JN0-460 Test Sample Questions - Test JN0-460 Prep

Many job-hunters want to gain the competition advantages in the labor market and become the hottest people which the companies rush to get. But if they want to realize that they must boost some valuable JN0-460 certificate to raise their values and positions in the labor market. our JN0-460 Study Guide is becoming increasingly obvious degree of helping the exam candidates with passing rate up to 98 to 100 percent. All details of the JN0-460 exam questions are developed to aim squarely at improving your chance of success.

Juniper JN0-460 Exam Syllabus Topics:

Topic	Details
Topic 1	• Campus Fabric Architecture: This section of the exam measures the skills of Network Design Engineers and focuses on understanding and deploying Campus Fabric Architectures. It introduces essential design concepts such as EVPN multihoming, IP Clos architecture, and micro-segmentation. The section also compares CRB and ERB models, explains scaling requirements, and highlights how the Campus Fabric Core-Distribution design supports high-performance, scalable, and secure enterprise networks.
Topic 2	• Wired Assurance Provisioning or Deployment: This section of the exam measures the skills of Network Deployment Specialists and focuses on the provisioning and deployment processes of Wired Assurance. It includes the essential steps and options involved in setting up networks, from configuration templates to deployment methodologies. Candidates learn about provisioning procedures, supported architectures, and the use of site variables to streamline automation and consistency across wired infrastructures.

Topic 3	• Campus EVPN-VXLAN: This section of the exam measures the skills of Data Center Network Engineers and explores the key principles of VXLAN and EVPN technologies. Candidates learn about Layer 2 tunneling, data and control plane operations, and the functions of VTEPs and VXLAN gateways. Additionally, it covers advanced EVPN concepts such as multipath routing, route types, and identifiers. The section concludes with a focus on MAC learning and policy applications to ensure efficient, scalable, and resilient network fabrics.
Topic 4	• Wired Assurance Management or Operations: This section of the exam measures the skills of Network Operations Engineers and focuses on the management and operational aspects of Wired Assurance. It covers switch management, port profiles, and dynamic port configuration to ensure optimal network performance. The section also explores service-level expectations, client insights, and the use of APIs for improved monitoring and automation. Candidates gain an understanding of how MistAI enables proactive management and predictive troubleshooting to maintain service quality.
Topic 5	• Wired Assurance Fundamentals: This section of the exam measures the skills of Network Support Engineers and covers the foundational elements of Wired Assurance within the MistAI ecosystem. It introduces candidates to key concepts such as supported devices, solution architecture, and the main features and components that define Wired Assurance functionality. Additionally, it highlights how MistAI accounts, analytics, and subscriptions integrate to deliver intelligent insights for network performance and operations.

Trust the Experts and Use Online Juniper JN0-460 Practice Test Engine for Your Exam Preparation

Our Mist AI Wired, Specialist (JNCIS-MistAI-Wired) (JN0-460) practice exam simulator mirrors the Mist AI Wired, Specialist (JNCIS-MistAI-Wired) (JN0-460) exam experience, so you know what to anticipate on Mist AI Wired, Specialist (JNCIS-MistAI-Wired) (JN0-460) certification exam day. Our Juniper JN0-460 Practice Test software features various question styles and levels, so you can customize your Juniper JN0-460 exam questions preparation to meet your needs.

Juniper Mist AI Wired, Specialist (JNCIS-MistAI-Wired) Sample Questions (Q44-Q49):

NEW QUESTION # 44
Which two features are included with the wired assurance subscription? (Choose two.)

- A. Wired Service Level Expectations
- B. Switch Templates
- C. Marvis Actions
- D. vBLE engagement

Answer: A,B

NEW QUESTION # 45
In a Juniper Mist campus fabric deployment using EVPN-VXLAN, which component performs the VXLAN encapsulation and de-encapsulation functions?

- A. GBP tag
- B. EVPN route reflector
- C. VLAN
- D. VTEP

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:
InEVPN-VXLANarchitectures, theVXLAN Tunnel Endpoint (VTEP)is the logical interface responsible for encapsulating and de-encapsulating Layer 2 Ethernet frames into VXLAN packets.
Each participating switch - typically the access or distribution node - hosts aVTEPthat maps local VLANs to VXLAN Network Identifiers (VNIs).
When a packet leaves a local VLAN, the VTEP encapsulates it in a VXLAN header and routes it through the underlay IP fabric.
When received at the destination VTEP, the frame is de-encapsulated and delivered to the appropriate local VLAN.
"VTEPs in an EVPN-VXLAN campus fabric perform MAC-to-VNI mapping and encapsulate/decapsulate traffic between virtualized network segments, allowing seamless Layer 2 and Layer 3 connectivity across an IP underlay." References:
Juniper Mist AI for Wired - Campus Fabric EVPN-VXLAN Overview

Junos OS EVPN and VXLAN Configuration Guide

NEW QUESTION # 46
You are asked to deploy a5-stage IP Clos campus fabricusingclaim codesfor all of the switches.
Whichtwo statementsare correct about this process?(Choose two.)

- A. The switches must be assigned to the site where you plan to deploy the campus fabric.
- B. The switches must be online when you begin the Campus Fabric wizard.
- C. The switches do not need to be assigned to the site where you plan to deploy the campus fabric.
- D. The switches do not need to be online when you begin the Campus Fabric wizard.

Answer: A,B

Explanation:
Duringcampus fabric deploymentin Mist AI, switches are onboarded usingclaim codesand must beassigned to the correct siteandonlineso that Mist can push configurations and validate connectivity.
"All switches to be included in a campus fabric must be claimed, online, and assigned to the target site before launching the Campus Fabric wizard. Mist Cloud automatically discovers their roles and builds the topology." Option A:Incorrect - switches must be site-assigned before fabric creation.
Option B:Correct- switches must beonlineto receive configurations from Mist.
Option C:Incorrect - offline devices cannot be configured or validated in the fabric wizard.
Option D:Correct- switches must beassigned to the correct sitefor topology creation.

NEW QUESTION # 47
Which component performsVXLAN encapsulation and de-encapsulation?

- A. root bridge
- B. WXLAN policy
- C. VLAN
- D. VTEP

Answer: D

Explanation:
In anEVPN-VXLANarchitecture, theVXLAN Tunnel Endpoint (VTEP)is responsible for encapsulating and de-encapsulating Layer 2 Ethernet frames into VXLAN packets that traverse the IP underlay.
"Each device participating in a VXLAN overlay operates as a VXLAN Tunnel Endpoint (VTEP). The VTEP encapsulates Ethernet frames into VXLAN headers for transmission and de-encapsulates VXLAN packets back into Ethernet frames upon receipt."
Option A:Incorrect - VLAN is a Layer 2 construct, not responsible for encapsulation.
Option B:Correct- VTEP handles VXLAN encapsulation and de-encapsulation.
Option C:Incorrect - root bridge pertains to STP, not VXLAN.
Option D:Incorrect - WXLAN policy is not a valid networking term in Juniper documentation.
References:
Juniper Mist AI for Wired - EVPN-VXLAN Overview

NEW QUESTION # 48
What is meant when a Marvis Action is shown as "AI Validated"?

- A. Marvis has observed an issue that is no longer present.
- B. Marvis has observed a new issue.
- C. The issue which triggered an alert has been set to Resolved status.
- D. Marvis has observed a recurring issue.

Answer: A

Explanation:
When Marvis Actions display "AI Validated," it indicates the issue was detected earlier but is now resolved.
Marvis automatically validates remediation and marks the action closed once the anomaly clears.

NEW QUESTION # 49
......

The pass rate is 98% for JN0-460 exam materials, you can pass you exam by using JN0-460 exam materials, otherwise we will give you refund. In addition, JN0-460 learning materials have both quality and the quantity, and they will be enough for you to pass the exam. You can obtain the download link and password for JN0-460 Exam Braindumps within ten minutes, so that you can begin your preparation as early as possible. We have online and offline service, and if you have any questions for JN0-460 exam materials, you can consult us, and we will give you reply as soon as possible.
