Reliable SAP C_BCBDC_2505 Study Plan - Questions C_BCBDC_2505 Pdf

If you feel unconfident in self-preparation for your C_BCBDC_2505 test and want to get professional aid of questions and answers, ActualPDF C_BCBDC_2505 test questions materials will guide you and help you to pass the certification exams in one shot. If you want to know our C_BCBDC_2505 Test Questions materials, you can download our free demo now. Our demo is a small part of the complete charged version. Also you can ask us any questions about C_BCBDC_2505 exam any time as you like.

SAP C_BCBDC_2505 Exam Syllabus Topics:

Topic	Details

Topic 1	• SAP Analytics Cloud: This section of the exam measures the skills of Data Analysts and covers the use of SAP Analytics Cloud in data visualization, story building, and dashboard creation. Candidates should be familiar with its planning and predictive capabilities, along with how to utilize data insights to drive business decision-making. It also includes managing user access and collaborating through shared analytics assets.
Topic 2	• SAP Datasphere: This section of the exam measures the skills of Solution Consultants and covers a comprehensive understanding of SAP Datasphere. Candidates should demonstrate knowledge of data modeling, transformation, and harmonization using SAP Datasphere tools. It evaluates how well they can work with data layer structuring, semantic modeling, and integration to support real-time data access for various business applications.
Topic 3	• SAP Business Data Cloud: This section of the exam measures the skills of Data Analysts and covers core concepts of the SAP Business Data Cloud. Candidates are expected to understand its key components, integration mechanisms, and how it functions as a foundation for unified data management across SAP and non-SAP environments. The focus is on enabling data connectivity and providing governed access to data across the enterprise.

SAP Certified Associate - SAP Business Data Cloud Sample Questions (Q97-Q102):

NEW QUESTION # 97
In SAP Analytics Cloud, you have a story based on an import model. The transactional data in the model's data source changes. How can you update the data in the model?

- A. Refresh the story
- B. Refresh the data source
- C. Schedule the import
- D. Allow model import

Answer: C

Explanation:
When an SAP Analytics Cloud (SAC) story is based on an import model, the data is physically copied and stored within SAC. Therefore, simply refreshing the story (option A) will only update the visualization with the data already in the model and will not pull new data from the source. Similarly, "Allow model import" (option B) isn't a direct action for updating data, but rather a prerequisite for the import process itself. "Refresh the data source" (option C) is not an action performed within SAC for an import model. To update the data in the model when the transactional data in its source changes, you must schedule the import (option D) or manually re-run the import process. This process re-fetches the latest data from the original source system and updates the SAC import model, ensuring your story reflects the most current information. This scheduling can be set up to occur at regular intervals, keeping the model synchronized with the source data.

NEW QUESTION # 98
Which data source does not require a model be created for it in SAP Analytics Cloud for use in stories?
Please choose the correct answer.
Response:

- A. SAP Datasphere
- B. SAP Business Warehouse (BW)
- C. Microsoft SharePoint

Answer: A

NEW QUESTION # 99
Which of the following statements about SAP Analytics Cloud compass are true?
There are 2 correct answers to this question.
Response:

- A. Compass simulations provide answers when you want to know what will happen in the future if the current trend persists.
- B. Compass simulations provide answers when you what to know the probable impact if there are uncertainties to driver performance.
- C. You can use time series forecasts and compass simulations together.
- D. Compass simulations require historical data to analyze trends.

Answer: B,C

NEW QUESTION # 100

You created a story and want to share it with an external agent, who does not have SAP Analytics Cloud. You decide to export the story as a file. Which file type can be used?
Please choose the correct answer.
Response:

- A. .xlsx
- B. .html
- C. .csv
- D. .pdf

Answer: D

NEW QUESTION # 101
