It is very important for company to design the SAFe-Practitioner exam prep suitable for all people. However, our company has achieved the goal. We can promise that the SAFe-Practitioner test questions from our company will be suitable all people. There are many functions about our study materials beyond your imagination. You can purchase our SAFe-Practitioner reference guide according to your own tastes. We believe that the understanding of our SAFe-Practitioner study materials will be very easy for you.

Scrum SAFe-Practitioner (SAFe 5 Practitioner (SP)) Exam is a certification that demonstrates an individual's expertise in implementing and leading Agile teams using the Scaled Agile Framework (SAFe). SAFe is a framework designed to help organizations scale Agile practices to the enterprise level. The SAFe 5 Practitioner certification is an advanced-level certification that signifies an individual's ability to apply SAFe principles and practices to lead Agile teams and deliver successful outcomes.

The SAFe 5 Practitioner (SP) Exam is an essential certification for professionals who want to demonstrate their expertise in the agile and scrum methodologies of the SAFe framework. It is a rigorous and comprehensive assessment that covers a wide range of topics, and is recognized globally as a mark of excellence in the field. If you are a professional working in an agile environment, then the SAFe 5 Practitioner (SP) Exam is definitely worth considering.

Scrum SAFe Practitioner Exam (6.0) Sample Questions (Q55-Q60):

NEW QUESTION # 55

The Agile Manifesto favors Customer Collaboration over _____

- A. No Collaboration
- **B. Contract Negotiation**
- C. Technical Collaboration
- D. Developer Collaboration

Answer: B

NEW QUESTION # 56

What is one purpose of the System Demo?

- **A. To demonstrate new functionality**
- B. To identify PI Objectives
- C. To introduce new architectural designs
- D. To evaluate the full PI

Answer: A

Explanation:

The System Demo is a significant event that provides an integrated view of new features for the most recent iteration delivered by all the teams in the Agile Release Train (ART). Each demo gives ART stakeholders an objective measure of progress during a Program Increment (PI) and the opportunity to give feedback on the solution. The System Demo is the one real measure of value, velocity, and progress of the fully integrated work across all the teams. The purpose of the System Demo is to demonstrate new functionality, not to evaluate the full PI, introduce new architectural designs, or identify PI Objectives. Those activities are done in other events, such as the Inspect and Adapt, the Architectural Runway, and the PI Planning. References: System Demo, System Demo - Scaled Agile Framework, Why System Demo Considered A Significant Event In SAFe? - Learnow, System Demo - Scaled Agile Framework.

NEW QUESTION # 57

In the context of BDD, behavior is often first described in general terms, which can be ambiguous, that is why specific examples that can directly become tests should be used.

- A. FALSE
- **B. TRUE**

Answer: B

NEW QUESTION # 58

What is one issue when organizing around functional silos?

- A. Operational activities are not included
- **B. They impede how value flows**
- C. They do not provide development opportunities for employees
- D. Corporate responsibilities are not a focus

Answer: B

Explanation:

One issue when organizing around functional silos is that they impede how value flows from concept to delivery. Functional silos create barriers and delays between different teams and departments, which can result in waste, rework, handoffs, and misalignment. To achieve business agility, enterprises need to organize around value streams, which are the primary constructs for understanding, organizing, and delivering value in SAFe. Value streams are long-lived series of steps that deliver value to the customer or end user. By organizing around value streams, enterprises can optimize the flow of value across functional boundaries, reduce lead time, and increase customer satisfaction. NEW QUESTION # 59

What is at the roof of the House of Lean?

- A. Innovation
- B. Relentless Improvement
- **C. Value**
- D. Leadership

Answer: C

NEW QUESTION # 60
