multiple calendars is to:

- A. allow each specialty contractor to have a unique schedule of work/non-work periods
- **B. more accurately show how the project will be built**
- C. track owner activities according to their specific calendar in order to develop a good working relationship
- D. evaluate float for the benefit of the contractor

Answer: B

Explanation:

Purpose of Multiple Calendars:

* Multiple calendars account for varied work/non-work periods among resources, regions, or activities, accurately representing project execution.

Evaluation of Other Options:

* B, C, D: These may be secondary benefits but are not the primary reason.

Verification with PSP Guidelines:

The PSP Study Guide emphasizes the importance of calendars for realistic scheduling (Ref: PSP Study Guide, Chapter 2A: Calendars and Constraints).

NEW QUESTION # 201

When resource leveling craft labor for a critical path schedule, the scheduler

- A. Can depend on the results of the resource leveling operation to reflect a useful realignment of all schedule activities without further analysis.
- **B. Must consider breaks in continuity of work for subcontractors, thereby possibly incurring additional subcontractor mobilization and demobilization costs.**
- C. Need only consider the non-union crafts persons.
- D. Need not consider its effects, as it is a theoretical concept with limited application to construction projects.

Answer: B

Explanation:

Resource Leveling:

* Resource leveling adjusts start and finish dates of activities to resolve resource conflicts or constraints, balancing availability and demand.

* In construction projects, breaks in continuity of work for subcontractors can result in increased costs due to remobilization and demobilization.

PSP Study Guide References:

* The PSP guide explains that resource leveling must be carefully analyzed to avoid disruptions in work continuity.

Conclusion: The correct answer is A, as the scheduler must account for potential cost implications of resource leveling on subcontractors.

NEW QUESTION # 202

.....
