Practice 1Z0-1114-25 Test Online - 1Z0-1114-25 Valid Test Labs

Our company has authoritative experts and experienced team in related industry. To give the customer the best service, all of our 1Z0-1114-25 exam dump is designed by experienced experts from various field, so our 1Z0-1114-25 Learning materials will help to better absorb the test sites. One of the great advantages of buying our product is that can help you master the core knowledge in the shortest time. At the same time, our 1Z0-1114-25 exam dumps discard the most traditional rote memorization methods and impart the key points of the qualifying exam in a way that best suits the user's learning interests, this is the highest level of experience that our most authoritative think tank brings to our 1Z0-1114-25 Study Guide users. Believe that there is such a powerful expert help, our users will be able to successfully pass the qualification test to obtain the qualification certificate.

Oracle 1Z0-1114-25 Exam Syllabus Topics:

Topic	Details

Topic 1	• The Redwood Experience: This section of the exam measures the skills of UX Designers and Application Developers in understanding the need for a modern applications platform. It explains the building blocks of Oracle's Redwood design system, focusing on its role in delivering a consistent and intuitive user experience across applications.
Topic 2	• Configuring Oracle Fusion Cloud Extensions with Visual Builder Studio: This section evaluates the expertise of Fusion Application Developers and Cloud Extension Specialists in using Oracle Visual Builder Studio (VBS) as a development platform for creating and modifying Oracle SaaS applications. It covers extending existing SaaS pages, creating new Redwood pages or apps for SaaS data, and building mashup applications that integrate SaaS and external data sources.
Topic 3	• Developing Fusion Apps with Visual Builder Studio: This section tests the knowledge of Fusion App Developers and Development Operations Engineers in leveraging Visual Builder Studio features. It includes configuring service connections, managing code with Git repositories, handling branches and merge requests, and managing builds, pipelines, and deployments to streamline application development workflows.
Topic 4	• Designing and Developing Redwood Applications: This section measures the skills of Redwood Application Developers and Product Designers in designing and developing applications using Redwood patterns, templates, and components. It focuses on utilizing Redwood page templates, exploring specifications through the Redwood Reference Application, and building applications that align with Oracle's Redwood design system.

Oracle Redwood Application 2025 Developer Associate Sample Questions (Q28-Q33):

NEW QUESTION # 28
In which three cases would you need a Visual Builder service instance to deploy your app to? (Choose three.)

- A. For gaining access to an external database through a REST service requiring basic auth
- B. For enabling the app to be integrated into the Fusion Cloud Apps menu
- C. When there is an application that is accessible from a vanity URL (custom domain)
- D. When the app needs to be accessed by users who do not have Fusion Apps access
- E. For gaining access to Oracle Fusion Apps REST services

Answer: A,C,D

Explanation:
Full Detailed in Depth Explanatio n:
A Visual Builder (VB) service instance is a stand-alone runtime environment separate from Fusion Apps. Option A is correct because external users without Fusion access require a VB instance to host the app. Option B is valid as VB instances support REST integrations with external databases using basic authentication. Option C is accurate because vanity URLs are supported by VB instances for custom domains. Option D is incorrect because Fusion Apps REST services are typically accessed via AppUI extensions within Fusion, not a separate VB instance. Option E is wrong as integration into Fusion menus relies on AppUI extensions, not a stand-alone VB instance.

NEW QUESTION # 29
Dave deployed an AppUI extension to an instance by mistake. How can he fix this?

- A. The extension cannot be deleted once deployed
- B. The extension can be undeployed in the Visual Builder Studio's Environment tab
- C. The extension can be redeployed by opening a service request
- D. The extension will be removed in the next quarterly update of Fusion Cloud Apps

Answer: B

Explanation:

Full Detailed in Depth Explanatio n:
In Visual Builder Studio, if an AppUI extension is deployed to a Fusion Apps instance by mistake, it can be undeployed using the Environment tab in VBS. This tab allows developers to manage deployments, including removing or rolling back extensions from specific instances (e.g., TEST or PROD). Option A is incorrect because quarterly updates don't automatically remove extensions-they're controlled by the developer. Option C is wrong as redeployment via a service request isn't the standard process; VBS provides self-service tools. Option D is false because VBS supports undeployment, making extensions reversible.

NEW QUESTION # 30
Jim has been working on some changes in a workspace but the project manager wants Tammy to continue the work Jim did. How can they achieve this?

- A. Jim can change ownership of the existing workspace
- B. Tammy can create a new workspace based on Jim's workspace
- C. Jim needs to first commit and push his changes to the central Git branch for Tammy to create a new workspace

Answer: C

Explanation:
Full Detailed in Depth Explanatio n:
In VBS, collaboration via Git is standard. Jim must commit and push changes (A) for Tammy to pull them into her workspace. Ownership transfer (B) isn't supported, and C isn't a feature.

NEW QUESTION # 31
Which business areas can benefit from Oracle Fusion Cloud Extensions with Visual Builder?

- A. None, as it is purely for entertainment purposes
- B. All business areas, regardless of their needs
- C. Only the IT department
- D. Any business area with specific application requirements

Answer: D

Explanation:
Full Detailed in Depth Explanatio n:
Fusion Cloud Extensions benefit areas with specific needs (D), not entertainment (A), all areas indiscriminately (B), or just IT (C).

NEW QUESTION # 32
The Redwood template your page is based on has a primary action button. How do you control what it does?

- A. Create an onAction action chain on that button
- B. Remove the existing button from the template and add your own
- C. Create an action chain mapped to the template's primary action event, at the template level
- D. You cannot. The functionality is determined by the original template

Answer: A

Explanation:
Full Detailed in Depth Explanatio n:
In VBS/Redwood, you control a button's behavior by attaching an onAction action chain (B). Templates aren't immutable (A), removal (C) is overkill, and D is less precise.

NEW QUESTION # 33
......

FreeCram have a huge senior IT expert team. They use their professional IT knowledge and rich experience to develop a wide range of different training plans which can help you pass Oracle certification 1Z0-1114-25 exam successfully. In FreeCram you can

always find out the most suitable training way for you to pass the exam easily. No matter you choose which kind of the training method, FreeCram will provide you a free one-year update service. FreeCram's information resources are very wide and also very accurate. When selecting FreeCram, passing Oracle Certification 1Z0-1114-25 Exam is much more simple for you.
