

# Latest DASCA SDS Exam Registration & SDS Free Braindumps

P.S. Free & New SDS dumps are available on Google Drive shared by Exam4Free: <https://drive.google.com/open?id=1Z1YJSX5NABk9N1inIoLRkrDdaAjvI6wR>

Both theories of knowledge as well as practice of the questions in the SDS practice quiz will help you become more skillful when dealing with the exam. Our experts have distilled the crucial points of the exam into our SDS Training Materials by integrating all useful content into them. And you will find that it is easy to understand the content of the SDS learning guide for our experts have simplified the questions and answers.

Exam4Free SDS practice material can be accessed instantly after purchase, so you won't have to face any excessive issues for preparation of your desired DASCA SDS certification exam. The DASCA SDS Exam Dumps of Exam4Free has been made after seeking advice from many professionals. Our objective is to provide you with the best learning material to clear the SDS exam.

## SDS study guide material & SDS sure pass dumps is for your successful pass

Exam4Free is not only a website but as a professional study tool for candidates. Last but not least, we have advanced operation system of SDS training materials which not only can ensure our customers the fastest delivery speed but also can protect the personal information of our customers automatically. In addition, our professional after sale stuffs will provide considerate online after sale service on the SDS Exam Questions 24/7 for all of our customers. And our pass rate of SDS studying guide is as high as 99% to 100%. You will get your certification with our SDS practice prep.

## DASCA Senior Data Scientist Sample Questions (Q66-Q71):

### NEW QUESTION # 66

Which of the following is NOT a correct situation to use Agile?

- A. When clients/stakeholders need to be able to change the scope
- **B. None of the above**
- C. When changes need to be implemented during the entire process
- D. When the final product isn't clearly defined

**Answer: B**

Explanation:

Agile methodology is widely adopted in data science projects because these projects often involve uncertain goals, exploratory analysis, and changing requirements. Agile thrives in environments where iteration, collaboration, and adaptability are necessary.

Option A: True for Agile. If the final product is unclear (common in data science), Agile works well because it allows incremental discovery and iterative prototyping.

Option B: True for Agile. Agile frameworks (Scrum, Kanban) emphasize flexibility, which means the scope can evolve as stakeholders learn more from data and models.

Option C: True for Agile. Agile welcomes continuous changes through iterative sprints and feedback loops.

This adaptability is crucial in machine learning model development where data insights often reshape project direction.

Since all three situations are valid for Agile, the correct answer to "Which is NOT correct?" is None of the above (Option D).

Reference:

DASCA Data Scientist Knowledge Framework (DSKF) - Business Applications of Data Science & Agile Methodologies in Data Projects.

### NEW QUESTION # 67

Which of the following is NOT used to implement Agile?

- A. Scrum
- B. Kanban
- C. Extreme Programming (XP)
- **D. Six Sigma**

**Answer: D**

Explanation:

Agile is a project management and product development methodology that emphasizes flexibility, iterative development, collaboration, and adaptability. Common frameworks that implement Agile principles include:

Scrum (Option A): A widely used Agile framework where work is divided into time-boxed sprints, roles are clearly defined (Scrum Master, Product Owner, Development Team), and progress is tracked via tools like burn down charts.

Kanban (Option B): A visual Agile method that manages workflow using a pull-based system with Kanban boards to visualize tasks and control work in progress (WIP).

Extreme Programming (XP, Option D): Another Agile method that focuses on high-quality software through technical practices like continuous integration, test-driven development (TDD), and pair programming.

By contrast:

Six Sigma (Option C): Six Sigma is a process improvement methodology that emphasizes reducing defects and improving quality through statistical analysis. It is not considered an Agile implementation framework.

Thus, the correct answer is Six Sigma (C).

DASCA Data Scientist Knowledge Framework (DSKF) - Agile Methodologies and Project Management in Data Science.

### NEW QUESTION # 68

What is TRUE for "rehashing"?

- A. It requires a new hash function, which maps values into a larger range of integers
- B. Allocate a new, larger hash table in memory
- **C. All of the above**
- D. Both A and B

- E. Key/value pairs from the original table can be inserted into the new, larger one

**Answer: C**

Explanation:

Rehashing is a technique used in dynamic hash tables when the load factor (ratio of entries to bucket size) exceeds a certain threshold. It ensures efficient lookup, insertion, and deletion operations.

Option A (Correct): A larger hash table is allocated in memory to accommodate more entries.

Option B (Correct): A new hash function is typically required to map keys into the expanded table range.

Option C (Correct): All key-value pairs from the old table are re-inserted (rehashed) into the new table using the new hash function. Since all three conditions (A, B, and C) are true, the best choice is Option E (All of the above).

DASCA Data Scientist Knowledge Framework (DSKF) - Programming for Data Science: Data Structures & Hashing Techniques

### NEW QUESTION # 69

Which of the following is NOT a process of Use Case?

- A. Brainstorm the questions that the key stakeholders need to answer to facilitate making the decisions
- **B. Brainstorm the outcomes that the key stakeholders need to answer to facilitate making the decisions**
- C. Capture the decisions that the key business stakeholders need to make in order to support the organization's key business initiatives
- D. Identify your key business stakeholders
- E. Understand your organization's key business initiatives or business challenge

**Answer: B**

Explanation:

Use Case Development in data science projects involves identifying business needs and mapping analytics to business decisions. The standard steps include:

Option A: Understanding the key initiatives or challenges.

Option B: Identifying the key stakeholders.

Option C: Capturing the decisions stakeholders must make.

Option E: Brainstorming the questions stakeholders need answered to support decisions.

However:

Option D (Brainstorm the outcomes stakeholders need to answer): Incorrect phrasing. It is not "outcomes" that are brainstormed but questions and decisions.

Thus, the correct answer is Option D.

Reference:

DASCA Data Scientist Knowledge Framework (DSKF) - Business Use Case Development Process.

### NEW QUESTION # 70

What is DevOps?

- A. Software Development
- B. Quality Assurance
- **C. All**
- D. Software Operations

**Answer: C**

Explanation:

DevOps is not just about coding (development) or system administration (operations). It is a holistic cultural and technical practice that unifies:

Software Development (Option A): Writing and building applications.

Software Operations (Option B): Deploying, monitoring, and maintaining systems in production.

Quality Assurance (Option C): Ensuring the reliability, security, and performance of applications through testing and automation.

Thus, DevOps encompasses all three dimensions, making the correct answer Option D (All).

## NEW QUESTION # 71

.....

We believe that the best brands are those that go beyond expectations. They don't just do the job – they go deeper and become the fabric of our lives. Therefore, as the famous brand, even though we have been very successful we have never satisfied with the status quo, and always be willing to constantly update the contents of our SDS Exam Torrent. Decades of painstaking efforts have put us in the leading position of SDS training materials compiling market, and the excellent quality of our SDS guide torrent and high class operation system in our company have won the common recognition from many international customers for us.

**SDS Free Braindumps:** <https://www.exam4free.com/SDS-valid-dumps.html>

Once you receive our SDS training vce, you can download and print the Senior Data Scientist online test engine quickly, DASCALatest SDS Exam Registration We want to emphasis that if you buy our test online materials please surely finish all questions and master its key knowledge, DASCALatest SDS Exam Registration With best wishes, we hope you can become one part of the successful group as soon as possible, Preparation for the Senior Data Scientist (SDS) exam is no more difficult because experts have introduced the preparatory products.

That's the question that I get quite frequently in social functions, The code points to the video on the YouTube site, Once you receive our SDS training vce, you can download and print the Senior Data Scientist online test engine quickly.

## Provides complete coverage of every objective on exam SDS Latest Exam Registration

We want to emphasis that if you buy our test online materials please surely SDS PDF Dumps Files finish all questions and master its key knowledge, With best wishes, we hope you can become one part of the successful group as soon as possible.

Preparation for the Senior Data Scientist (SDS) exam is no more difficult because experts have introduced the preparatory products, Secondly, the product can be installed SDS to any soffphone or tablet that makes your learning process more easy and prompt.
