

Frequent 300-425 Update - 300-425 Clear Exam

P.S. Free 2026 Cisco 300-425 dumps are available on Google Drive shared by ValidVCE: <https://drive.google.com/open?id=1P5mpGd-Bx95gksG3qZXjnb82ckn-wN12>

there are free trial services provided by our 300-425 preparation braindumps-the free demos. On the one hand, by the free trial services you can get close contact with our products, learn about our 300-425 study guide, and know how to choose the most suitable version. On the other hand, using free trial downloading before purchasing, I can promise that you will have a good command of the function of our 300-425 training prep.

Cisco 300-425 certification exam is a part of the Cisco Certified Design Professional (CCDP) certification. The CCDP certification is designed for network engineers and architects who have advanced knowledge and skills in designing Cisco-based networks. Designing Cisco Enterprise Wireless Networks certification is highly valued in the industry and is widely recognized by employers around the world.

Cisco 300-425 Certification Exam is designed for network engineers and IT professionals who are responsible for designing Cisco Enterprise Wireless Networks. Designing Cisco Enterprise Wireless Networks certification exam is a part of the Cisco Certified Design Expert (CCDE) program and focuses on the skills and knowledge required to design wireless solutions for enterprise-level networks. 300-425 Exam Tests the candidate's ability to design and deploy advanced wireless networks, including analyzing and optimizing network performance, troubleshooting network issues, and implementing security protocols.

300-425 Clear Exam | Dumps 300-425 Free Download

We guarantee that if you study our 300-425 guide materials with dedication and enthusiasm step by step, you will desperately pass the exam without doubt. As the authoritative provider of study materials, we are always in pursuit of high pass rate of 300-425 practice test compared with our counterparts to gain more attention from potential customers. Otherwise if you fail to pass the exam unfortunately with our 300-425 Study Materials, we will full refund the products cost to you soon. Our 300-425 study torrent will be more attractive and marvelous with high pass rate.

Cisco Designing Cisco Enterprise Wireless Networks Sample Questions (Q242-Q247):

NEW QUESTION # 242

Which statement about the 9800 Series Wireless Controller mobility tunnel on a Cisco Catalyst 9800 controller is true?

- A. It is an IPsec tunnel with control path only.
- B. It is an IPsec tunnel with control path and data path.
- C. It is a CAPWAP tunnel with control path and data path.**
- D. It is a CAPWAP tunnel with data path only.

Answer: C

Explanation:

The Cisco Catalyst 9800 Series Wireless Controller mobility tunnel is a CAPWAP tunnel with **control path (UDP 16666)** and **data path (UDP 16667)**. The control path is DTLS encrypted by default. Data path DTLS can be enabled when you add the mobility peer.

NEW QUESTION # 243

A network engineer is designing a new wireless network. The network needs to have these characteristics:

Which approach should be taken?

- A. Deploy APs near each other for 2.4 GHz coverage, and disable the 5 GHz radios for some APs.
- B. Deploy APs near each other for 5 GHz coverage, and disable the 2.4 GHz radios for some APs.
- C. Deploy APs near each other for 5 GHz coverage, and enable the 2.4 GHz radios for all APs.
- D. Deploy APs near each other for 2.4 GHz coverage, and disable the 5 GHz radios for all APs.

Answer: A

Explanation:

https://www.cisco.com/c/en/us/td/docs/wireless/controller/technotes/86/b_Cisco_Wireless_LAN_Controller_Configuration_Best_Practices.html

NEW QUESTION # 244

A wireless engineer must design mobility between two buildings at a campus site. The engineer has one controller at each site. The engineer is investigating inter-controller CAPWAP data and control traffic. Which two ports must be open? (Choose two.)

- A. 0
- B. 1
- C. 2
- D. 3
- E. 4

Answer: D,E

NEW QUESTION # 245

A 60,000-square foot outdoor area must be surveyed. The survey must be completed in the least amount of time. Which tool or equipment is used when performing the site survey?

- A. additional access points that use sniffer mode
- B. additional access points that use GPS mode
- C. site survey tool that has modules in sniffer mode
- D. site survey tool that has a GPS module

Answer: D

Explanation:

When performing a site survey of a large outdoor area, a site survey tool with a GPS module is ideal. The GPS module allows for precise location tracking, which is essential for mapping signal coverage over a large area. This tool can help complete the survey efficiently by automatically recording the location of signal measurements.

NEW QUESTION # 246

A customer called with a requirement that internal clients must be on different subnets depending on the building they are in. All access points are operating in local mode and will not be modified, and this is a single controller solution. Which design approach creates the desired result?

- A. Create mobility anchors for the SSID and on the controller under the internal SSID create a foreign map to the desired VLAN based on location.
- B. Create AP groups for each desired location, map the correct VLANs to the internal SSID, and add the access points for that location.
- C. Create FlexConnect groups, place the access points in, and set the correct VLAN to SSID mapping based on location.
- D. Create an SSID place it to the desired VLAN under WLANs and configure 802.1x in ISE to assign the correct VLAN based on the SSID from which the client is authenticating

Answer: B

Explanation:

Creating AP groups for each location allows for the mapping of specific VLANs to an internal SSID tailored for that area. This approach

enables clients to be on different subnets based on their building location within a single controller environment.

NEW QUESTION # 247

.....

ValidVCE is one of the leading platforms that has been helping Designing Cisco Enterprise Wireless Networks (300-425) exam candidates for many years. Over this long time period we have helped Designing Cisco Enterprise Wireless Networks (300-425) exam candidates in their preparation. They got help from ValidVCE Cisco 300-425 Practice Questions and easily got success in the final Cisco 300-425 certification exam. You can also trust ValidVCE Designing Cisco Enterprise Wireless Networks (300-425) exam dumps and start preparation with complete peace of mind and satisfaction.
