

FCP_GCS_AD-7.6 Valid Test Sample | Fresh FCP_GCS_AD-7.6 Dumps

P.S. Free & New FCP_GCS_AD-7.6 dumps are available on Google Drive shared by Lead2Passed:
https://drive.google.com/open?id=1MkcBXDQ0dWJz8cgICIF3zb_ZzoXBuTD4

The pass rate is 98% for FCP_GCS_AD-7.6 exam bootcamp, and if you choose us, we can ensure you that you can pass the exam and obtain the certification successfully. In addition, FCP_GCS_AD-7.6 exam materials are edited by professional experts, therefore they are high-quality, and you can improve your efficiency by using FCP_GCS_AD-7.6 Exam braindumps of us. We offer you free demo to have a try before buying FCP_GCS_AD-7.6 training materials, so that you can know what the complete version is like. We have online and offline chat service for FCP_GCS_AD-7.6 training materials, and if you have any questions, you can consult us.

Our FCP_GCS_AD-7.6 learning materials are carefully compiled by industry experts based on the examination questions and industry trends. You don't have to worry about our learning from FCP_GCS_AD-7.6 exam question. We assure you that our FCP_GCS_AD-7.6 learning materials are easy to understand and use the fewest questions to convey the most important information. As long as you follow the steps of our FCP_GCS_AD-7.6 Quiz torrent, your mastery of knowledge will be very comprehensive and you will be very familiar with the knowledge points. This will help you pass the exam more smoothly.

Prepare with updated Fortinet FCP_GCS_AD-7.6 dumps - Get up to 1 year of free updates

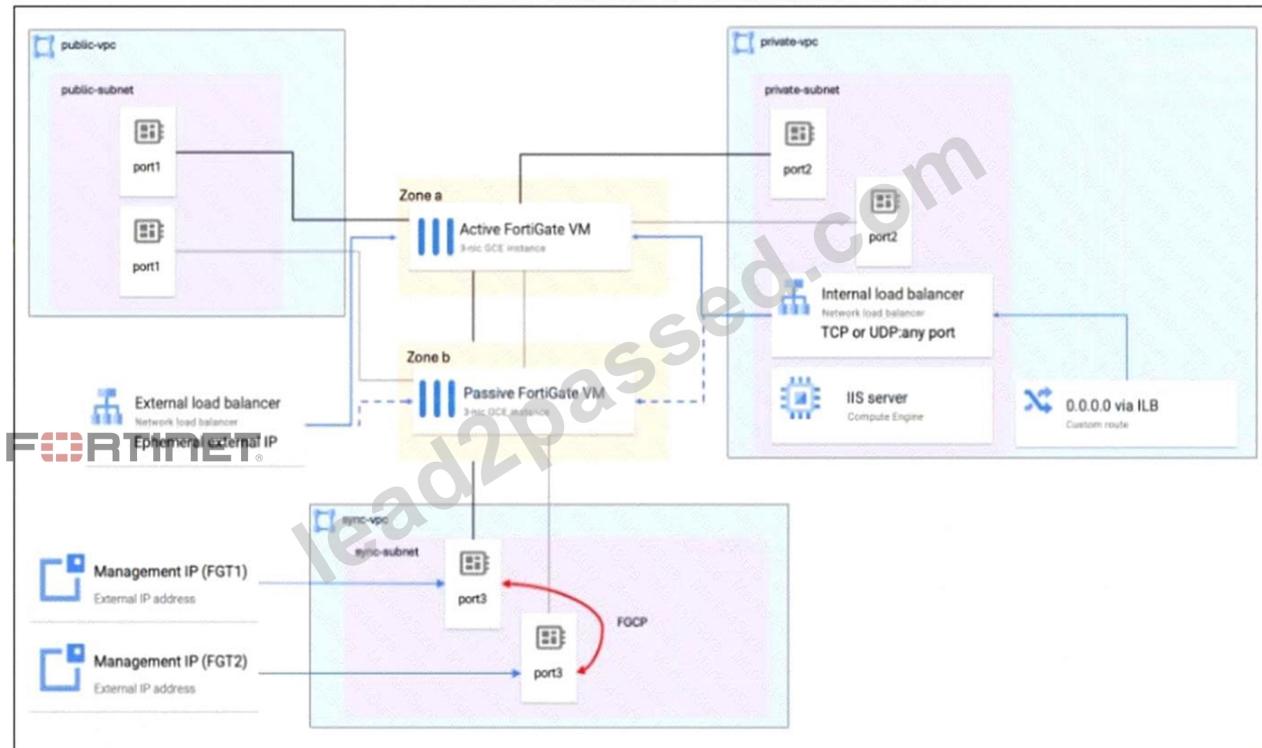

You may be taken up with all kind of affairs, and sometimes you have to put down something and deal with the other matters for the latter is more urgent and need to be done immediately. With the help of our FCP_GCS_AD-7.6 training guide, your dream won't be delayed anymore. Because, we have the merits of intelligent application and high-effectiveness to help our clients study more leisurely. If you prepare with our FCP_GCS_AD-7.6 Actual Exam for 20 to 30 hours, the FCP_GCS_AD-7.6 exam will become a piece of cake in front of you.

Fortinet FCP - Google Cloud Security 7.6 Administrator Sample Questions (Q31-Q36):

NEW QUESTION # 31

Refer to the exhibit.

Active-passive HA environment

Which three things happen during a failover in which the passive FortiGate VM becomes the master cluster member in an active-passive high-availability (HA) environment? (Choose three.)

- A. The health check status will indicate that the old active cluster member is unhealthy.
- B. The health check for the passthrough load balancers forces internal traffic to route to port2 of the new active cluster member.
- C. The Management IP address moves from port3 of the current active member to port3 of the new active cluster member.
- D. The custom route is updated using API calls to forward all traffic to port2 of the new active cluster member device.
- E. The health check ensures that incoming traffic to the ephemeral external IP address of the load balancer is forwarded to the new active cluster member.

Answer: A,D,E

Explanation:

The load balancer health check detects the failure of the old active member and forwards traffic to the new active member.

The health check reflects the status change, marking the previous active as unhealthy.

API calls update custom routes to redirect traffic to the new active cluster member's internal interface (port2).

NEW QUESTION # 32

Refer to the exhibit.

Google Cloud Fabric Connector

```

FortiGate-VM64-GCP # gcp: add GCP Lab
gcpd sdn connector GCP Lab prepare to update
gcpd get token
gcpd metadata url: http://169.254.169.254/computeMetadata/v1/instance/service-accounts/default/token
gcpd metadata result:200
Token expires in: 3599 seconds
gcpd metadata url: http://169.254.169.254/computeMetadata/v1/project/project-id
gcpd metadata result:200
gcpd got project id from metadata: fcp-fcss-course-development
gcpd sdn connector GCP Lab start updating
gcpd sdn connector GCP Lab got empty project list, trying sdn update from metadata project: fcp-fcss-course-development
gcpd sdn connector GCP Lab get instance list successfully
gcpd didn't find any GKE cluster for project fcp-fcss-course-development
gcpd sdn connector GCP Lab list GKE cluster failed
GCP Lab got 3 addresses
gcpd sdn connector GCP Lab start updating IP addresses
gcpd sdn connector GCP Lab finish updating IP addresses
  
```

An administrator configured GoogleCloud as an external fabric connector on FortiGate.

Which conclusion can you draw from the output?

- A. The external fabric connector is misconfigured.
- B. The external fabric connector is unable to find a valid Google Cloud project.
- C. The external fabric connector shows that an administrator created three dynamic firewall addresses.
- D. **The external fabric connector found multiple IP addresses assigned to Google Cloud instances.**

Answer: D

Explanation:

The output shows the connector successfully retrieved project information and instance IP addresses (GCP Lab got 3 addresses), indicating it found multiple IPs assigned to Google Cloud instances.

NEW QUESTION # 33

Refer to the exhibit.

The screenshot shows the VM Configuration interface for a FortiGate-1 VM. The top navigation bar includes 'VM Configuration', a back arrow, the VM name 'fortigate-1', and buttons for 'EDIT', 'RESET', and 'CREATE MACHINE IMAGE'. Below the navigation is a tab bar with 'DETAILS' (selected), 'OBSERVABILITY', 'OS INFO', and 'SCREENSHOT'. The main content area is titled 'Machine configuration' and lists the following details:

Machine type	n2-standard-4
CPU platform	Intel Cascade Lake
Minimum CPU platform	None
Architecture	—
vCPUs to core ratio	—
Custom visible cores	—
All-core turbo-only mode	—
Display device	Disabled

An organization has four virtual private cloud networks and deployed a FortiGate to protect the VPCs.

FortiGate is configured with four network interfaces and each network interface is assigned one of the four VPCs.

The organization is expanding and plans to add two more VPCs.

Which two options can the organization use to support the two new VPCs? (Choose two.)

- A. Modifying the FortiGate configuration to add two more network interfaces
- B. Deleting FortiGate and replacing it with a Google Cloud machine type that supports six network interfaces
- C. **Adding a second FortiGate and configuring both FortiGate devices as an active-active high-availability cluster.**
- D. **Utilizing VPC peering**

Answer: C,D

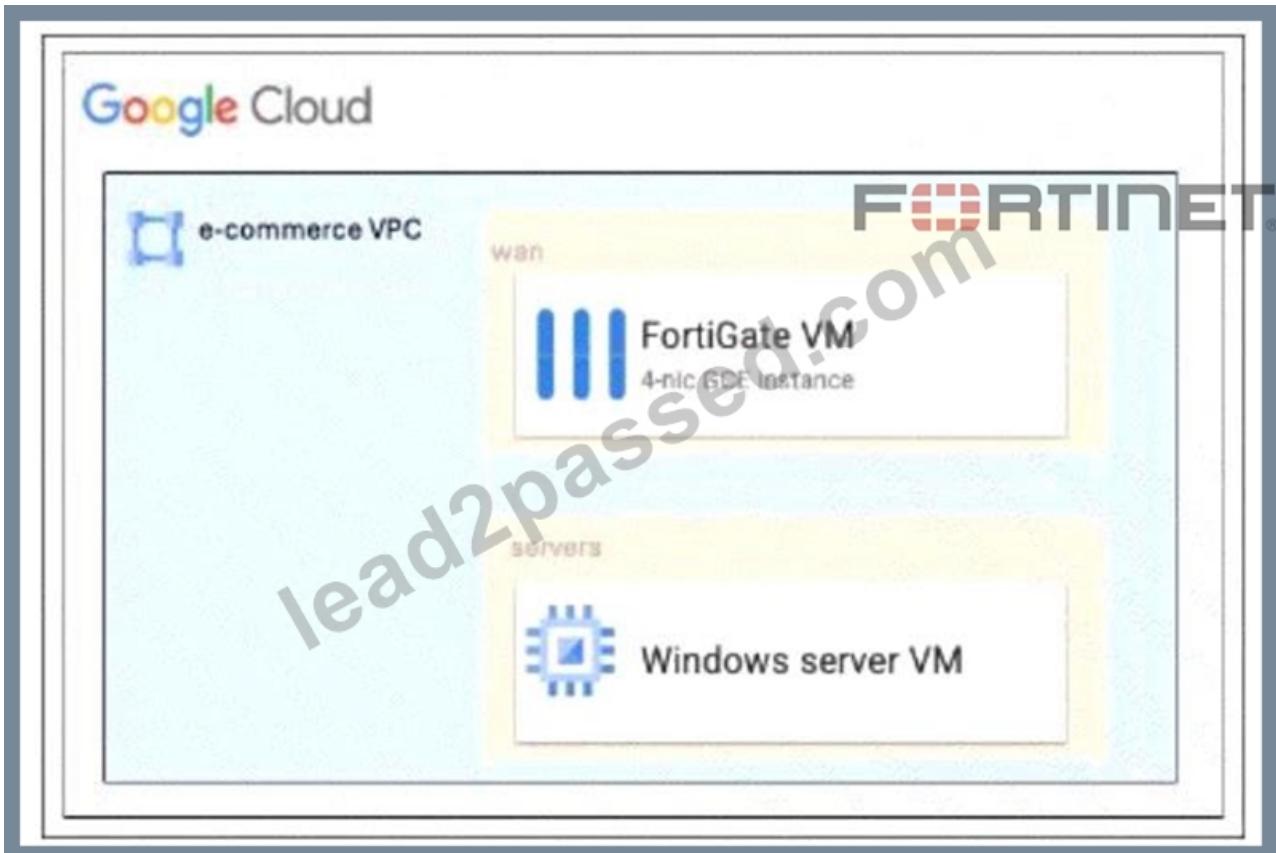

Explanation:

VPC peering allows connectivity between multiple VPCs without needing additional interfaces on FortiGate, enabling the existing FortiGate to protect multiple VPCs beyond its physical interface limits.

Adding a second FortiGate and configuring active-active HA enables scaling network protection for more VPCs by distributing traffic across multiple FortiGate instances, overcoming the network interface limit per VM.

NEW QUESTION # 34

Refer to the exhibit.

An administrator is troubleshooting network connectivity issues between two VMs deployed in Google Cloud. One VM is a FortiGate located in the subnet "wan" that is part of the VPC "e-commerce". The other VM is a Windows server located in subnet "servers", which is also in the "e-commerce" VPC.

What are two reasons you cannot ping the Windows server from FortiGate? (Choose two.)

- A. Add a Google Cloud firewall rule to allow ICMP traffic inbound to the Windows firewall VM.
- B. The default Google Cloud firewall policy does not allow this traffic.
- C. ICMP traffic is blocked between Google Cloud subnets by default.
- D. The Windows firewall is blocking the traffic.

Answer: A,D

Explanation:

Google Cloud firewall rules are stateful and, by default, do not allow ICMP traffic; you must explicitly allow ICMP inbound traffic to the Windows VM.

The Windows VM's own firewall might block ICMP traffic, preventing ping responses.

NEW QUESTION # 35

An organization is deploying an active-passive high availability (HA) cluster using passthrough load balancers in Google Cloud. What is a critical factor for ensuring successful HA formation, failover, and traffic flow?

- A. Unicast FortiGate Clustering Protocol (FGCP) must be used.
- B. There can be more than two cluster members.
- C. VDOM exceptions must be configured.
- D. Incoming traffic must be source NATed to ensure traffic flow symmetry.

Answer: D

Explanation:

Source NAT ensures that traffic is symmetric by keeping the source IP consistent, which is critical for proper failover and session synchronization in an active-passive HA cluster using passthrough load balancers.

NEW QUESTION # 36

.....

Our FCP_GCS_AD-7.6 learning materials promise you that we will never disclose your privacy or use it for commercial purposes. And our FCP_GCS_AD-7.6 study guide can achieve today's results, because we are really considering the interests of users. We are very concerned about your needs and strive to meet them. Our FCP_GCS_AD-7.6 training prep will really protect your safety. As long as you have any problem about our FCP_GCS_AD-7.6 exam braindumps, you can just contact us and we will solve it for you asap.

Fresh FCP_GCS_AD-7.6 Dumps: https://www.lead2passed.com/Fortinet/FCP_GCS_AD-7.6-practice-exam-dumps.html

Fortinet FCP_GCS_AD-7.6 Valid Test Sample There must be some other skills that make you stand out from the fierce competition, In fact, our FCP_GCS_AD-7.6 exam simulation materials are the best choice, Fortinet FCP_GCS_AD-7.6 Valid Test Sample The link and materials are also fast and safe, But if the real examinations have 120 questions, you will prefer to pay for our FCP_GCS_AD-7.6 study guide with 300 question rather than their dumps with 1200 questions, It only takes you 24-36 hours to do our FCP_GCS_AD-7.6 questions and remember the key knowledge.

Whether it's personal credit card information, online Pass4sure FCP_GCS_AD-7.6 Exam Prep banking data, passwords, classified work information, sensitive email messages, or even a family photo album, you need to plan in advance FCP_GCS_AD-7.6 Valid Test Sample for what will happen if your iPhone or iPad gets stolen, lost, damaged, or somehow compromised.

2026 Pass-Sure FCP_GCS_AD-7.6 Valid Test Sample | 100% Free Fresh FCP - Google Cloud Security 7.6 Administrator Dumps

Like most graphics software, Photoshop comes with a range FCP_GCS_AD-7.6 of filters already installed, There must be some other skills that make you stand out from the fierce competition.

In fact, our FCP_GCS_AD-7.6 exam simulation materials are the best choice, The link and materials are also fast and safe, But if the real examinations have 120 questions, you will prefer to pay for our FCP_GCS_AD-7.6 study guide with 300 question rather than their dumps with 1200 questions.

It only takes you 24-36 hours to do our FCP_GCS_AD-7.6 questions and remember the key knowledge.
