After you have tried our free demo, you will be sure to choose our EX432 exam software.

## RedHat Red Hat Certified Specialist in OpenShift Advanced Cluster Management Sample Questions (Q28-Q33):

### NEW QUESTION # 28

Detach (unimport) a managed cluster safely from the hub

#### Answer:

Explanation:

See the solution below in Explanation.

Explanation:

\* Identify the managed cluster:

```
oc get managedcluster
```

\* If required in your environment, remove dependent placements/policies/apps targeting it (exam often expects you to check "why deletion stuck").

\* Delete managed cluster:  
oc delete managedcluster cluster-dev  
\* Watch finalizers and cleanup:  
oc get managedcluster cluster-dev -o yaml | grep finalizers -n  
Why this matters:  
Proper lifecycle operations (import/manage/detach) is core EX432/EX480 scope.

### NEW QUESTION # 29

Create ETCD Encryption Policy (Web Console)

#### Answer:

Explanation:

See the solution below in Explanation.

Explanation:

- \* Open the ACM console on the hub.
  - \* Navigate to Governance # Policies .
  - \* Click Create policy .
  - \* Set Name : policy-etcd.
  - \* Choose the policy template/type ETCD Encryption .
  - \* Set Remediation action to enforce .
  - \* inform = report only
  - \* enforce = attempt to automatically remediate to desired state
  - \* Select clusters/ClusterSets to apply (depends on the wizard).
  - \* Click Submit .
  - \* Verify compliance once applied:
  - \* In console, check policy status: Compliant/NonCompliant
  - \* Or via CLI:
  - \* oc get policy -A
  - \* oc describe policy policy-etcd -n < policy-namespace >
- Why this matters:
- \* Governance policies are a core ACM feature for enforcing security baselines across multiple clusters.

### NEW QUESTION # 30

Create MultiClusterHub (CLI Alternative)

Task information: Apply the MultiClusterHub custom resource if not using Web Console.

#### Answer:

Explanation:

See the solution below in Explanation.

Explanation:

- \* Ensure you are logged into the hub cluster:
  - \* oc whoami
  - \* oc project open-cluster-management
  - \* Create/apply the MultiClusterHub CR:
  - \* oc apply -f multiclusterhub.yaml
  - \* Verify it was created:
  - \* oc get multiclusterhub -A
  - \* oc describe multiclusterhub -n open-cluster-management
  - \* Watch pods come up (typical namespaces include open-cluster-management, open-cluster-management-hub, etc. depending on ACM version/config):
  - \* oc get pods -n open-cluster-management -w
- Why these steps matter:
- \* The MultiClusterHub CR is the "hub installation" object. The operator reconciles it and installs/maintains hub services.

### NEW QUESTION # 31

Use clusteradm to create a token and join a managed cluster (CLI-based import pattern)

#### Answer:

Explanation:

See the solution below in Explanation.

Explanation:

\* On hub, generate join command/token (varies by environment):

```
clusteradm get token
```

\* On managed cluster, run the join/import command.

\* Validate managed cluster appears and is Ready. Why this matters: CLI-based import is a practical alternative to console import and fits real exam workflows.

### NEW QUESTION # 32

Troubleshoot a managed cluster stuck "NotReady" by checking klusterlet/agent components

#### Answer:

Explanation:

See the solution below in Explanation.

Explanation:

\* Check cluster conditions:

```
oc describe managedcluster cluster-dev
```

\* Check agent namespaces and pods on the managed cluster (common namespace names depend on deployment, but you're looking for ACM/klusterlet agents).

\* On hub, check managedclusteraddon and addon health:

```
oc get managedclusteraddon -n cluster-dev
```

```
oc describe managedclusteraddon -n cluster-dev < addon-name >
```

\* Typical fixes: missing pull secret, network/DNS issues, CSR approval issues, etc. (Exam expects you to identify from events/conditions).

### NEW QUESTION # 33

.....

RedHat EX432 actual test questions have effective high-quality content and cover many the real test questions. RedHat EX432 study guide is the best product to help you achieve your goal. If you pass exam and obtain a certification with our RedHat EX432 Study Materials, you can apply for satisfied jobs in the large enterprise and run for senior positions with high salary and high benefits.
