

# Interactive AP-202 Course - AP-202 Exam Questions Fee

## AP Exam Practice

$t$ (minutes)	0	1	2	3	4	5	6
$C(t)$ (ounces)	0	5.3	8.8	11.2	12.8	13.8	14.5

3. Hot water is dripping through a coffeemaker, filling a large cup with coffee. The amount of coffee in the cup at time  $t$ ,  $0 \leq t \leq 6$ , is given by a differentiable function  $C$ , where  $t$  is measured in minutes. Selected values of  $C(t)$ , measured in ounces, are given in the table above.
- (a) Use the data in the table to approximate  $C'(3.5)$ . Show the computations that lead to your answer, and indicate units of measure.
- (b) Is there a time  $t$ ,  $2 \leq t \leq 4$ , at which  $C'(t) = 2$ ? Justify your answer.
- (c) Use a midpoint sum with three subintervals of equal length indicated by the data in the table to approximate the value of  $\frac{1}{6} \int_0^6 C(t) dt$ . Using correct units, explain the meaning of  $\frac{1}{6} \int_0^6 C(t) dt$  in the context of the problem.
- (d) The amount of coffee in the cup, in ounces, is modeled by  $B(t) = 16 - 16e^{-0.4t}$ . Using this model, find the rate at which the amount of coffee in the cup is changing when  $t = 5$ .

our AP-202 practice torrent is the most suitable learning product for you to complete your targets. It is never too late to try new things no matter how old you are. Someone always give up their dream because of their ages, someone give up trying to overcome AP-202 exam because it was difficult for them. Now, no matter what the reason you didn't pass the exam, our study materials will try our best to help you. If you are not sure what kinds of AP-202 Exam Question is appropriate for you, you can try our free demo of the PDF version. There must be one that suits you best.

Our B2B Commerce for Developers Accredited Professional (AP-202) exam dumps give help to give you an idea about the actual B2B Commerce for Developers Accredited Professional (AP-202) exam. You can attempt multiple B2B Commerce for Developers Accredited Professional (AP-202) exam questions on the software to improve your performance. You have the option to change the topic and set the time according to the actual Salesforce AP-202 Exam.

## AP-202 Exam Questions Fee - AP-202 Valid Guide Files

There is nothing more exciting than an effective and useful AP-202 question bank if you want to get the AP-202 certification in the least time by the first attempt. The sooner you use our AP-202 training materials, the more chance you will pass AP-202 the exam, and the earlier you get your AP-202 certificate. You definitely have to have a try on our AP-202 exam questions and you will be satisfied without doubt. Besides that, We are amply praised by our customers all over the world not only for our valid and accurate AP-202 study materials, but also for our excellent service.

## Salesforce B2B Commerce for Developers Accredited Professional Sample Questions (Q147-Q152):

### NEW QUESTION # 147

How are variables bound when services use the `ccServiceDao` class to execute queries?

- A. Global variables
- **B. String substitution**
- C. Apex class variables
- D. Apex local variables

**Answer: B**

Explanation:

When services use the `ccServiceDao` class to execute queries, variables are bound by string substitution. This means that the query string contains placeholders for variables that are replaced by their values at runtime. For example, `ccrz.ccServiceDao.getQuery('SELECT Id FROM Account WHERE Name = :name')` will replace `:name` with the value of `theName` variable.

### NEW QUESTION # 148

Which wire adapter should a developer use to retrieve metadata about a specific object?

- A. getObjectDescribe
- B. getObject
- C. getObjectMetadata
- **D. getObjectInfo**

**Answer: D**

Explanation:

To retrieve metadata about a specific object, a developer should use the getObjectInfo wire adapter. The getObjectInfo wire adapter imports data from the @salesforce/schema module and returns an object that contains information such as the object's label, key prefix, fields, child relationships, record type infos, and theme. The getObjectMetadata wire adapter does not exist. The getObject wire adapter does not retrieve metadata, but rather returns a record object based on the record ID. The getObjectDescribe wire adapter does not exist either. Salesforce [Lightning Web Components Developer Guide: getObjectInfo], [Lightning Web Components Developer Guide: Import Salesforce Schema]

### NEW QUESTION # 149

Which template will correctly display the details message only when areDetailsVisible becomes true given the following code in a Lightning Web Component?

- **A. ☐**
- B. ☐
- C. ☐
- D. ☐

**Answer: A**

Explanation:

The template that will correctly display the details message only when areDetailsVisible becomes true given the following code in a Lightning Web Component is option C. Option C uses the if:true directive to conditionally render a template block based on the value of areDetailsVisible. If areDetailsVisible is true, the template block inside the <template if:true={areDetailsVisible}> tag will be rendered. Otherwise, it will be skipped. Option A is incorrect because it uses the if:false directive, which does the opposite of if:true. It renders the template block only when areDetailsVisible is false. Option B is incorrect because it uses an invalid syntax for the if directive. The if directive requires a colon (:) after the if keyword, not an equal sign (=). Option D is incorrect because it uses an invalid syntax for the template tag. The template tag requires a closing tag (</template>), not a self-closing tag (<template/>). Salesforce Lightning Web Components Developer Guide: Conditional Rendering, Lightning Web Components Developer Guide: Template Syntax

### NEW QUESTION # 150

Which three actions are applicable when modifying the number of steps required in the Salesforce Commerce Checkout flow? (3 answers)

- A. Add a page include to the checkout page.
- **B. Perform a template override on the Checkout page.**
- **C. Build and activate a new configuration cache setting via CC admin.**
- **D. Set the value of the configuration setting defined as CO.overrideFlow to TRUE**
- E. Set the value of the configuration setting defined as CO.useDef to TRUE

**Answer: B,C,D**

Explanation:

Three actions that are applicable when modifying the number of steps required in the Salesforce Commerce Checkout flow are: Perform a template override on the Checkout page. This action will allow you to change the structure and content of the Checkout page, such as adding or removing sections, widgets, or fields. For example, you can override the checkout.handlebars template and modify it according to your requirements. Set the value of the configuration setting defined as CO.overrideFlow to TRUE. This setting will enable you to use your own custom checkout flow instead of the default one. You need to set this value to true before you can modify the checkout flow.

Set the value of the configuration setting defined as CO.useDef to TRUE. This setting will enable you to use a single-page checkout flow instead of a multi-step checkout flow. You need to set this value to true if you want to reduce the number of steps in the checkout flow to one. Salesforce B2B Commerce and D2C Commerce Developer Guide, Checkout Flow

### NEW QUESTION # 151

Which three components should a developer use on the product page to replace the out-of-the-box Product Detail Card component?

- A. Product Detail Image Gallery component
- B. Product Field Long component
- C. Product Detail Purchase Options component
- D. Product Detail Breadcrumbs component
- E. Product Fields Short component

Answer: E

### NEW QUESTION # 152

.....

Knowledge of the AP-202 study materials contains is very comprehensive, not only have the function of online learning, also can help the user to leak fill a vacancy, let those who deal with qualification exam users can easily and efficient use of the AP-202 study materials. By visit our website, the user can obtain an experimental demonstration, free after the user experience can choose the most appropriate and most favorite AP-202 Study Materials download. Users can not only learn new knowledge, can also apply theory into the actual problem, but also can leak fill a vacancy, can say such case selection is to meet, so to grasp the opportunity!
