Exam ISO-IEC-27001-Foundation Cost & Pass Leader ISO-IEC-27001-Foundation Dumps

Our products are officially certified, and our ISO-IEC-27001-Foundation exam materials are definitely the most authoritative product in the industry. In order to ensure the authority of our ISO-IEC-27001-Foundation practice prep, our company has really taken many measures. We have hired the most professioal experts to compile the content of the ISO-IEC-27001-Foundation study braindumps, and design the displays. So our ISO-IEC-27001-Foundation learning questions can stand the test of the market.

APMG-International ISO-IEC-27001-Foundation Exam Syllabus Topics:

Topic	Details
Topic 1	• Information Management (IM): Information management (IM) encompasses the entire lifecycle of information within an organization—from its collection and storage to its distribution, use, and eventual archiving or disposal.

Topic 2	• Continuous Improvement Process (CI, CIP): A continuous or continual improvement process (CIP or CI) involves ongoing, systematic efforts to enhance products, services, or operational processes to achieve higher efficiency and effectiveness over time.
Topic 3	• Security Breaches: Security breaches occur when unauthorized access or violations of security protocols are detected or imminent, potentially compromising data or system integrity.
Topic 4	• Compliance: Regulatory compliance refers to an organization's commitment to understanding and adhering to applicable laws, policies, and regulations to operate within established legal and ethical standards.
Topic 5	• Data Security: Data security refers to protecting digital information—such as that stored in databases or networks—from destruction, unauthorized access, or malicious attacks, ensuring confidentiality and integrity.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q16-Q21):

NEW QUESTION # 16
Which attribute is NOT a required focus of continual ISMS improvement?

- A. Adequacy
- B. Importance
- C. Effectiveness
- D. Suitability

Answer: B

Explanation:
Clause 10.2 (Continual Improvement) specifies that the organization must"continually improve the suitability, adequacy and effectiveness of the information security management system." This makes it clear that three attributes are explicitly required to be addressed:
* Suitability: ensuring the ISMS continues to meet organizational needs in changing contexts.
* Adequacy: ensuring the ISMS covers the necessary scope and provides sufficient control coverage.
* Effectiveness: ensuring the ISMS achieves intended outcomes in protecting information security.
The word"importance"is not part of the continual improvement requirement. Importance is implicit in prioritization of risks and actions, but it is not a required continual improvement attribute in ISO/IEC 27001.
Therefore, optionD: Importanceis the correct choice as it is not specified.
This distinction reinforces that continual improvement is not about subjective importance, but about systematic enhancement of the ISMS'ssuitability, adequacy, and effectiveness.

NEW QUESTION # 17
Which item is required to be included in an information security policy?

- A. A commitment to satisfy applicable requirements related to information security
- B. A plan for the continual improvement of the information security management system
- C. A Statement of Applicability which defines the necessary controls to be implemented
- D. A framework enabling concerns with the information security policy to be addressed

Answer: A

Explanation:
Clause 5.2 (Information security policy) requires that the policy:
* "includes information security objectives (or provides a framework for setting them)"
* "includes a commitment to satisfy applicable requirements related to information security"
* "includes a commitment to continual improvement of the ISMS."
Among the listed options, the exact mandatory requirement is"a commitment to satisfy applicable requirements related to information security". Option B partially reflects Clause 5.2 (commitment to continual improvement), but the wording given in the standard

prioritizes the satisfaction of applicable requirements (e.g., legal, regulatory, contractual). Option C is not a policy requirement. Option D (Statement of Applicability) is a separate mandatory document (Clause 6.1.3) and not part of the policy itself. Thus, the correct answer is A.

NEW QUESTION # 18
Which audit activity related to ISO/IEC 27001 may be carried out by a practitioner?

- A. Conduct an audit of an Accredited Training Organization
- B. Conduct an internal audit of the organization
- C. Conduct a surveillance audit of their own area of the organization
- D. Conduct an audit of a Certification Body

Answer: B

Explanation:
ISO/IEC 27001 requires internal audits and sets out how they must be conducted: "The organization shall conduct internal audits at planned intervals..." (9.2.1) and "plan, establish, implement and maintain an audit programme(s)... [and] select auditors and conduct audits that ensure objectivity and the impartiality of the audit process" (9.2.2). These extracts confirm that practitioners (internal to the organization) can conduct internal audits provided objectivity and impartiality are ensured (e.g., they do not audit their own work). Surveillance audits (option A) and audits of Accredited Training Organizations or Certification Bodies (options C, D) are third-party activities outside the remit of an internal practitioner under ISO/IEC 27001; the standard's audit requirement is focused on the organization's own internal audit programme. Therefore, conducting an internal audit (B) is the correct practitioner activity per Clause 9.2.

NEW QUESTION # 19
Who is required to ensure that staff are supported so that they can contribute to the information security management system?

- A. ISO/IEC 27001 practitioners within the organization
- B. Management responsible for each area of operation
- C. Auditors who audit each area of operation
- D. Top management of the organization

Answer: D

Explanation:
Clause 5.1 (Leadership and Commitment) requires that:
"Top management shall demonstrate leadership and commitment with respect to the information security management system by... ensuring that the resources needed for the ISMS are available... and supporting persons to contribute to the effectiveness of the ISMS." This makes it explicit that top management has the responsibility to ensure personnel are supported so they can contribute to the ISMS. Option B (line management) may provide local support, but ultimate accountability rests with top management. Auditors (C) only evaluate compliance, not provide support.
Practitioners (D) help implement, but they don't bear formal responsibility under the standard.
Thus, the verified answer is A: Top management of the organization.

NEW QUESTION # 20
Which is a control title within Annex A of ISO/IEC 27001?

- A. Protection of documents
- B. Responsibilities and procedures
- C. Change control
- D. Information security in supplier relationships

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:
In ISO/IEC 27002:2022, which provides control guidance for Annex A of ISO/IEC 27001, Clause 5.19 is titled: "Information security in supplier relationships." This control requires organizations to ensure that information security is addressed in supplier

agreements and relationships. It is part of theOrganizational Controls theme. The other options are not control titles in Annex A:
* "Responsibilities and procedures" (B) was used in older standards like ISO/IEC 27001:2005 but no longer exists.
* "Protection of documents" (C) relates to document control but is not a specific Annex A control.
* "Change control" (D) is relevant to ITIL/ITSM but not listed as a control title in Annex A.
Therefore, the correct Annex A control title isA: Information security in supplier relationships.

NEW QUESTION # 21
......

Our goal is to help you save both time and money by providing you with the ISO-IEC-27001-Foundation updated exam questions. Keep up the good work on preparing for the APMG-International ISO-IEC-27001-Foundation test with our actual APMG-International ISO-IEC-27001-Foundation Dumps. We are so confident that you will succeed on the first try that we will return your money according to the terms and conditions if you do not.
